a student-oriented pedagogy designed to enhance comprehension, promote engagement, and build real-world understanding, this user-friendly book provides an essential foundation in current advanced accounting methods and standards. The Eleventh Edition of Advanced Financial Accounting is an up-to-date, comprehensive, and highly illustrated presentation of the accounting and reporting principles and procedures used in a variety of business entities. Every day, the business press carries stories about the merger and acquisition mania, the complexities of modern business entities, new organizational structures for conducting business,

accounting scandals related to complex business transactions, the foreign activities of multinational firms, the operations of governmental and not-for-profit entities, and bankruptcies of major firms. Accountants must understand and know how to deal with the accounting and reporting ramifications of these issues.

Marketing Management, 9/e, by Peter and Donnelly, is praised in the market for its organization, format, clarity, brevity and flexibility. The goal of this text is to enhance students' knowledge of marketing management and to advance their skills in utilizing this knowledge to develop and maintain successful

marketing strategies. The six stage learning approach is the focus of the seven unique sections of the book. Each section has as its objective either knowledge enhancement or skill development, or both. The framework and structure of the book is integrated throughout the sections of the new edition. The basic structure of the text continues to evolve and expand with numerous updates and revisions throughout.
