

Analisa Kelemahan Kemahiran Menulis Bahasa Arab Dalam

I found this a fascinating book to read, I could identify with my time at school when I would often write with my paper almost in at right angles to my body because I found this comfortable, and the teacher's insistence that the paper be "straight" in front of me. This then made me twist my body into a ridiculous shape, and would sometimes result in punishment for not "sitting on the chair correctly"....if only the teacher had understood the same principles as Rosemary Sassoon, who in this book emphasizes "flexibility and clear thinking about essential issues, rather than to impose solutions" - Spare-Chair
`Handwriting: The Way to Teach It should be required reading wherever Primary school teachers are trained, then perhaps there would be fewer young people still struggling to communicate in legible writing in Secondary school and later life' - Handwriting Today
`This is a comprehensive textbook, and an extremely accessible and practical guide which should be on the bookshelf of every practitioner. I recommend it highly' - Jeni Riley, Head of Early Childhood and Primary Education, Institute of Education, University of London
This book is an essential classroom guide to the teaching of handwriting. It covers all aspects of the subject: from whole-school planning, to classroom management and the teaching of letters in a highly illustrated and practical sequence; and from initial letter forms through to joined writing. The author presents many examples and imaginative ideas to make learning to write more effective and interesting for children and for teachers. This Second Edition includes material on problems which children can have with handwriting, and how to diagnose and remedy them. The author offers strategies for better teaching, and her aim throughout the book is to encourage flexibility and clear thinking about essential issues, rather than to impose solutions.

This collection describes the preconditions, processes, and results of well-managed interdisciplinary research projects from the United States, Canada, Israel, Japan, Brazil, the German Democratic Republic, and Rumania. Based on a 1986 conference at the University of Minnesota, the book is divided into three sections: introductory papers establishing major themes; geographically grouped papers addressing North America, South America, Europe, and Asia; and papers reviewing the present state of knowledge in interdisciplinary work. Throughout, the work addresses the problems and approaches to successfully managing research projects in government, private firms, and universities.

Perhubungan media merupakan aspek yang penting dalam strategi komunikasi sesebuah organisasi. Dengan demikian, amat kritikal bagi pengamal perhubungan awam untuk membina hubungan yang berkesan dengan personaliti media. Penulisan ini berfokus pada amalan perhubungan media di Malaysia dengan memberi tumpuan kepada empat isu iaitu polisi organisasi korporat, amalan etika kewartawanan, persepsi editor dan bahan perhubungan media. Kaedah analisis kandungan digunakan untuk menganalisis bahan-bahan siaran media yang diterima oleh dua organisasi media iaitu sebuah akhbar harian dan sebuah stesen televisyen. Selain itu, temubual mendalam dilaksanakan untuk menganalisis pendapat para editor akhbar harian, stesen televisyen dan agensi berita mengenai amalan perhubungan media. Analisis menunjukkan para editor media berpegang kepada polisi organisasi dalam urusan perhubungan media dan seakan-akan tidak dipengaruhi oleh pengamal perhubungan awam. Berdasarkan analisis didapati pihak berkuasa politik dan pengiklan mempunyai pengaruh kuat ke atas polisi organisasi korporat yang mungkin memberi kesan pada amalan perhubungan media. Dapatan menunjukkan para editor berpandu kepada kod etika profesional dalam membuat liputan secara adil dan saksama. Walaupun pemberian hadiah oleh pengamal perhubungan awam kepada para editor dilihat sebagai kebiasaan dalam perhubungan media, namun amalan pemberian ini tidak mempengaruhi keputusan editorial. Analisis juga mendapati para editor mengakui keprofesionalan pengamal perhubungan awam dari segi format dan gaya persembahan bahan siaran media, termasuk kepelbagaian kandungan yang memenuhi jangkaan mereka. Pelbagai faktor mempengaruhi perhubungan media termasuk kurangnya hubungan interpersonal oleh para pengamal perhubungan awam dengan para editor media massa. Oleh itu, hubungan baik perlu dimantapkan dalam usaha memperbaiki liputan aktiviti, dan seterusnya untuk membina kepercayaan publik kepada organisasi.
