Three short years ago, when Chris Brogan and Julien Smith wrote their bestseller, *Trust Agents*, being interesting and human on the Web was enough to build a significant audience. But now, everybody has a

platform. The problem is that most of them are just making noise. In The Impact Equation, Brogan and Smith show that to make people truly care about what you have to say, you need more than

Acces PDF Alaska Toursaver

just a good idea, trust among your audience, or a certain number of followers. You need a potent mix of all of the above and more. Use the Impact Equation to figure out what you're doing right and wrong. Apply it

to a blog, a tweet, a video, or a mainstream-media advertising campaign. Use it to explain why a feature in a national newspaper that reaches millions might have less impact than a blog post that reaches a

most musicians,
onstage banter
