

Timothy Venning's exploration of the alternative paths that British history might easily have taken moves on to the Wars of the Roses. What if Richard of York had not given battle in vain? How would a victory for Warwick the Kingmaker at the Battle of Barnet changed the course of the struggle for power? What if the Princes had escaped from the tower or the Stanleys had not betrayed their king at Bosworth? These are just a few of the fascinating questions posed by this book. As always, while necessarily speculative, Dr. Venning discusses all the scenarios within the benefit of a deep understanding of the major driving forces, tensions and trends that shaped British history. In so doing, he helps the reader to understand why things panned out as they did, as well as what might have been in this tumultuous period.

Most of us can name at least a few of the major events, places and people in British history. But the details are often more confusing. Did the Saxons come before or after the Romans? Did King Arthur really exist? When did Charles I lose his head or Wellington defeat Napoleon at Waterloo? In " The Ultimate Time Team Companion" Tim Taylor draws on the expertise of the Time Team contributors to answer all your questions about the programme, including a guide to all 50 excavation sites illustrating our British history from the dawn of time to the modern age. It also follows the team in five photo stories as they explore Cirencester, northern France, Basing House, Flag Fen and Elveden in Suffolk.

"Macksey's blend of what actually happened and what might have been makes for a piece of writing comparable to Frederick Forsyth at his best." —Jack Higgins "Convincingly described and excellently illustrated." —The Daily Telegraph In June 1940, German troops massed across the Channel, poised for the invasion of Britain. With France defeated and Britain cowed, Hitler seemed ready for his greatest gamble. In this brilliant and compelling alternate history the Germans launch the invasion that, in reality, was never more than a plan. Landing between Dover and Hythe, German troops push inland supported by the Luftwaffe and the impregnable panzers, and strike out towards London. The British, desperate to defeat the invaders, rally and prepare for a crucial confrontation at Maidstone. Realistic, carefully researched and superbly written, this best-selling study is a classic of alternate history and a thought-provoking look at how Britain's war might have been.

This "terrific" novel of alternate history asks: What if Hitler had never been born? (The Washington Post). Michael Young is a graduate student at Cambridge who is completing his dissertation on the early life of Adolf Hitler. Leo Zuckermann is an aging German physicist haunted by the Holocaust. Together, they idealistically embark on an experiment to change the course of history. And with their success is launched a brave new world that is in some ways better than ours—but in most ways even worse.

No power on Earth can resist the might of Imperial Rome, so it has been and so it ever shall be. Through brute force, terror, and sheer indomitable will, her armies have enslaved a world. From the reign of Maximilianus the Great in A.U.C. 1203 onward through the ages -- into a new era of scientific advancement and astounding technologies -- countless upstarts and enemies arise, only to be ground into the dust beneath the merciless Roman bootheels. But one people who suffer and endure throughout the many centuries of oppressive rule dream of the glorious day that is coming -- when the heavens themselves will be opened to them...and the ships they are preparing in secret will carry them on their "Great Exodus" to the stars.
