

Ancient Paleo Hebrew Aleph Bet Coloring Book By Jeremy Scheiner

The origins of the alphabet are shrouded in mystery. Travis Wayne Goodsell has made some discoveries with the Paleo-Alphabets to explain this mystery. The alphabet is explained in simple to understand step by step level processes. The Paleo-Hebrew connection to Egyptian Hieroglyphs means that there are levels of understanding the Paleo-Hebrew letters as well. This book focuses on the ritual meaning. Ancient Egyptian texts reveal that though there is a direct representation of Egyptian Hieroglyphs, there are also other levels of meaning. Each letter corresponds then to a ritual aspect related to its Egyptian Hieroglyphic match.

"The missing link is finally revealed. The ancient hebrew torah scroll authenticates the belief that the children of israel and the phoenicians are historically linked." This work of reference can be used by linguists, scholars in their research and will serve as a tool to further understanding between nations and cultures. Howshua Amariel is a translator of Biblical Hebrew (also known as Ancient Hebrew or the Paleo-Hebrew alphabet) and the author of the interlinear style Paleo- Hebrew text, entitled "THIS REPORT: The Hebrew/Phoenician History called the Bible." Aside from Amariel's claims, his work is also currently respected by the Igbo Jewish communities of Israel as being the most authoritative translation of the Torah scrolls into English.

In *Secularising the Sacred*, Mishory offers an account of Zionist Israeli artists-designers' visual corpus and artistic lexicon of Jewish-Israeli icons as an anchor for the emerging "civil religion," through a process of giving visual form to Zionist ideas and myths.

A book with just the etymology of the Paleo-Hebrew alphabet. Etymology is the study of the strokes of the Paleo-Hebrew characters. It is an essential feature in the study of the language and the origins of the alphabet. Each letter corresponds to a Hieroglyphic picture and is theorized to therefore contain meaning related to the corresponding picture. It is considered to be the oldest known alphabet, dated by Travis Wayne Goodsell to be about 1500 + BCE.

Ever wonder why some Hebrew letters are never combined as words? Ever wonder why some Hebrew letters seem to have independent meaning and then add meaning to another Hebrew letter or Hebrew word? The answer to both of these questions comes from scientific theory testing. Biblical Hebrew's 3-letter words' etymology of the observation with the first 2-letter words and the last 2-letter words is made. 22 volumes for the 22 letters of the Hebrew alphabet. Only what is known from Brown-Driver-Briggs Hebrew-English Lexicon is shown with the Biblical Hebrew words being devowelled and the Aramaic script transliterated into Paleo-Hebrew script. To devowel a word is to remove the word's vowels.

Volume 3, Factual Scientific Observations

Paleo-Hebrew's Observation Matches with Egyptian Hieratic Hieroglyphs

20 years in the making, this anniversary marks the pivotal moment with a new paradigm in Paleo-Hebrew. This book reveals the new scientific discoveries with the Paleo-Hebrew alphabet and its subsequent meanings for each letter. Inside is a scientific connection to not only Egyptian Hieratic Hieroglyphs, but also to Chinese. A must have reference work for anyone serious about the study of Paleo-Hebrew.

This collection of volumes represents the equivalent of thesis work for a PhD. The origins of the Paleo-Hebrew alphabet are shrouded in mystery. Travis Wayne Goodsell's two decades of research has produced new theories that help to explain its beginnings. This third volume illustrates the factual scientific observations with the letters of Paleo-Hebrew. This is the foundation for my theories. One can not like my theories, but they have to admit the observations are true. And with my observations being true, the traditional theory is false and a new theory must be adopted. My theories explain the observations. The first observation is with comparisons with the Paleo-Greek letters. Paleo-Greek is not considered Semetic, yet its letters are the same as Paleo-Hebrew which is traditionally considered Semetic. That's the first clue that something is wrong with the traditional theory. The second observation is the accurate matching to Egyptian Hieratic Hieroglyphs. With the manner in which Egyptians understood each Hieroglyph and with the observations of each Paleo-Hebrew letter corresponding to a Hieroglyph's Hieratic character, deductively concludes that Paleo-Hebrew letters have levels of meaning like the Egyptian Hieroglphs. The third observation is the etymology of Paleo-Hebrew. The strokes each have meaning in representing the letter. And the fourth observation is the comparisons of the Paleo-Hebrew alphabet letters to the same Chinese characters. I'm not sure what it means to have Chinese equal in language understanding to Paleo-Hebrew and thus Egyptian. But it is clear there is a unifying connection. All these observations are necessary in preparation for presenting the new paradigm.

