Transform Yourself, Transform the World is a user friendly guide of practical guidance and inspiration for supporting a student's interest in a Women's Studies degree. It focuses on three of the major barriers students face when exploring Women's Studies. The first is a lack of awareness that Women's Studies constitutes an academic field. The second barrier is the negative response a student often faces when announcing to the world that he or she is interested in Women's Studies. The third barrier regards the perceived lack of employment and career options of graduating with a Women's Studies. THE AMERICAN PAGEANT enjoys a reputation as one of the most popular, effective, and entertaining texts on American history. The colorful anecdotes, first-person quotations, and trademark wit bring American history to life. The 16th edition includes a major revision of Part Six (the period from 1945 to the present), reflecting recent scholarship and providing greater thematic coherence. The authors also condensed and consolidated material on the Wilson presidency and World War I (formerly Chapters 29 and 30) into a new single chapter. A new feature, "Contending Voices," offers paired quotes from original historical sources, accompanied by questions that prompt students to think about conflicting perspectives on controversial subjects. Additional pedagogical aids make THE AMERICAN PAGEANT accessible to students: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features present additional primary sources, scholarly debates, and key historical figures for analysis. Available in the following options: THE AMERICAN PAGEANT, Sixteenth Edition (Chapters 1-41); Volume 1: To 1877 (Chapters 1-22); Volume 2: Since 1865 (Chapters 22-41). To Kill a Mockingbird

The American Yawp

Voted America's Best-Loved Novel in PBS's The Great American Read Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, To Kill a Mockingbird has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

In Pollution Is Colonialism Max Liboiron presents a framework for understanding scientific research methods as practices that can align with or against colonialism. They point out that even when researchers are working toward benevolent goals, environmental science and activism are often premised on a colonial worldview and access to land. Focusing on plastic pollution, the book models an anticolonial scientific practice aligned with Indigenous, particularly Métis, concepts of land, ethics, and relations. Liboiron draws on their work in the Civic Laboratory for Environmental Action Research (CLEAR)ian anticolonial science laboratory in Newfoundland, Canada, to illuminate how pollution is not a symptom of capitalism but a violent enactment of colonial land relations that claim access to Indigenous land. Liboiron's creative, lively, and passionate text refuses theories of pollution that make Indigenous land available for settler and colonial goals. In this way, their methodology demonstrates that anticolonial science is not only possible but is currently being practiced in ways that enact more ethical modes of being in the world.

Feminism's origins have often been framed around a limited cast of mostly white and educated foremothers, but the truth is that feminism has been and continues to be a global movement. For centuries, women from all walks of life have been mobilizing for gender justice. As the last decade has reminded even the most powerful women, there is nothing [post-feminist] about our world. And there is much to be learned from the passion and protests of the past. Historian Lucy Delap looks to the global past to give us a usable history of the movement against gender injustice; one that can help clarify questions of feminist strategy, priority and focus in the contemporary moment. Rooted in recent innovative histories, the book incorporates alternative starting points and new thinkers, challenging the presumed priority of European feminists and ranging across a global terrain of revolutions, religions, empires and anti-colonial struggles. In Feminisms, we find familiar stories of suffrage, of solidarity, of protest; yet there is no assumption that feminism looks the same in each place or time. Instead, Delap explores a central paradox: feminists have demanded inclusion but have persistently practiced their own exclusions. Some voices are heard and others are routinely muted. In amplifying the voices of figures at the grassroots level, Delap shows us how a rich relationship to the feminist past can help inform its future.

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself." Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume II opens in the Gilded Age, before moving through the twentieth century as the country reckoned with economic crises, world wars, and social, cultural, and political upheaval at home. Bringing the narrative up to the present, The American Yawp enables students to ask their own questions about how the past informs the problems and opportunities we confront today.

