

## Alaska Cruise Guide Book

In this newest version of the bestselling Cruising Alaska guidebook, Larry Ludmer explores in depth everything you need to know about passenger ships plying the Alaska waterways. Unlike most cruise guidebooks, Cruising Alaska puts the emphasis on hard facts - not pretty pictures. The expanded 5th edition gives even more details on every cruise ship, large and small, the Alaska Marine Highway ferries, and Explorer boats, which can navigate the smaller inlets. Everything from stateroom size to meal times to itineraries is provided, allowing the reader to make a ship in Alaska this season, with details on the highlights, as well as what is missed. Maps, index.

The best-selling, compact guide, featuring excellent local maps, hundreds of color photographs, concise background information and recommended excursions for ports-of-call throughout Greece, Italy and the Mediterranean. Useful introductory chapters cover cruising, history, art & architecture and nature of the Mediterranean. With a pull-out map and hundreds of color photographs.

At My Itchy Travel Feet, The Baby Boomer's Guide to Travel, writer Donna Hull and photographer Alan Hull travel the world recording their boomer travel experiences with words, photos, and videos so that you'll know exactly what to expect. Their goal? To get boomers off the couch and out into the world. In this Blog to Book, they've chosen some of their favorite journeys to share with you. Take a road trip in Northern Italy, drive the California Big Sur coast, or explore Arches, Canyonlands, Glacier, and Grand Tetons National Parks. You'll find a chapter on small multi-generational travel. So, pull up a chair, grab a cup of coffee, and start reading about active travel for boomers. It's guaranteed to make your travel feet itchy!

This engineering marvel draws thousands of cruise passengers each year and now more cruise lines are dedicating ships to this destination. From Caribbean base ports to Central America and all California ports, this reference provides the solid details readers need. Over 400 photographs and maps, most in colour.

After the Chaos Mage traps their mentor within a deadly spell, two apprentice mages set off to find and defeat this menace to the kingdom. But how can these inexperienced young women possibly track down and battle the sort of man who destroys villages with summoned wind or fire just for fun? They've learned no aggressive magic and never tested themselves against a real enemy. Kallinesha, still an apprentice after seven years, struggles against her lack of raw magical power, compensating instead with discipline and study. Daughter of the High Commander, driven relentlessly by the duty in her blood, she knows they can defeat the Chaos Mage and safeguard the kingdom. Ista, a commoner and daughter of a city baker, harbors no such delusions. But after only three years of study, her power burns much brighter than Kallinesha's. The task before them terrifies her, but she loves her mentor too much to let her waste away under the Chaos Mage's spell. Not if there's the slimmest chance of saving her. The two have never been able to get along while studying magic. Will they be able to work together now when so much is at stake?

Prepare to be shocked. From the man The Wall Street Journal hailed as a "Swiftian satirist" comes the most shocking book ever written! The Borowitz Report: The Big Book of Shockers, by award-winning fake journalist Andy Borowitz, contains page after page of "news stories" too hot, too controversial, too -- yes, shocking -- for the mainstream press to handle. Sample the groundbreaking reporting from the news organization whose motto is "Give us thirty minutes -- we'll waste it."

In the late 1800s, John Muir made several trips to the pristine, relatively unexplored territory of Alaska, irresistibly drawn to its awe-inspiring glaciers and its wild menagerie of bears, bald eagles, wolves, and whales. Half-poet and half-geologist, he recorded his experiences and reflections in "Travels in Alaska," a work he was in the process of completing at the time of his death in 1914. As Edward Hoagland writes in his Introduction, "A century and a quarter later, we are reading [Muir's] account because there in the glorious fiords . . . he is at our elbow, nudging us along, prompting us to understand that heaven is on earth--is the Earth--and rapture is the sensible response wherever a clear line of sight remains." This Modern Library Paperback Classic includes photographs from the original 1915 edition.

Explore the Inside Passage and Alaska with award-winning author and mapmaker Joe Upton. For 20 years Upton explored the NW coast as a commercial fisherman and journalist, taking pictures, collecting stories, and catching fish. In this book and illustrated map set, with over 300 color and historical photos he has included all the information you need for a great cruise, plus his wonderful Alaska stories.
