makers have produced fresh interpretations that draw on the venerable '50s and '60s templates. The guide details everything from highly accurate (and highly priced) vintage remakes and artist models to the broader influences and mashup qualities of modern retro creations. The 1950s marked the birth of so many now-classic electric guitars: from the Gibson Les Paul and the Fender Telecaster (as seen with Bill Haley & His Comets and with Little Richard's band) to the Gretsch 6120 and the Gibson Flying V (twanged by Duane Eddy and touted by Albert King). In the 1960s, players pushed the sound of the electric

Analog Man's Guide to Vintage Effects
"It's not surprising that sooner or later I'd dive down the proverbial rabbit hole into the world of vintage bass guitars."—Geddy Lee From Rush frontman Geddy Lee's personal collection of vintage electric bass guitars, dating from the 1950s to the 1980s, comes the definitive volume on the subject. Geddy's love of the bass has been nurtured over a lifetime spent in the limelight as one of the world's premier rock bassists. For the past seven years, he's dedicated himself to studying the history of the instrument that's been so essential to his career, collecting hundreds of

basses from around the globe. Written with arts journalist Daniel Richler, gorgeously photographed in breathtaking detail by Richard Sibbald, and with insight from Geddy's trusted bass tech and curator, John "Skully" McIntosh, Geddy Lee's Big Beautiful Book of Bass profiles over 250 classic basses from Geddy's extensive collection. Representing every tone in the bass palette, every nuance of the rock and roll genre as well as blues, jazz, pop, and country, this one-of-a-kind collection features so-called "beauty queens"—pristine instruments never lifted from their cases—as well as "road warriors"—well-

worn, sweat-soaked basses that proudly show their age and use. Complete with personal commentary from Geddy that showcases his knowledge both as a musician and an aficionado, this luxuriously produced volume is a revelatory look at the heavy hitters in the world of bass—Fender, Gibson/Epiphone, Rickenbacker, Höfner, Ampeg—and lesser known but influential global luthiers such as Antonio Wandr Pioli, Dan Armstrong, and Tony Zemaitis. The book also features interviews with John Paul Jones (Led Zeppelin); Adam Clayton (U2); Robert Trujillo (Metallica); Jeff Tweedy (Wilco); Bill Wyman (The

Rolling Stones); Les Claypool (Primus); Bob Daisley (Rainbow); Fender expert and owner of the legendary Gibson Explorer, Bass Ken Collins; veteran guitar tech for The Who, Alan Rogan; plus comments from many other great players across three decades of rock and roll. Written in Geddy's singular voice, this book reveals the stories, songs, and history behind the instruments of his inimitable collection. Complete with an index and a graphically designed timeline of the history of the bass, as well as an up-close look at Geddy's basses on Rush's final R40 Tour, his stage and recording
