Traditions & Encounters offers an inclusive vision of the global past—one that is meaningful and appropriate for the interdependent world of contemporary times. Given the diversity of human societies, gathering and organizing the sheer mass of information in a meaningful way is a daunting challenge for any world history survey course. The seven-part chronological organization enables students to understand the development of the world through time, while also exploring broader, big-picture thematic issues in world history. Through new and revised chapter-level and part-level features, the hallmark twin themes of traditions and encounters emerge in greater clarity than ever before in this sixth edition. As a result, students have resources that enable them to move beyond the facts of history and examine the past critically, analyze causes and effects, and recognize similarities and differences across world regions and time periods. By digging deeper into the implications of world history’s stories—not just the who, the what, and the where, but also the why and the how—students can make sense of the human past. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

It is the second of Forster's six published novels, following Where Angels Fear to Tread (1905) and preceding A Room With A View (1908) and Howards End (1910). It has a reputation for being the least known of Forster's novels[1], but was also the author's personal favourite and one of his most autobiographical. [2] It is the only one of Forster's novels not to have received a film or television adaptation***

He was born in Harlem to immigrant parents from Jamaica. He knew the rough life of the streets. He overcame a barely average start at school. Then he joined the Army. The rest is history—Vietnam, the Pentagon, Panama, Desert Storm—but a history that until now has been known only on the surface. Here, for the first time, Colin Powell himself tells us how it happened, in a memoir distinguished by a heartfelt love of country and family, warm good humor, and a soldier’s directness. Unknown America

***Have you ever felt like you were living the American dream? I did. Have you ever felt as if the rug had been snatched right out from under you? I did, too. Did you feel as if God had abandoned you? Me, too. Did you find yourself questioning if God were even real? Ashamedly, I wondered that, too. Raymond and I were married at a young age. We had such big dreams and high expectations. I held on to the "white-picket-fence" dream while he held on to the "being successful" dream. We felt unstoppable. Of course, neither of us really had a clue how it was all going to take place; we just believed that it would. And for a while, it was as if we were living the American dream. We had two beautiful little girls, the best dog anyone could ask for, and a sweet little home. Raymond had a job that paid fairly well and I was a homemaker. Everything seemed, well...pretty close to perfect! While everything seemed to appear perfect on the outside, it was the inside that was suffering greatly. Somewhere along the way, we had forgotten God. We had professed to be Christians, but, truthfully, it was only in word. We had left Him out of our thoughts and our plans. And then change came. Raymond had gotten injured at work. Life as we knew it was about to end. This would be where our faith, if we even had any, was going to be tested. One painful afternoon, I found myself crumbled on the floor in our bedroom. How had we gotten to this place? How had all of our dreams and expectations come to this? We were supposed to be different. We were supposed to be unique. And we were certainly supposed to beat the odds! We started asking and even blaming God. "Lord, why did You allow this happen? What did we do to deserve this?" We had placed Him in the 'hot-seat'. That was the beginning of A Joyful Journey and a Tattered Faith. We had lived a life of relying solely on ourselves. We didn't know what it was like to depend on God; to rely on Him to get us through any situation. Truthfully, we didn't know Him. We just knew of Him. The Lord has taken us separately, as well as together, by the hand and walked us through some very trying times. Times to where we wondered if He really did exist. Even times of wondering, that if He was indeed real, did He care. This journey has been worth every step. God is a personal God. He loves us beyond our understanding. He has a plan for us and it is a good one! He wants to give us a hope and a future. He wants to prosper us and not harm us. More than anything, He wants us to live with Him forever.***

There's a sacred and hidden path inside each one of us, a path of mysteries and amazing manifestations, where nothing is impossible, not even our wildest spiritual creations. This is the realm of impossibilities, where imagination is carried away by a spiritual insight, which is here referred as the phoenix. The allegory inside this book takes us to a subconscious realm, that can lead us to the most uplifting and unknown side of ourselves, but also to other realities as well, namely, the ones that are parallel to ours, and also other dimensions and galaxies. It is with this allegory of the phoenix that we understand the role of the dragons and serpents of our planet, and how they interfere in the Tao of our existence. As a dance of forces, vibrations of different natures, these symbols and concepts take us to the deepest truth within, of who we are and how far can we go. This is a book about the adventures of our soul, the journey within that so many Shamans live to explore. It's also about a path that all spiritualists and gurus have experienced, a path that some have called nirvana, enlightenment or awaking, but few have ever had the ability to fully describe in a way that can be perceived by the common mortal. The Native Americans have often told us about the spirit of the eagle that keeps guard over the spiritual world. This eagle, or big bird, is representative of another living force, which is the phoenix, the bird of fire. This is why many mystics of ancient times believed that only fire could take souls to another world. The fire purifies the body, but the most potent fire comes from within, as an energy that we burn with our conscious awareness. This is the fire that Buddhists, Taoists and Hindus persist in awakening from within, commonly using disciplines created specifically for this purpose, such as yoga, chikung and meditation. This fire represents the power of our own spirituality, which most people are unaware to possess. As mortals and genetically manipulated slaves of a few alien species, we've lost the physical capability to ignite it. But the phoenix can help us reach it, through the spiritual nature that is within each one of us. The one who can ride the phoenix, can travel very far, to amazing lands. And these are the ones that often come back, when they choose to, as our prophets and religious leaders. This book describes their journey to Valhalla, Heaven, Paradise, or more simply, the Laboratory of God.
