CREEPERS, David Morrell’s gripping joyride of a thriller, depicts every harrowing second in eight hours of relentless terror. A New York Times bestseller, it received the prestigious Stoker Award from the Horror Writers Association. On a cold October night, five people gather in a run-down motel on the New Jersey shore and begin preparations to break in to the Paragon Hotel. Built in the glory days of Asbury Park by a reclusive millionaire, the magnificent structure—which foreshadowed the beauties of art-deco architecture—is now boarded up and marked for demolition. The five people are “creepers,” the slang term for urban explorers: city archeologists with a passion for investigating abandoned buildings and their dying secrets. On this evening, they are joined by a reporter who wants to profile them—anonymously, as this is a highly illegal activity—for a New York Times article. Frank Balenger isn’t looking for just a story, however. And after the group enters the rat-infested tunnel leading to the hotel, it becomes clear that he will get much more than he bargained for. Danger, terror, and death await the creepers in a place ravaged by time and redolent of evil. The darkest secrets live in places you’re not supposed to be. “Chilling.” –Stephen King, New York Times bestselling author of Doctor Sleep “Crack this novel, and it’s like an alien abduction of your brain—resuming your normal life until it’s finished. This will be a classic.”—Douglas Preston, New York Times bestselling co-author (with Lincoln Child) of White Fire “With its nonstop cascade of ingeniously contrived dangers and assaults, culminating in an apocalyptic finale, Creepers provides the essence of all thrillers, an intense emotional effect that will leave readers drained.”—Washington Post

The second terrifying novel from new thriller writer Jack Kilborn - author of AFRaid.

When Cherie Alvarez was a child, a moment of shocking violence shattered her world into a thousand bloody pieces. Plagued by nightmares and taunted by schoolyard bullies, the young girl spent years recovering from what law enforcement described as a “sickening and gruesome act of evil.” Now a college student, Cherie has found solace in film, theater, and all the beloved traditions of the Halloween season. But when she and her friends participate in an immersive, “extreme” haunted attraction, Cherie must once again break the chains of victimhood and face the open wounds of her past. After enduring one man’s twisted vision of horror and perversion, Cherie finds herself challenged by a cult-like force determined to destroy her. What follows is a singular night of grueling terror, calculated revenge, and backwoods slaughter. An epistolary thriller, DEATH RITUALS gathers the ephemera of a young woman’s life—short stories, articles, scripts, photographs, televised reports, and more—to tell a story of chilling depravity and undaunted courage.

They have a combined total of 500 million book sales, and have won every possible award in the mystery, thriller, and dark fiction genres. Thirty original hitman stories by today’s modern masters. Seven "masterfully told" stories of suspense and nightmarish drama from the National Book Award-winning author of Them (The Guardian). With the novella and six stories collected here, Joyce Carol Oates reaffirms her singular reputation for portraying the dark complexities of the human psyche. The title novella tells the story of Marissa, an eleven-year-old girl with hair the color of corn silk. When she suddenly disappears, mounting evidence points to a local substitute teacher. Meanwhile, an older girl from Melissa's school is giddy with her power to cause so much havoc unnoticed. And she intends to use that power to enact a terrifying ritual called The Corn Maiden. In "Helping Hands," published here for the first time, a widow meets an Iraq War veteran in a dingy charity shop, having no idea where the peculiar encounter is about to lead. In "Fossil Figures," a pair of twins—an artist and a congressman—never outgrow an ugly sibling rivalry. And in "A Hole in the Head," a plastic surgeon gives in to an unusual and dangerous request. Together, these seven tales offer "a virtuosic performance" of "pining, unsettling, intelligent" storytelling from one of the world's greatest writers o suspense (The Guardian). "The seven stories in this stellar collection from the prolific Oates may prompt the reader to turn on all the lights or jump at imagined noises. . . . This volume burnishes [her] reputation as a master of psychological dread." —Publishers Weekly, starred review "For horror stories to be truly horrific, the reader has to care. Oates feels this deeply in her writing, and delivers with style." —The Independent "Further confirmation of a unique writer's restless, preternatural brilliance." —The Guardian