Never before has there been such an intense research study been done on the Paleo-Hebrew alphabet. Over 20 years has been spent on this project. illustrated herein are the scientific observations, the matches with other languages and the individual letter meanings. The Acronym Theory is replaced with Travis Wayne Goodsell's Theory. The synoptic index was removed because of lack of space available. This research project is just that big.

The Complete Messianic Aleph Tav Scriptures (C-MATS) is a study bible which focuses on the study of the Aleph/Tav Character Symbol used throughout the old testament (Tanakh) by both Moses and the Prophets and is the most exhaustive and unique rendition of its kind in the world. Over 5 years in the making, this English rendition reveals every place the Hebrew Aleph Tav symbol was used as a "free standing" character symbol believed to express the "strength of the covenant" in its original meaning. The Aleph/Tav was also believed to be the "mark" of the "divine hand" for thousands of years by such famous rabbis as Nahum of Gimzo, Akiva, and R. S. Hirsch as well as the Apostle John who claimed in the book of Revelation that the symbol also incorporated Y'shua haMashiach (Jesus the Messiah) because of His divinity. Also revealed in C-MATS is the use of the Aleph/Tav as it is incorporated into the creation of hundreds of Hebrew words used thousands of times, thus taking our understanding of the scriptures to a whole new level. Some mysteries are hard to solve. As a result they remain mysteries, till the day someone solves them. Sometimes it's not just being interested in a topic that will bring knowledge or answers. As Einstein said " The true sign of intelligence is not knowledge but imagination ". Here we need imagination which will bring us to knowledge. Because I believe there is none without the other. When we lack one of them we may miss an important point. In this book you'll find not the ultimate answer to the mystery, but the path leading to it. What are those detached letters at the beginning of some Surahs. The final answer may be discovered in a very short time with the required knowledge. Unfortunately very few nowadays have it. I hope that you'll enjoy this book as much as I did writing it.

All previous Biblical Hebrew lexicons have provided a modern western definition and perspective to Hebrew roots and words. This prevents the reader of the Bible from seeing the ancient authors' original intent of the passages. This is the first Biblical Hebrew lexicon that defines each Hebrew word within its original Ancient Hebrew cultural meaning. One of the major differences between the Modern Western mind and the Ancient Hebrew's is that their mind related all words and their meanings to a concrete concept. For instance, the Hebrew word "chai" is normally translated as "life", a western abstract meaning, but the original Hebrew concrete meaning of this word is the "stomach". In the Ancient Hebrew mind, a full stomach is a sign of a full "life". The Hebrew language is a root system oriented language and the lexicon is divided into sections reflecting this root system. Each word of the Hebrew Bible is grouped within its roots and is defined according to its original ancient cultural meaning. Also included in each word entry are its alternative spellings, King James translations of the word and Strong's number. Indexes are included to assist with finding a word within the lexicon according to its spelling, definition, King James translation or Strong's number.

See how Ancient Hebrew Word Pictures add depth, clarity, and understanding to Isaiah's prophetic description of the coming Messiah. Enjoy creative, contemporary renderings inspired by "His name shall be called..." Share in the insight brought about by the sophistication and clarity of the Hebrew language in its ancient form. The Hebrew language has carried the eternal message of hope and expectation through millennia of time transcending boundaries of culture, persecution, war and peace. Its unique place as God's choice to be the repository of the record of God's interaction with man has given it special prominence in the hearts of those who have dedicated their lives to the pursuit of knowing and understanding the intricacies that dictate the relationship between the Creator and the created. Found tucked within the writings of the Biblical writer Isaiah, one prophetic sentence has captured the hearts and minds of readers and scholars alike for centuries. Over seven centuries before His arrival the prophet foretells of the coming of One as a child who will bring the long awaited peace which has been so elusive to mankind. That prophecy takes on even greater vibrancy when seen through the lens of the Ancient Hebrew language in its original pictorial form. What's in HIS Name? will guide the reader through the prophetic titles of the coming Messiah of Isaiah 9:6 with the same pictorial Aleph Bet Isaiah used for writing, enhanced by contemporary artistic renditions of those Ancient Hebrew names. A unique blessing awaits the reader of What's in HIS Name?