From the author of Make Your Home Among Strangers, essays on being an "accidental" American—an incisive look at the edges of identity for a woman of color in a society centered on whiteness In this sharp and candid collection of essays, critically acclaimed writer and first-generation American Jennine Capó Crucet explores the condition of finding herself a stranger in the country where she was born. Raised in Miami and the daughter of Cuban refugees, Crucet examines the political and personal contours of American identity and the physical places where those contours find themselves smashed: be it a rodeo town in Nebraska, a university campus in upstate New York, or Disney World in Florida. Crucet illuminates how she came to see her exclusion from aspects of the theoretical American Dream, despite her family's attempts to fit in with white American culture—beginning with their ill-fated plan to name her after the winner of the Miss America pageant. In prose that is both fearless and slyly humorous, My Time Among the Whites examines the sometimes hopeful, sometimes deeply flawed ways in which many Americans have learned to adapt, exist, and—in the face of all signals saying otherwise—perhaps even thrive in a country that never imagined them here.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience)

Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Empire's Tracks boldly reframes the history of the transcontinental railroad from the perspectives of the Cheyenne, Lakota, and Pawnee Native American tribes, and the Chinese migrants who toiled on its path. In this meticulously researched book, Manu Karuka connects the railroad within the violent global histories of colonialism and capitalism. Through an examination of legislative, military, and business records, Karuka deftly explains the imperial foundations of U.S. political economy. Tracing the shared paths of Indigenous and Asian American histories, this multisited interdisciplinary study connects military occupation to exclusionary border policies, a linked chain spanning the heart of U.S. imperialism. This highly original and beautifully wrought book unveils how the transcontinental railroad laid the tracks of the U.S. Empire.

America's History

The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success—a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save—are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation. This text introduces students to both primary sources and analytical essays on important topics in U.S. history. The book asks students to evaluate primary sources, test the interpretations and draw their own conclusions.

Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new after, word by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

A blistering debut that does for the Iraqi perspective on the wars in Iraq and Afghanistan what Phil Klay's Redeployment does for the American perspective "[A] wonderful collection." —George Saunders, The New York Times Book Review The first major literary work about the Iraq War from an Iraqi perspective—by an explosive new voice hailed as “perhaps the best writer of Arabic fiction alive” (The Guardian)—The Corpse Exhibition shows us the war as we have never seen it before. Here is a world not only of soldiers and assassins, hostages and car bombers, refugees and terrorists, but also of madmen and prophets, angels and djinns, sorcerers and spirits. Blanding shocking realism with flights of fantasy, The Corpse Exhibition offers us a pageant of horrors, as haunting as the photos of Abu Ghraib and as difficult to look away from, but shot through with a gallows humor that yields an unflinching comedy of the macabre. Gripping and hallucinatory, this is a new kind of storytelling forged in the crucible of war.

The Composition of Everyday Life

A NEW YORK TIMES BESTSELLER! A growing number of Americans want to tear down what it 's taken us 250 years to build—and they ' ll start by canceling our shared history, ideals, and culture. Traditional areas of civic agreement are vanishing. We can ' t agree on what makes America special. We can ' t even agree that America is special. We ' re coming to the point that we can ' t even agree what the word America itself means. "Disintegrationists " say we ' re stronger together, but their assault on America ' s history, philosophy, and culture will only tear us apart. Who are the disintegrationists? From Howard Zinn ' s A People ' s History of the United States to the New York Times ' 1619 project, many modern analyses view American history through the lens of competing oppressions, a racist and corrupt experiment from the very beginning. They see American philosophy as a lie – beautiful words pasted over a thoroughly rotted system. They see America ' s culture of rights as a façade that merely reinforces traditional hierarchies of power, instead of being the only culture that guarantees freedom for individuals. Disintegrationist attacks on the values that built our nation are insidious because they replace each foundational belief, from the rights to free speech and self-defense to the importance of marriage and faith communities, with nothing more than an increased reliance on the government. This twisted disintegrationist vision replaces the traditional " unionist " understanding that all Americans are united in a shared striving toward the perfection of universal ideals. How to Destroy America in Three Easy Steps shows that to be a cohesive nation we have to uphold foundational truths about ourselves, our history, and reality itself—to be unionists instead of disintegrationists. Shapiro offers a vital warning that if we don ' t recover these shared truths, our future—our union—as a great country is threatened with destruction.
