From former US Congressman and CIA Officer Will Hurd, a "how-to guide with a prescription for getting the nation on the right footing" (Politico) and "a clarion call for a major political pivot" (San Antonio Report) rooted in the timeless ideals of bipartisanship, inclusivity, and democratic values. "Hurd has the biography and the charisma and the God-given political chops to put the Republican Party—and the rest of the country—on notice." —THE ATLANTIC It's getting harder to get big things done in America. The gears of our democracy have been mucked up by political nonsense. To meet the era-defining challenges of the 21st century, our country needs a reboot. In *American Reboot*, Hurd, called "the future of the GOP" by Politico, provides a "detailed blueprint" (Robert M. Gates, Secretary of Defense, 2006–2011) for America grounded by what Hurd calls pragmatic idealism—a concept forged from enduring American values to achieve what is actually achievable. Hurd takes on five seismic problems facing a country in crisis: the Republican Party's failure to present a principled vision for the future; the lack of honest leadership in Washington, DC; income inequality that threatens the livelihood of millions of Americans; US economic and military dominance that is no longer guaranteed; and how technological change in the next thirty years will make the advancements of the last thirty years look trivial. Hurd has seen these challenges up close. A child of interracial parents in South Texas, Hurd survived the back alleys of dangerous places as a CIA officer. He carried that experience into three terms in Congress, where he was, for a time, the House's only Black Republican, representing a seventy-one percent Latino swing district in Texas that runs along 820 miles of the US-Mexico border. As a cyber security executive and innovation crusader, Hurd has worked with entrepreneurs on the cutting edge of technology to anticipate the shockwaves of the future. Hurd, who the Houston Chronicles calls "a refreshing contract to the panderers, petty demagogues, and political provocateurs who reign these days," draws on his remarkable experience to present "a

call to Americans to consider the most contentious issues of our times more holistically" (The Atlantic). He outlines how the Republican party can look like America by appealing to the middle, not the edges. He maps out how leaders should inspire rather than fearmonger. He forges a domestic policy based on the idea that prosperity should be a product of empowering people, not the government. He articulates a foreign policy where our enemies fear us and our friends love us. And lastly, he charts a forceful path forward for America's technological future. We all know we can do better. It's time to hit "ctrl alt del" and start the American Reboot.

What do all these people have in common: the first man to die in the American Revolution, a onetime chief of the Crow Nation, the inventors of peanut butter and the portable X-ray machine, and the first person to make a wooden clock in this country? They were all great African Americans. For parents and teachers interested in fostering cultural awareness among children of all races, this book includes more than 70 hands-on activities, songs, and games that teach kids about the people, experiences, and events that shaped African American history. This expanded edition contains new material throughout, including additional information and biographies. Children will have fun designing an African mask, making a medallion like those worn by early abolitionists, playing the rhyming game "Juba," inventing Brer Rabbit riddles, and creating a unity cup for Kwanzaa. Along the way they will learn about inspiring African American artists, inventors, and heroes like Harriet Tubman, Benjamin Banneker, Rosa Parks, Langston Hughes, and Louis Armstrong, to name a few.

From Ishmael Reed and Toni Morrison to Colson Whitehead and Terry McMillan, Darryl Dickson-Carr offers a definitive guide to contemporary African American literature. This volume-the only reference work devoted exclusively to African American fiction of the last thirty-five years-presents a wealth of factual and interpretive information about the major authors, texts, movements, and ideas that have shaped contemporary African American fiction. In more than 160 concise entries, arranged alphabetically, Dickson-Carr discusses the careers, works, and critical receptions of Alice Walker, Gloria Naylor, Jamaica Kincaid, Charles Johnson, John Edgar Wideman, Leon Forrest, as well as other prominent and lesser-known authors. Each entry presents ways of reading the author's works, identifies key themes and influences, assesses the writer's overarching significance, and includes sources for further research. Dickson-Carr addresses the influence of a variety of literary movements, critical theories, and publishers of African American work. Topics discussed include the Black

Arts Movement, African American postmodernism, feminism, and the influence of hip-hop, the blues, and jazz on African American novelists. In tracing these developments, Dickson-Carr examines the multitude of ways authors have portrayed the diverse experiences of African Americans. The Columbia Guide to Contemporary African American Fiction situates African American fiction in the social, political, and cultural contexts of post-Civil Rights era America: the drug epidemics of the 1980s and 1990s and the concomitant "war on drugs," the legacy of the Civil Rights Movement, the struggle for gay rights, feminism, the rise of HIV/AIDS, and racism's continuing effects on African American communities. Dickson-Carr also discusses the debates and controversies regarding the role of literature in African American life. The volume concludes with an extensive annotated bibliography of African American fiction and criticism.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

America was founded on certain First Principles which are the critical underpinnings of our free society: the rule of law, unalienable rights, equality, the Social Compact, and limited government. Supported by extensive research and fuelled by a

true passion and respect for the profound vision of America's Founding Fathers, Michael Warren proves how they have guided us in our journey to become the greatest and most free nation in the world. He exposes how our knowledge of our principles and history has eroded to the point of near non-existence-and that this is a threat to our survival much more serious than what may come to us from outside our borders. Warren proposes thoughtful and needed reforms to enable America to rise above the impending doom from within and reclaim the greatness envisioned by the Founding Fathers.

Totaling approximately 40,000 objects, the University Museum's ethnographic holdings represent native peoples from ten North American culture areas—the Arctic, Subarctic, Northwest Coast, California, Plateau, Great Basin, Southwest, Great Plains, Northeast, and the Southeast. This guide highlights the strength of the collections and demonstrates how objects are tied to history and people living within different cultural and social contexts. It also underscores that objects have different multiple meanings. Some objects illustrate intertribal relations; others best reflect collecting attitudes at the turn of the century when much of the Museum's collections was acquired. Visitors and off-site readers will learn about such related archival resources as documentation and photographs, past and present Museum exhibitions, current research, repatriation, and contemporary collections development.

Once seen as threats to mainstream society, Irish Americans have become an integral part of the American story. More than 40 million Americans claim Irish descent, and the culture and traditions of Ireland and Irish Americans have left an indelible mark on U.S. society. Timothy J. Meagher fuses an overview of Irish American history with an analysis of historians' debates, an annotated bibliography, a chronology of critical events, and a glossary discussing crucial individuals, organizations, and dates. He addresses a range of key issues in Irish American history from the first Irish settlements in the seventeenth century through the famine years in the nineteenth century to the volatility of 1960s America and beyond. The result is a definitive guide to understanding the complexities and paradoxes that have defined the Irish American experience. Throughout the work, Meagher invokes comparisons to Irish experiences in Canada, Britain, and Australia to challenge common perceptions of Irish American history. He examines the shifting patterns of Irish migration, discusses the role of the Catholic church in the Irish immigrant experience, and considers the Irish American influence in U.S. politics and modern urban popular culture. Meagher pays special attention to Irish American families and the roles of men and women, the emergence of the Irish as a "governing class" in American politics, the paradox of their combination of fervent American patriotism and passionate Irish nationalism, and their complex and sometimes tragic relations with African and Asian Americans.
