If the person is in your contact list, Alexa will connect you (you can also command Alexa to connect you to the person by saying the person's name). The same applies to a voice call and messaging. To access the feature, tap the "speech" bubble somewhere at the middle of the toolbar. From here, tap the contacts icon that should be somewhere at the top right corner. The feature shall ask for access to your contact (if you're using the feature for the first time-you may also need to enter and validate a phone number). Once you allow the feature access, it will show you a list of contacts you can call with your Echo Show. When you tap a contact's information, you will note an icon underneath the contact's name. This icon will allow you to send a message or

What is Amazon Alexa all about? Well, in essence, this is a small tool developed by Amazon, which can act as a personal assistant through voice interaction and music playback. You can also stream podcasts, make a to-do list, use its home automation function to control smart devices around the house as well as performing other duties. In most cases, you can always activate the device using a wake-

word, or push a button to activate the device's listening mode, and Amazon is always working on making Alexa better. The device is worth considering and can be handy as well, but first, check out what is in it for you. You can get a companion app for this device from Google Play, Apple Apps or Amazon App Store. You can then use control music view shopping lists or install skills on the devices that you have synchronized with

your Amazon Alexa. And if you want to set up several compatible devices such as Amazon Dot, Amazon Echo, or such, a web interface comes will be beneficial. Besides, you can recognize text on your app screen, as well as send feedback to Amazon regarding the cognition. Amazon Alexa is capable of carrying out numerous functions around the house and beyond. One of the ways, you can use it is home automation, since it can

be set to interact with several devices in the house to carry out several tasks. This feature was launched in 2015 and has been a game changer for many users of this device. Another thing you will love about this smart device is placing orders. If you want take-out food, then Alexa is one of the ways you can use to place the order. This is all thanks to support by Grubhub, Domino's Pizza, Wingstop, Seamless, and other companies. You can
