"Far too many people around the world know the pain of losing a loved one to drowning. Each year almost 360,000 people die from drowning--over 90% of them in low- and middle income countries. More than half of these deaths are among those younger than 25, with children aged under 5 facing the greatest risk. Drowning is the third leading cause of death worldwide for those aged from 5 to 14. Despite these tragic facts, drowning prevention gets relatively little attention and few resources. There is far more we can do to prevent drowning. Global commitments made as part of the Sustainable Development Goals, for example, cannot be met as long as this preventable cause of death is left largely unchecked. All of us--policymakers, parents, non-profit organizations, businesses and concerned citizens--can help prevent drowning. Explaining how is the goal of this

guide. Building on the World Health Organization's 2014 Global report on drowning, the following pages provide practical, step-by-step guidance on how to implement 10 effective measures to prevent drowning. They range from community-based solutions, such as day care for children and barriers controlling access to water, to effective national policies and legislation around water safety, including setting and enforcing boating, shipping and ferry regulations. Data show that all of these solutions can help save lives. The more we work together to implement the measures outlined in this guide, the more lives can be saved. We urge all concerned to adopt as many of the interventions and strategies as their resources will allow, and to protect those most vulnerable without delay."--Page iv.

This New American Red Cross CPR/AED for the Professional Rescuer Participant's Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children. Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen. The skills learned in this course include adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-rescuer CPR and adult and child AED. Additional training can be added to this course including bloodborne pathogens training and emergency oxygen administration. While the skills and knowledge that professional rescuers use are increasing, this training will help you meet your most important responsibility as a professional rescuer- the responsibility to save lives.

Perfect for fans of Sunday Times bestselling authors Cara Hunter, Susie Steiner and Jane Casey. ‘ Fantastic story and characterisation with a pair of detectives who are battling their own demons amidst an apparent suburban suicide ’ James Delargy ‘ The darker side of suburbia shows its underbelly in this gritty domestic thriller. A procedural with a kick in its tail! ’ Rachael Blok ‘ Crime fans are going to love Last Place You Look ... believe me, this is a detective team you ’ re going to want to meet again and again. ’ Amy McLellan ‘ A seriously pacy plot and a tangled case that defies expectation. I eagerly await the next installment in this gripping and perfectly written series. ’ Heather Critchlow ‘ I was not expecting that! I was just so invested in the brilliant partnership of Butler and West that I couldn ’ t put it down... together they ’ re dynamite. I was kept on my toes the whole time, not sure where the story was going, and there were so many twists along the way that I was expecting a shocking ending... and yet I still didn ’ t see what was coming! ’ Elle Croft ‘ An exciting page turner and entirely believable police procedural thriller featuring a new pair of detectives whose secrets are as mysterious as those of the criminals they are trying to hunt. Highly recommended. ’ A. J. Park ‘ If you like tense, complex and compulsive procedurals with well observed characterisation this is definitely the book for you! Surfing has been described as a sport, a religion, an obsession and a way of life. For Shaun Tomson, world champion surfer and successful entrepreneur, surfing is all of that and more. In Surfer's Code, Tomson shares the life lessons he's gathered over many years of surfing - from his boyhood in South Africa to the World Tour in the 70s and 80s. While the lessons Tomson shares are taken from beaches all over the world, they translate powerfully to everyday life and the extraordinary challenges we face. They reflect the attitude and outlook necessary to survive not only the ups and downs of life, but to master them and emerge a winner. His lessons include: I will never turn my back on the ocean; I will always paddle back out; I will watch out for other surfers; there will always be another wave; I will catch a wave every day.

The Wigwam Resort

The evolution of an arid desert area into the verdant oasis that is the Wigwam Resort was ultimately brought about by an unlikely crop needed by an important American corporation in the early 20th century. The crop was long-staple cotton and the corporation was the Goodyear Tire and Rubber Company. When the U.S. Department of Agriculture discovered that Arizona's Salt River Valley was an ideal location to domestically grow long-staple cotton, Goodyear purchased 16,000 acres in the desert west of Phoenix to cultivate the crop for their newly developed pneumatic tire. The company built a three-room lodge, originally called the "Organization House," for the executives that came to oversee the farming operations. The location became a popular winter retreat within the company, and in 1929, Goodyear expanded the facilities and opened "The Wigwam" as a hotel.

As the years progressed, amenities such as golf and fine dining were added, and the Wigwam Resort became one of the premier luxury destinations in the Southwest.

One dead body. One witness. One answer. Early one morning, DS Robin Butler is summoned to a crime scene. Not as a policeman, but as best friend to renowned meteorologist, Dr Finn Mason. The morning after studying an enormous storm, Finn has locked himself in a van. Bloodied, confused, and with no memory of how he came to be there. And alongside him - a dead body. Butler sets out to prove Finn's innocence, his friend now accused of murder. Meanwhile, DC Freya West is struggling to cope. She has been plagued by nightmares since the events of nine months ago. Freya assists her boss on his quest to clear Finn's name, but while Butler becomes increasingly desperate to help his boyhood friend, Freya is crumbling under the weight of the secrets she is keeping. As the past threatens to consume them both, do both detectives stand to lose more than they can bear? A tense and atmospheric police procedural from the author of the unforgettable Last Place You Look. Praise for Under a Dark Cloud 'A great and unique locked room mystery that had me guessing all the way through to a fantastic ending. Under a Dark Cloud is full of drama, mystery and tension. One of my favourite series around.' James Delargy 'A coiled and wholly satisfying mystery, elevated by melancholic piquancy. The authentic police thrills and teasing dynamics of the characters are handled with the same elegance as the rueful climax, which long after the book is closed still feels perfect and inevitable.' Dominic Nolan 'Once again Louisa Scarr has created a thoroughly believable world in which to set a brilliantly compulsive story. The characters are so well-drawn that it's a pleasure to spend time with them, and I can't wait for number three!' Alison Belsham 'Characters I care about, inventive plot and expert storytelling -a big thumbs up from me.' Fliss Chester 'A fast-paced and deft meteorological mystery that twists its way to a brilliant conclusion. Scarr's characters are beautifully realised, flawed and complex - their stories make the quiet moments every bit as rewarding as the dramatic ones. If you haven't already read Butler & West, you're in for a treat...' Heather Critchlow 'A must read for fans of U.K. Crime Fiction. A fast paced addictive story. A locked room murder with an original twist' NetGalley review □ □ □ □ 'The plot is original, superbly woven and the cast of characters is made up of well developed and engaging individuals. Overall, a captivating, suspenseful and atmospheric page-turner with more than enough going on to keep you invested. Highly recommended.' NetGalley Review 'I absolutely loved this!' NetGalley Review 'I read this very happily in two sessions and am await more in the series. Well worth reading!' NetGalley Review 'Great premise. Well written. A page turner. Plenty of suspense to keep me guessing .The ending leaving everything tied up left me satisfied. Definitely will read her next offering.' NetGalley Review
