When Harold Ross founded The New Yorker in 1925, he called it a ‘comic weekly.’ And although it has become much more than that, it has remained true in its irreverent heart to the founder’s description, publishing the most illustrious literary humorists in the modern era!among them Robert Benchley, Dorothy Parker, Groucho Marx, James Thurber, S. J. Perelman, Mike Nichols, Woody Allen, Calvin Trillin, Garrison Keillor, Ian Frazier, Roy Blount, Jr., Steve Martin, and Christopher Buckley. Fierce Pajamas is a treasury of laughter from the magazine W. H. Auden called the ‘best comic magazine in existence.’!

From bestselling author Ella Carey comes an utterly gripping and sweeping historical novel about terrible choices and heartbreaking family mysteries. The past holds more secrets than we can ever imagine... 1946. Young, beautiful artist Rebecca survived the devastating war that claimed the lives of so many of the men and women she grew up with. Her friends have returned as empty shells or not at all. But although peace has been declared, Rebecca is still fighting at home. Her controlling mother will stop at nothing to prevent Rebecca from following her dream to become a painter. When Rebecca meets dashing young Edward, a pilot during the war, she discovers both love and an escape. Edward makes her feel truly loved, alive and excited about her future and art. But when Edward takes Rebecca to visit his childhood home on the sweeping coast, their trip ends in tragedy. Edward’s father commits suicide and, consumed by grief, Edward is faced with a terrible choice: love or family? Utterly distraught, Rebecca goes out to the shore by moonlight to paint. Under the stars, she stares into the waves, thinking about her life. The next morning she has disappeared without a trace, leaving behind only a pencil on the sand. Finding the truth will change everything for those who were left behind... Fans of My Name is Eva, Rhys Bowen and Lucinda Riley will fall head over heels in love with Secret Shores. "Adam Rapp's brilliant and haunting story will break your heart. But then his words will mend it. . . . Absolutely unforgettable." "I Michael Cart On the run in a stolen car with a kidnapped baby in tow, Custis, Curl, and Boobie are three young people with deeply troubled pasts and bleak futures. As they struggle to find a new life for themselves, it becomes painfully clear that none of them will ever be able to leave the past behind. Yet for one, redemption is waiting in the unlikelyst of places. With the raw language of the street and lyrical, stream-of-consciousness prose, Adam Rapp hurtes the reader into a world of lost children, a world that is not for the faint of heart. Gripping, disturbing, and starkly illuminating, his hypnotic narration captures the voices of two damaged souls - a third speaks only through drawings - to tell a story of alienation, deprivation, and ultimately, the saving power of compassion.

Offers a collection of true facts about animals, food, science, pop culture, outer space, geography, and weather.

A true adventure story and the go-to guide for "picking" American treasures from anyone's backyard, straight from the stars of History's American Pickers In these pages, professional treasure hunters Mike Wolfe and Frank Fritz chronicle their road trips across the American countryside in search of "rusty gold" to buy and sell among the picking world's one-of-a-kind characters. Whether you are a fan of the show or just like finding hidden riches, you will love seeing what Wolfe and Fritz dig up and enjoy meeting the devoted collectors, extreme stockpilers, and elite dealers who they encounter along the way. Wolfe and Fritz do not deal in fine antiques. Their secondhand treasures are of the down-and-dirty and sometimes even bizarre variety, from old bicycles, vintage tools, to sun-bleached cars and handmade furniture, retired carnival games and unusual taxidermy. Assisted by Danielle Colby, who helps out at Antique Archaeology, Wolfe and Fritz buy on the cheap and then sell to dealers, art directors, interior designers, or anyone looking for a little bit of authentic Americana. The three now share their secrets to finding hidden gems, offering helpful hints that will show what average Americans can do to find the treasures that await them. From American Pickers Guide to Picking: Junk is Beautiful When we knock on a door, 90 percent of the time the things we find are junk. But we don't care about the odds; a picker never turns down an opportunity, no matter where it is. We've picked pickup trucks. We've picked fat beds. We've picked dumpsters. We even picked a Mercury Sable. We're looking for the unusual, the impossible, the funky, the different, the bizarre-things we have never seen before. And we'll go anywhere we have to go to find it. No location is off-limits to a hard-core picker. And there's plenty of things to be found at antique stores, thrift and consignment shops, flea markets, estate sales, and swap meets, and a lot of the tips in this book apply to finding treasures at these joints. But that's not really the kind of picking we do anymore. We look outside the box to find our junk-a word we use almost like a term of endearment: to us: junk is beautiful.

Assembled here for the first time in one volume are forty classic papers that have laid the foundations of modern ecology. Whether by posing new problems, demonstrating important effects, or stimulating new research, these papers have made substantial contributions to an understanding of ecological processes, and they continue to influence the field today. The papers span nearly nine decades of ecological research, from 1887 on, and are organized in six sections: foundational papers, theoretical advances, synthetic statements, methodological developments, field studies, and ecological experiments. Selections range from Connell's elegant account of experiments with barnacles to Watt's encyclopedic natural history, from a visionary exposition by Grinnell of the concept of niche to a seminal essay by Hutchinson on diversity. Six original essays by contemporary ecologists and a historian of ecology place the selections in context and discuss their continued relevance to current research. This combination of classic papers and fresh commentaries makes Foundations of Ecology both a convenient reference to papers often cited today and an essential guide to the intellectual and conceptual roots of the field. Published with the Ecological Society of America.

Many of the challenges that decision-makers grapple with in relation to climate change are governance related. Planning and decision-making is evolving in ambiguous institutional environments, in which many key issues remain unresolved, including relationships between different actors; funding arrangements; and the sources and procedures for vetting data. These issues are particularly acute at this juncture, as climate adaptation moves from broad planning processes to the management of infrastructure systems. Concrete decisions must be made. Adapting Infrastructure to Climate Change draws on case studies of three coastal cities situated within very different governance regimes: neo-corporatist Rotterdam, neo-pluralist Boston and semi-authoritarian Singapore. The book examines how infrastructure managers and other stakeholders grappling with complex and uncertain climate risks are likely to make project-level decisions in practice, and how more effective decision-making can be supported. The differences across governance regimes are currently unaccounted for in adaptation planning, but are crucial as best practices are devised. These lessons are also applicable to infrastructure

planning and decision-making in other contexts. This book will be of great interest to scholars of climate change and environmental policy and governance, particularly in the context of infrastructure management.

The memoir of a man and woman who escaped into the forest, joined the Jewish partisans—and fell in love—as Hitler laid waste to their Polish hometowns. Jack and Rochelle first met at a youth dance in Poland before the war. They shared one dance, and Jack stepped on Rochelle’s shoes. She was unimpressed. When the Nazis invaded eastern Poland in 1941, both Jack (in the town of Mir) and Rochelle (in the town of Stolpec) witnessed the horrors of ghettoization, forced labor, and mass killings that decimated their families. Jack and Rochelle managed, in their separate ways, to escape into the forest. They reunited, against all odds, in the winter of 1942–43 and became Jewish partisans who fought back against the Nazis. The couple’s careful courtship soon blossomed into an enduring love that sustained them through the raging hatred of the Holocaust and the destruction of the lives they had known. Jack and Rochelle’s story, told in their own voices through extensive interviews with their son, Lawrence, has been in print for twenty years and is celebrated as a classic Holocaust memoir literature. This is the first electronic edition. “A story of heroism and of touching romance in a time of fear and danger.” —USA Today
