This book explains the basic sketching techniques and decisions more in depth and provides much more step-by-step example drawings, which makes it even more suitable for students and professionals who want to become better sketchers. Sketching the Basics can be seen as the prequel to Sketching as it is more targeted at the novice designer. The Basics explains the essential techniques and effects more in detail, taking the reader by the hand and guiding him step by step through all the various aspects of drawing that novice designers come up against. Sketching the Basics starts with the white sheet of paper or the empty screen and explains the rudiments of learning to draw both clearly and comprehensively, using step by step illustrations, examples and strategies. You will learn to use and master the different techniques and also how to apply sketches in the design process. Internationally leading Designers from various cultures around the world contributed Designer Showcases to illustrate the sketching theory. They contributed series of sketches that reflect the process of the design, from thumbnail to final drawing. Drawings that have proven to be important in the decision-making The authors believe in active observation and participation by the student. During the drawing process there are many moments when choices alter the outcome. Being aware of those moments and the variety of choices and opportunities makes your attitude more flexible and less rigid. Sketching the Basics helps you to sketch with an open mind. And an open mind is key to a good design process.

A TODAY SHOW #ReadWithJenna BOOK CLUB PICK! A New York Times Notable Book For readers of Tommy Orange, Yaa Gyasi, and Jhumpa Lahiri, an electrifying debut novel about three unforgettable characters who seek to rise—to the middle class, to political power, to fame in the movies—and find their lives entangled in the wake of a catastrophe in contemporary India. In this National Book Award Longlist honoree and “gripping thriller with compassionate social commentary” (USA Today), Jivan is a Muslim girl from the slums, determined to move up in life, who is accused of executing a terrorist attack on a train because of a careless comment on Facebook. PT Sir is an opportunistic gym teacher who hitches his aspirations to a right-wing political party, and finds that his own ascent becomes linked to Jivan's fall. Lovely—an irresistible outcast whose exuberant voice and dreams of glory fill the novel with warmth and hope and humor—has the alibi that can set Jivan free, but it will cost her everything she holds dear. Taut, symphonic, propulsive, and riveting from its opening lines, A Burning has the force of an epic while being so masterfully compressed it can be read in a single sitting. Majumdar writes with dazzling assurance at a breakneck pace on complex themes that read here as the components of a thriller: class, fate, corruption, justice, and what it feels like to face profound obstacles and yet nurture big dreams in a country spinning toward extremism. An extraordinary debut.
