Milady has evolved for over 85 years to become what it is today, the cornerstone of beauty and wellness education. We are very excited and proud to announce the latest edition of Milady Standard Cosmetology, the most commonly used resource in cosmetology education. For decades since our first textbook published, it has been our commitment to provide students with the foundation in the principles and skills needed to master the science and art of cosmetology, and with this latest version that commitment has not wavered. For the new edition, celebrity stylist Ted Gibson served as Creative Director on the project. The result is a brilliant new design with over 750 new photos and a gorgeous layout, providing a visually stunning resource to engage today's learner. We also recruited a team of twelve authors, made up of top professionals and educators in the industry, to provide the most current information on concepts and techniques. During our extensive peer review and development process, we were asked for a resource that placed emphasis on essential content needed for licensure success, and we feel confident that we delivered. Milady Standard Cosmetology will continue to be a source of education that students can count on, not only while in school, but throughout their careers. Any successful business has to keep an ear to the ground and remain one step ahead of competitors. Savvy professionals recognize an expanding market and develop the products and services to tap into it. For the aesthetician, that expanding market segment is the multi-ethnic clientele and the tool to help achieve success in this segment is Milady's Aesthetician Series: Treating Diverse Pigmentation. Building a successful career in aesthetics hinges on the ability to identify and treat the skin concerns of this diverse population. Treating Diverse Pigmentation teaches treatments for skin of color that include: the causes of aging and how it affects each race's unique facial anatomy; a guide through several different skin analysis classification systems; review studies analyzing the racial differences in the anatomy, physiology, and histology of pigmented skin; and case-by-case studies that help the reader recognize skin diseases and disorders common to people of color. The text was created for licensed aestheticians and other professionals working in skincare, including RNs and dermatologists, as well as students. Considering that the majority of the world's population is ethnically diverse, the aesthetic professional with an eye on the future will not hesitate to take advantage of Treating Diverse Pigmentation.
