The Evolution of Integrated Marketing Communications

International Direct Marketing

ADVERTISING & IMC

How can a company effectively communicate its message to customers and prospects all over the world? How can it ensure that its branding messages "travel"? Designed to help executives position and leverage marketing communication in the global arena and use it to their ongoing strategic advantage, Communicating Globally shows how to successfully strategize, select appropriate communication tactics, and then execute a global communication plan that encompasses all sources of communication, both internal and external. Based on the strong theoretical foundations of integrated marketing communication (IMC), Communicating Globally offers a practitioner's perspective on integrated global marketing communication (IGMC) in action through vignettes, four complete case studies of well-recognized multinational brands, and one study case. Praise for Communicating Globally "In the 21st century, the ability of ad agencies to provide worldwide, integrated marketing services for their clients will become essential. Only those marketers and agencies with the ability to brand products and services globally will thrive. Communicating Globally provides a roadmap on how to do it right." O. Burt Drake, president-CEO, Advertising Agencies "No one can provide a guaranteed formula for future success, but Communicating Globally comes awfully close. By combining an astute knowledge of the global marketplace, emerging trends and technologies, and good old common sense, Don Schultz and Philip Kotler illuminate the path for successful brand building in the 21st century." Ed Farnold, vice president, corporate marketing communications, CIGNA Corporation "Don Schultz has done it again! His unique and highly readable approach is a must for companies looking to market globally in the new century. Communicating Globally offers an important road map through the maze of global marketing communications." James R. Gregory, CEO, Corporate Branding, LLC "This book is important because it brings the concept of integrated marketing communications (IMC) into full international focus for the first time. This focus is maintained throughout the whole structure and it makes the book a truly conceptual work. The case studies that illustrate the practical ramifications of international IMC yield significant general as well as specific lessons." John Philip Jones, Syracuse University "The 1990's introduced integrated marketing--understanding and communicating relevantly with customers by using information. Communicating Globally now takes the same principles and adapts them to today's dynamic global marketplace. Even better, it is written in a style that makes it easy for a non-marketer to fully understand the importance of managing a brand." John R. Wallis, vice president of marketing, Hyatt International Corporation

An Evidence-based Approach

This book reviews, updates and enhances the basic concepts surrounding the academic theory and practice of Integrated Marketing Communication (IMC). Since the introduction of IMC in the late 1980s, the concept has spread around the world. In that expansion, many authors have written about IMC; practitioners have adopted and adapted the concept to fit their own market situations. Further, dramatic changes have occurred in the technologies used in marketing communications which consumers have accepted and employed in their consumption of marketers' messages and incentives. Thus, there have been dramatic changes in how IMC was initially envisioned and how it has developed over time. This book identifies and discusses these changes, how they have occurred and what they mean going forward for all types of marketers around the world. Thus, IMC, and indeed integration of communications at all organisational levels is an essential in the 21st century organisation. This book was published as a special issue of the Journal of Marketing Communications.

For introductory courses in Advertising, offered in Marketing, Journalism and Communication departments, this advertising textbook emphasizes on measuring advertising effectiveness.

This innovative work provides a state-of-the-art overview of current thinking about the development of brand strategy. Unlike other books on branding, it approaches successful brand strategy from both the producer and consumer perspectives. "The Science and Art of Branding" makes clear distinctions among the producer's intentions, external brand realities, and consumer's brand perceptions - and explains how to fit them all together to build successful brands. Co-author Sandra Moriarty is also the author of the leading Principles of Advertising textbook, and she and Giep Franzen have filled this volume with practical learning tools for scholars and students of marketing and marketing communications, as well as actual brand managers. The book explains theoretical concepts and illustrates them with real-life examples that include case studies and findings from large-scale market research. Every chapter opens with a mini-case history, and boxed inserts featuring quotes from experts appear throughout the book. "The Science and Art of Branding" also goes much more deeply than other works into the core concept of brand equity, employing

new measurement systems only developed over the last few years.

The references are comprehensive and the Handbook opens up many key areas for practitioners' - Hamish Pringle, Director General, IPA 'Finally, a Handbook of Advertising that brings the field up-to-date. I am impressed with its comprehensive coverage of topics and the distinguished specialists who have shared their key findings with us' - Philip Kotler, Kellogg School of Management 'When trying to make sense of the mystifying world of advertising, academics and practitioners often seem to inhabit separate universes. Not in this Handbook. For once, the best brains from each side genuinely collude - with constructive results. For practitioners and academics alike, it will be a voyage of discovery and enlightenment' - Lord (Maurice) Saatchi, Chairman, M&C Saatchi 'This magnificent volume captures all we need to know about how advertising works and its context' - Baroness (Peta) Buscombe, Director General, Advertising Association, London Advertising is a field that has attracted a great deal of academic attention, but to date there has been no summarising of the state of the art of research.
