**South Asia is today the region inhabited by the largest number of Muslims---roughly 500 million. In the course of the Islamisation process, which began in the eighth century, it developed a distinct Indo-Islamic civilisation that culminated in the Mughal Empire. While paying lip service to the power centres of Islam in the Gulf, including Mecca and Medina, this civilisation has cultivated its own variety of Islam, based on Sufism. Over the last fifty years, pan-Islamic ties have intensified between these two regions. Gathering together some of the best specialists on the subject, this volume explores these ideological, educational and spiritual networks, which have gained momentum due to political strategies, migration flows and increased communications. At stake are both the resilience of the civilisation that imbued South Asia with a specific identity, and the relations between Sunnis and Shias in a region where Saudi Arabia and Iran are fighting a cultural proxy war, as evident in the foreign ramifications of sectarianism in Pakistan. Pan-Islamic Connections investigates the nature and implications of the cultural, spiritual and socio-economic rapprochement between these two Islams.**

*Nouman Ali Khan offers insights on how to reorient our lives for success in both this world and the next.*

*What extremism is, how extremist ideologies are constructed, and why extremism can escalate into violence. A rising tide of extremist movements threaten to destabilize civil societies around the globe. It has never been more important to understand extremism, yet the dictionary definition—a logical starting point in a search for understanding—tells us only that extremism is “the quality or state of being extreme.” In this volume in the MIT Press Essential Knowledge series, J. M. Berger offers a nuanced introduction to extremist movements, explaining what extremism is, how extremist ideologies are constructed, and why extremism can escalate into violence. Berger shows that although the ideological content of extremist movements varies widely, there are common structural elements. Berger, an expert on extremist movements and terrorism, explains that extremism arises from a perception of “us versus them,” intensified by the conviction that the success of “us” is inseparable from hostile acts against “them.” Extremism differs from ordinary unpleasantness—run-of-the-mill hatred and racism—by its sweeping rationalization of an insistence on violence. Berger illustrates his argument with case studies and examples from around the world and throughout history, from the destruction of Carthage by the Romans—often called “the first genocide”—to the apocalyptic jihadism of Al Qaeda, America's new “alt-right,” and the anti-Semitic conspiracy tract *The Protocols of the Elders of Zion*. He describes the evolution of identity movements, individual and group radicalization, and more. If we understand the causes of extremism, and the common elements of extremist movements, Berger says, we will be more effective in countering it.*

**The Ideal Muslimah** This an incredibly sane book, which can help a woman (who is truly female), keep her head on straight and not get lost in a very dangerous game where she only stands to lose. Satan will try to convince women that they have the right to challenge the boundaries of their existence. This book more than anything can help a woman became a decent, loving, compassionate and honest person, which is a huge challenge for most people. This is an excellent book to not only have as a reference book, but to read many times. The book covers everything from the relationship to Allah (God), hospitality to Marriage and family.

**The poem of arabia (Arabic edition)**By Aid al-Qarni

Islam has been one of the most powerful religious, social and political forces in history. Over the last 1400 years, from origins in Arabia, a succession of Muslim polities and later empires expanded to control territories and peoples that ultimately stretched from southern France to East Africa and South East Asia. Yet many of the contributions of Muslim thinkers, scientists and theologians, not to mention rulers, statesmen and soldiers, have been occluded. This book rescues from oblivion and neglect some of these personalities and institutions while offering the reader a new narrative of this lost Islamic history. The Umayyads, Abbasids, and Ottomans feature in the story, as do Muslim Spain, the savannah kingdoms of West Africa and the Mughal Empire, along with the later European colonization of Muslim lands and the development of modern nation-states in the Muslim world. Throughout, the impact of Islamic belief on scientific advancement, social structures, and cultural development is given due prominence, and the text is complemented by portraits of key personalities, inventions and little known historical nuggets. The history of Islam and of the world's Muslims brings together diverse peoples, geographies and states, all interwoven into one narrative that begins with Muhammad and continues to this day.

