Read how Britain's new Prime Minister was inspired by Winston Churchill 'The must-read biography of the year.' Evening Standard 'He writes with gusto... the result is a book that is never boring, genuinely clever ... this book sizzles.' The Times The point of the Churchill Factor is that one man can make all the difference. On the eve of the fiftieth anniversary of Winston Churchill's death, and written in conjunction with the Churchill Estate, Boris Johnson explores what makes up the 'Churchill Factor' - the singular brilliance of one of the most important leaders of the

twentieth century. Taking on the myths and misconceptions along with the outsized reality, he portrays - with characteristic wit and passion - a man of multiple contradictions, contagious bravery, breath-taking eloquence, matchless strategizing, and deep humanity. Fearless on the battlefield, Churchill had to be ordered by the King to stay out of action on D-Day; he embraced large-scale strategic bombing, yet hated the destruction of war and scorned politicians who had not experienced its horrors. He was a celebrated journalist, a great orator and won the Nobel Prize for Literature. He was famous for his ability to combine wining and dining with many late nights of crucial wartime decision-making. His open-mindedness made him a pioneer in health care, education, and social welfare, though he remained incorrigibly politically incorrect. Most of all, as Boris Johnson says, 'Churchill is the resounding human rebuttal to all who think history is the story of vast and impersonal economic forces'. The Churchill Factor is a book to be enjoyed not only by anyone interested in history: it is essential reading for anyone who wants to know what makes a great leader.

As every parent knows, there is nothing more stressful than being away from a child even if it's only for a few days. In this heartwarming book, Wendy Tugwood captures perfectly how the love between a mother and child copes with separation. When we're apart I miss you so I wish I didn't have to go I miss your face, your touch, your smell, Your silliness I know so well. I think of how you sing to me, "I love you too... I love you three!" On goes our love and counting game A game that always ends the same. Needing to express how much they love each other, parent and child play the old familiar counting game. The child says "I love you," the parent replies "I love you too," and the child, gleefully, replies "I love you three!" From there they continue counting until they reach "I love you ten." I Love You Too, I Love You Three will delight parents

and children alike and children will not only learn their numbers, they will gain assurance that, no matter what happens, the parent's love, like the counting game, will never end.

Further to the adoption by the Council of Europe of the Cybercrime Convention (2001) and the Convention on the Prevention of Terrorism (2005), its Committee of Experts on Terrorism (CODEXTER) has been studying this matter and surveying the situation in member states to evaluate whether existing legal instruments are sufficient to combat this emerging form of crime. This publication contains an expert report prepared by the Max Planck Institute, which evaluates the main problems that arise in the context of

cyberterrorism and provides recommendations, together with reports on the situation in the member and observer states of the Council of Europe and the relevant Council of Europe conventions
