The Ambassadors is a 1903 novel by Henry James, originally published as a serial in the North American Review (NAR). This dark comedy, seen as one of the masterpieces of James's final period, follows the trip of protagonist Lewis Lambert Strether to Europe in pursuit of Chad Newsome, his widowed fiancée's supposedly wayward son; he is to bring the young man back to the family business, but he encounters unexpected complications. The third-person narrative is told exclusively from Strether's point of view. Dorothea and Martin Hellman reveal

the secrets that allowed them to transform an almost failed marriage into one where they reclaimed the true love that they felt when they first met fifty years ago.

Surprisingly, they found that working on interpersonal and international challenges at the same time accelerated progress on both.

elected the forty-fourth president. They would be the first Black First Family in the White House and serve the country for two terms. Growing up, Michelle and her older brother, Craig, shared a bedroom in their family's upstairs apartment in her great-aunt's house. Her parents, Fraser and Marian, poured their love and energy into their children. Michelle's beloved dad taught his kids to work hard, keep their word, and remember to laugh. Her mom showed them how to think for themselves, use their voice, and be unafraid. But life soon took her far from home. With determination, carefully made plans, and the desire to achieve, Michelle was eager to expand the sphere of her life from

her schooling in Chicago. She went to Princeton University, where she learned what it felt like to be the only Black woman in the room. She then went to Harvard Law School, and after graduating returned to Chicago and became a high-powered lawyer. Her plans changed, however, when she met and fell in love with Barack Obama. From her early years of marriage, and the struggle to balance being a working woman, a wife, and the mom of two daughters, Michelle Obama details the shift she made to political life and what her family endured as a result of her husband's fast-moving political career and campaign for the presidency. She shares the glamour of ball gowns and world travel, and

the difficulties of comforting families after tragedies. She managed to be there for her daughters' swim competitions and attend plays at their schools without catching the spotlight, while defining and championing numerous initiatives, especially those geared toward kids, during her time as First Lady. Most important, this volume for young people is an honest and fascinating account of Michelle Obama's life led by example. She shares her views on how all young people can help themselves as well as help others, no matter their status in life. She asks readers to realize that no one is perfect, and that the process of becoming is what matters, as finding yourself is ever evolving.

Girl in the Woods is Aspen Matis's exhilarating true-life adventure of hiking from Mexico to Canada—a coming of age story, a survival story, and a triumphant story of overcoming emotional devastation. On her second night of college, Aspen was raped by a fellow student. Overprotected by her parents who discouraged her from telling of the attack, Aspen was confused and ashamed. Her desperation growing, she made a

bold decision: She would seek healing in the freedom of the wild, on the 2,650-mile Pacific Crest Trail leading from Mexico to Canada. In this inspiring memoir, Aspen chronicles her journey, a five-month trek that was ambitious, dangerous, and transformative. A nineteen-year-old girl alone and lost, she conquered desolate mountain passes and met rattlesnakes, bears, and fellow desert pilgrims. Exhausted after each thirty-mile day, at times on the verge of starvation, Aspen was forced to confront her numbness, coming to terms with the sexual assault and her parents' disappointing reaction. On the trail and on her own, she found that survival is predicated on persistent self-reliance. She found her strength. After a thousand miles of solitude, she found a man who

When bohemian artist Miranda falls in love with Finn, the British ambassador to an Arab country, she finds herself thrust into a life for which she has no preparation. Trailed everywhere by bodyguards to protect her from the dangers of a country wracked by civil war and forced to give up work she loves, she finds her world shattered when she is

And when Miranda grows close to a child who shares her captivity, it is not clear that even being set free
