

Agatha H And The Airship City Girl Genius

A middle-grade fantasy and nonstop adventure, *The Train to Impossible Places* by debut author P. G. Bell is as fun as it is full of heart, and the first book of a trilogy. A train that travels through impossible places. A boy trapped in a snow globe. And a girl who's about to go on the adventure of a lifetime. The Impossible Postal Express is no ordinary train. It's a troll-operated delivery service that runs everywhere from ocean-bottom shipwrecks, to Trollville, to space. But when this impossible train comes roaring through Suzy's living room, her world turns upside down. After sneaking on board, Suzy suddenly finds herself Deputy Post Master aboard the train, and faced with her first delivery—to the evil Lady Crepuscula. Then, the package itself begs Suzy not to deliver him. A talking snow globe, Frederick has information Crepuscula could use to take over the entire Union of Impossible Places. But when protecting Frederick means putting her friends in danger, Suzy has to make a difficult choice—with the fate of the entire Union at stake.

The Industrial Revolution has escalated into all-out warfare. It has been eighteen years since the Heterodyne Boys, benevolent adventurers and inventors, disappeared under mysterious circumstances. Today, Europe is ruled by the Sparks, dynasties of mad scientists ruling over – and terrorizing – the hapless population with their bizarre inventions and unchecked power, while the downtrodden dream of the Hetrodynes' return. At Transylvania Polygnostic University, a pretty, young student named Agatha Clay seems to have nothing but bad luck. Incapable of building anything that actually works, but dedicated to her studies, Agatha seems destined for a lackluster career as a minor lab assistant. But when the University is overthrown by the ruthless tyrant Baron Klaus Wulfenbach, Agatha finds herself a prisoner aboard his massive airship Castle Wulfenbach – and it begins to look like she might carry a spark of Mad Science after all. Eighteen-year-old Kali McAlister enters her steam-powered "dogless sled" in a race, intending to win the thousand-dollar prize and escape remote Moose Hollow forever. The problem? Fortune seekers and airship pirates are after her for the secret to flash gold, her late father's alchemical masterpiece.

In the third installment of the *Girl Genius* novels, *Agatha H. and the Voice of the Castle* begins as Agatha Heterodyne returns to her ancestral home, the warped little town of Mechanicsburg. There she must claim her inheritance by convincing the artificial intelligence that animates her family's castle that she is, in fact, the new Heterodyne. But this apparently simple task is made complicated in several ways: An imposter claiming to be the legitimate heir appears. The Empire is convinced that Agatha is the person responsible for the Long War (and to be fair, they are not entirely incorrect). And, worst of all, the Castle itself is insane. From the Hugo Award-winning *Girl Genius* online comics comes this third book in the Agatha H. trilogy; and just like the first two, *Agatha H. and the Voice of the Castle* will grab you from

The Curious Case of the Clockwork Man

Mark Hodder's second Burton & Swinburne steampunk adventure, following the acclaimed The Strange Affair of Spring Heeled Jack, is filled with eccentric steam-driven technology, grotesque characters, and a deepening mystery. When a clockwork-powered man of brass is found abandoned in Trafalgar Square, Burton and his assistant, the wayward poet Algernon Swinburne, find themselves on the trail of the stolen Garnier Collection--black diamonds rumored to be fragments of the Lemurian Eye of Naga, a meteorite that fell to Earth in prehistoric times. From a haunted mansion to the Bedlam madhouse, from South America to Australia, from séances to a secret labyrinth, Burton struggles with shadowy opponents and his own inner demons. Can the king's agent expose a plot that threatens to rip the British Empire apart, leading to an international conflict the like of which the world has never seen? And what part does the clockwork man have to play? From the Trade Paperback edition.

Sharrow was once the leader of a personality-attuned combat team in one of the sporadic little commercial wars in the civilization based around the planet Golter. Now she is hunted by the Huhsz, a religious cult which believes that she is the last obstacle before the faith's apotheosis, and her only hope of escape is to find the last of the apocalyptically powerful Lazy Guns before the Huhsz find her. Her journey through the exotic Golterian system is a destructive and savage odyssey into her past, and that of her family and of the system itself.

Highlighting neo-Victorian humour's crucial role in shaping contemporary re-visions of nineteenth-century culture, this volume explores the major aesthetic, ideological and ethical issues raised by refracting the past through a comic lens, especially through self-conscious irony, parody, and black humour.

The Industrial Revolution has escalated into all-out warfare. From Phil and Kaja Foglio, creators of the Hugo, Eagle, and Eisner Award-nominated Web comic Girl Genius, comes "Agatha H. and the Airship City," a gaslamp fantasy bursting with adventure, romance, and mad science.

The Heart of Glass

The madcap, macabre, and maddeningly funny Tales from the Five Kingdoms continue – with an oddly heart-warming adventure. It's a fine day for dwarf watching! At least that's what Gracie Gillypott and Prince Marcus innocently think as they set out, unaware that Princess Marigold has honed her sights on Marcus and plans to follow him to the ends of the earth -- fan, frilly petticoats, and all. As for the dwarves, it's not a fine day at all: they're overworked and underpaid, rushing to produce extra gold to make crowns for a royal wedding. The Chief of Works has no choice but to send for some trolls to deal with the problem, but they have their own agenda: finding a princess for their lonely king. Throw in the faithful Gubble, a slinking goblin, four chatty bats, and a heart of glass that will give its owner absolute power and you have a hilarious new adventure rife with mistaken identities -- and the ever-compelling search for the perfect match.

Having reclaimed Castle Heterodyne and been accepted as the heir to the ruling family, Agatha strives to restore the castle's defensive power after the town is besieged by a storm of attackers.

Mad Scientists, gifted with the Spark of genius, unleash insane inventions on an unprepared Europe.
