Clive James read, learned and recited poetry aloud for most of his life. In this book, completed before just before his death, he offers a selection of his favourite poems and a personal commentary on each. In the last months of his life, his vision impaired by surgery and unable to read, Clive James explored the treasure-house of his mind: the poems he knew best, so good that he didn't just remember them, he found them impossible to forget. The Fire of Joy is the record of this final journey of recollection and celebration. Enthralled by poetry all his life, James knew hundreds of poems by heart. In offering this selection of his favourites, a succession of poems from the sixteenth century to the present, his aim is to inspire you to discover and to learn, and perhaps even to speak poetry aloud. In his highly personal anthology, James offers a commentary on each of the eighty or so poems: sometimes a historical or critical note on the poem or its author, sometimes a technical point about the poem's construction from someone who was himself a poet, sometimes a personal anecdote about the role the poem played in his own life. Whether you're familiar with a poem or not – whether you're familiar with poetry in general or not – these chatty, unpretentious, often tender mini-essays convey the joy of James's enthusiasm and the benefit of his knowledge. His urgent wish was to share with a new generation what he himself had loved. This is a book to be read cover to cover or dipped into: either way it generously opens up a world for our delight.

"Persephone is the Goddess of Spring in title only. Since she was a little girl, flowers have only shriveled at her touch. After moving to New Athens, she hoped to lead an unassuming life disguised as a mortal journalist. All of that changes when she sits down in a forbidden nightclub to play a hand of cards with a hypnotic and mysterious stranger. Hades, God of the Dead, has built a gambling empire in the mortal world and his favorite bets are rumored to be impossible. But nothing has ever intrigued him as much as the goddess offering him a bargain he can't resist. After her encounter with Hades, Persephone finds herself in a contract with the God of the Dead, and his terms are impossible: Persephone must create life in the Underworld or lose her freedom forever. The bet does more than expose Persephone's failure as a goddess, however. As she struggles to sow the seeds of her freedom, love for the God of the Dead grows–a love that is both captivating and forbidden"--

From an award-winning anthropologist, a lively, accessible, and irreverent introduction to the field What is anthropology? What can it tell us about the world? Why, in short, does it matter? For well over a century, cultural anthropologists have circled the globe, from Papua New Guinea to California, uncovering surprising insights about how humans organize their lives and articulate their values. In the process, anthropology has done more than any other discipline to reveal what culture means and why it matters. By weaving together examples and theories from around the world, Matthew Engelke provides a lively, accessible, and at times irreverent introduction to anthropology, covering a wide range of classic and contemporary approaches, subjects, and anthropologists. Presenting memorable cases, he encourages readers to think deeply about key concepts that anthropologists use to make sense of the world. Along the way, he shows how anthropology helps us understand other cultures and points of view—but also how, in doing so, it reveals something about ourselves and our own cultures, too.

In Cents and Sensibility, an eminent literary critic and a leading economist make the case that the humanities—especially the study of literature—offer economists ways to make their models more realistic, their predictions more accurate, and their policies more effective and just. Arguing that Adam Smith's heirs include Austen, Chekhov, and Friedman, Gary Saul Morson and Morton Schapiro trace the connection between Adam Smith's great classic, The Wealth of Nations, and his less celebrated book on ethics, The Theory of Moral Sentiments. The authors contend that a few decades later, Jane Austen invented her groundbreaking method of novelistic narration in order to do what Smith believed essential to humanity. More than anyone, the great writers can offer economists something they need—a richer appreciation of behavior, ethics, culture, and narrative. Original, provocative, and inspiring, Cents and Sensibility demonstrates the benefits of a dialogue between economics and the humanities and also shows how the humanities can revitalize the study of literature itself. Featuring a new preface, this book brings economics back to its place in the human conversation.

This "wonderful and enchanting" memoir tells the revelatory true story of one Muslim girl's life in her family's French Moroccan harem, set against the backdrop of World War II (The New York Times Book Review). "I was born in a harem in 1940 in Fez, Morocco..." So begins Fatima Mernissi in this illuminating narrative of a childhood behind the iron gates of a domestic harem. In Dreams of Trespass, Mernissi weaves her own memories with the dreams and memories of the women who surrounded her in the courtyard of her youth -- women who, without access to the world outside, recreated it from sheer imagination. A beautifully written account of a girl confronting the mysteries of time and place, gender and sex, Dreams of Trespass illuminates what it was like to be a modern Muslim woman in a place steeped in tradition.

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings,

she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

How to Think Like an Anthropologist

Performer Shaping Ideas. Idee Per Imparare. Per Le Scuole Superiori

'One of the most beautiful books published in recent years: an intense, poignant story' Caterina Bonvicini Can a prison free those who enter? Nisida, moored like a boat in the Mediterranean, is a small island nestled between Capri and Bagnoli, off the coast of Naples. Each day, through the early morning light, Elisabetta Maiorano travels across the city, passes by the guards on the way into the detention centre, hands over her bag and arrives at her classroom. All thoughts are suspended once inside. Usually Elisabetta hasn't spoken to anyone since the day before; her only reason for living to teach mathematics to the group of young inmates who arrive not long after she does. But one day, Almarina shows up and everything changes. She is Romanian and bears the signs of her personal history on her body. Together, closed up in a small classroom, a true island within an island, Elisabetta and Almarina discover a possible pathway to freedom. Warm and intimate, intense and political, Valeria Parrella touches our emotions, giving voice to a loneliness that is universal. Almarina is about finding love in unexpected places, about atonement, forgetting and starting over. But mostly it is about two women learning how to live again. Translated by Alex Valente

An interior look at Roberto Calasso's work as a publisher and his reflections on the art of book publishing In this fascinating memoir, the author and publisher Roberto Calasso meditates on the art of book publishing. Recalling the beginnings of Adelphi in the 1960s, he touches on the Italian house's defining qualities, including the considerations involved in designing the successful Biblioteca series and the strategy for publishing a wide range of authors of high literary quality, as well as the historic critical edition of the works of Nietzsche. With his signature erudition and polemical flair, Calasso transcends Adelphi to look at the publishing industry as a whole, from the essential importance of graphics, jackets, and cover flaps to the consequences of universal digitization. And he outlines what he describes as the "most hazardous and ambitious" profile of what a publishing house can be: a book comprising many books, a form in which "all the books published by a certain publisher could be seen as links in a single chain"—a conception akin to that of other twentieth-century publishers, from Giulio Einaudi to Roger Straus, of whom the book offers brief portraits. An essential book for writers, readers, and editors, The Art of the Publisher is a tribute to the elusive yet profoundly relevant art of making books.

No one's ever told Eleanor that life should be better than fine. Meet Eleanor Oliphant: She struggles with appropriate social skills and tends to say exactly what she's thinking. Nothing is missing in her carefully timetabled life of avoiding social interactions, where weekends are punctuated by frozen pizza, vodka, and phone chats with Mummy. When she and Raymond together save Sammy, an elderly gentleman who has fallen on the sidewalk, the three become the kinds of friends who rescue one another from the lives of isolation they have each been living. With a pajama-clad President Reagan refusing to leave the White House on his successor's Inauguration Day, Buckley has given this farce of Oval Office politics a nearly perfect beginning. Parodying the familiar form of the White House memoir, Buckley recounts the turbulent years of the Democratic Tucker administration, as told by loyalist Herbert Wadlough. Through this former accountant's eyes, we see the infighting that plagues the White House, the President's faltering marriage to a former starlet, and his ongoing crises.

Centuries ago, two Mayan brothers constructed a spacecraft that sent them hurtling into outer space.
