A secret consortium, a bent banker, and a desperate lawyer are all that stand between Elliott Snowmaker and the inheritance of her great-uncle's failing aircraft restoration business. Elliott doesn't think twice about leaving her home in Toronto and making the long trip to New Mexico

only at Illusion Lake for the winter. With a thriving criminal practice up north, handling the mundane chores of her dad's general law office is a little on the dull side. But her plans for a quiet winter fly out the window when Elliott walks in the door. Elliott sets off all sorts of bells, but most disturbing is

that there's much more than Elliott's inheritance and her own heart that are at risk.

of the available literature on ultrasound in the emergency setting focuses on care delivered in emergency departments and intensive care units within the developed world. As a result, most resources are inappropriate and inadequate for

impacts out-of-hospital care in order to meet the needs of prehospital and austere providers. The manual discusses the use of ultrasound for diagnosis in out-of-hospital care, advanced noninvasive monitoring of patients, and safety in performing