*It may be one of the most complex questions ever asked: What really happens to the soul after death? Some discarnate souls may cross over; others may stay in the earthy realm to help or protect family members; and other earthbound souls may need to work through psychospiritual dilemmas before being escorted to the Other Side with help from a shaman psychopomp. Dr. David Kowalewski relies on personal experiences and his studies with shamans of many continents to illuminate the mysterious worlds of life, death, and afterlife and share an inside look at the ancient craft of psychopomping. Zarurat-ul-Imam, or The Need for the Imam, spells out in depth the urgency and need for the Imam of the age, and his qualities and hallmarks as the Divinely appointed guide, the voice articulate of the age, and the constant recipient of Divine revelations, and how all these qualities are fully present in the person of the holy author.

"O My servants, do not despair of the mercy of God. Indeed, Allah forgives all sins. Indeed, it is He who is the Forgiving, the Merciful." The address here is to all mankind. Allah Himself has explained in the following verses that sins are forgiven only when the sinner turns to Allah's worship and service and adopts obedience to the message sent down by Him. As a matter of fact, this verse brought a message of hope for those people who had committed mortal sins like murder, adultery, theft, robbery, etc. in the days of ignorance, and had despaired whether they would ever be forgiven. To them it has been said: "Do not despair of Allah's mercy: whatever you might have done in the past, if you sincerely turn to your Lord's obedience, you will be forgiven every sin."

Do not Be Sad is an absolute must-read for all people. It is full of practical advice on how to replace sadness with a pragmatic and ultimately satisfying Islamic outlook on life. Do you want to be happy? We are all looking for an escape from worry, stress and depression, and for ways to find happiness. This book presents the route to happiness in a nutshell, drawing on Islamic teachings and the voices of experts both western and eastern. So sit back, relax and read it from cover to cover, or dip into it a page or two at a time in between other activities in a busy life as a wife, mother, student or worker. The true Islamic personality as defined by the Qur'an and Sunnah presents a comprehensive overview of the way in which the Prophet (peace and blessings of Allah be upon him) and his Companions lived. This picture of the practical aspects of a truly Islamic lifestyle serves as a timely reminder for all of us. At a time when unIslamic and anti-Islamic influences are spreading, via modern technology, to the heartlands of Islam and even to the remotest regions, a Muslim needs to hold firm to the distinct character of our faith, as prescribed by Allah and revealed through His Prophet (peace and blessings of Allah be upon him). Dr. Muhammad 'Ali alHashimi presents a wellthought out guide to the Islamic lifestyle. He starts with the Muslim's relationship with his Lord, which is the most important aspect of his life, and provides the foundation for all his other relationships. From there, he outlines how the Muslim should relate to every person in his life, starting with himself and his family, and moving on, by stages, to encompass every member of the community or society. Each point is supported by extensive quotations from the Qur'an and the Sunnah of Prophet Muhammad (peace and blessings of Allah be upon him).

On Islam.

Reclaim Your Heart is not just a self-help book. It is a manual about the journey of the heart in and out of the ocean of this life. It is a book about how to keep your heart from sinking to the depths of that ocean, and what to do when it does. It is a book about redemption, about hope, about renewal. Every heart can heal, and each moment is created to bring us closer to that transformative return. Reclaim Your Heart is about finding that moment when everything stops and suddenly looks different. It is about finding your own awakening. And then returning to the better, truer, and freer version of yourself. Many of us live our lives, entrapped by the same repeated patterns of heartbreak and disappointment. Many of us have no idea why this happens. Reclaim Your Heart is about freeing the heart from this slavery. It is about the journey in and out of life's most deceptive traps. This book was written to awaken the heart and provide a new perspective on love, loss, happiness, and pain. Providing a manual of sorts, Reclaim Your Heart will teach readers how to live in this life without allowing life to own you. It is a manual of how to protect your most prized possession: the heart.