This collection of volumes represents the equivalent of thesis work for a PhD. The origins of the Paleo-Hebrew alphabet are shrouded in mystery. Travis Wayne Goodsell's two decades of research has produced new theories that help to explain its beginnings. This fourth volume is dedicated to the theories to explain the evidence of volume three, Factual Scientific Observations. The main premise is that Paleo-Hebrew being related to Egyptian Hieroglyphs is therefore translatable on different levels, having different types of meaning for each letter. It is well known that Egyptian can be translated multiple ways. The Egyptian Combo-Glyph of the Creation Story, for example, is known not only as a story about the Creation of the Earth, but also the annual Nile inundation, the founding of Egypt, and an incestuous relationship between sibling Gods. The levels that I illustrate are: 1. Deity Representations 2. Deity Attributes Representations (can also be called Anthropomorphic Representations) 3. Environmental Representations 4. Historical Representations 5. Biblical Historical Representations 6. Ritual Representations 7. Prophecy Representations Astronomical Representations is unknown by me and Numerical or Gematria Representations were covered in the first volume, being the same as the traditional belief. In this volume I also assign new names and phonemes to Paleo-Hebrew based upon the evidence of the matches with the Paleo-Greek alphabet, pictorially. For the two languages to be the same pictographs and not be the same or similar in naming and phonetics is just illogical to me. This is a new paradigm based upon the observations of the Paleo-Hebrew letters and the manner of translating Egyptian Hieroglyphs. The Hypothesis that I am off of is that Paleo-Hebrew is derived from the invented language of the Greek Merchants and the learning of the Egyptians.

Brown-Driver-Briggs Hebrew-English Lexicon is devowelled. To devowel is to remove the vowels from the spelling of the word. The purpose is perform research and theory testing on the meanings and the origins of the Paleo-Hebrew vocabulary. The result is a restructured Lexicon. Biblical Hebrew is incomplete, but is here shown what is known. Each word is also transliterated into Paleo-Hebrew for ease in performing research testing. There are 22 volumes to correspond to the 22 letters of the Hebrew alphabet.

This book contains just about every Hebrew word in the Torah and Tanakh. It has Grammatical tools you can use to learn to read, and write in the Ancient language. It has prayers, games and also Hebrew names.

Unlocking the Ancient Hebrew Alphabet Code shows how to interpret many basic Hebrew words using the ancient pictographical meanings of the individual Hebrew letters. Each letter tells a story. Each combination of letters within a Hebrew word forms a picture-story unto itself. Biblical Hebrew was meant to be a living, pictographical language based on combinations of word pictures, each of which conveyed specific meanings. Once this system of word pictures is understood, Hebrew words come alive with nuances of meaning that no other language can match. A picture may equal a thousand words, but Hebrew words are beautifully alive with full-color picture meanings!

For close to 150 years, scholars have attempted to identify the language of the world's oldest alphabetic script and to translate the inscriptions that use it, which were found in the Sinai Peninsula and date from 1842 to 1446 BCE. Until now, scholars have accomplished little more than identifying most of the pictographic letters and translating a few of the Semitic words. In The World's Oldest Alphabet, however, Douglas Petrovich presents a thorough, detailed defense of his bold new claims concerning these writings. Petrovich claims to have resolved all of the disputed letters and to have identified the language as Hebrew, which allows him to translate all of the inscriptions. Furthermore, he argues that they explicitly name three biblical figures and greatly illuminate the earliest Israelite history in a way that nothing else has, apart from the Bible.

This book shows the Egyptian Hieroglyphs of the Hieratic characters that match the Paleo-Hebrew alphabet. Hieratic is the cursive writing of the Hieroglyphs, which are the Egyptian pictures. Travis Wayne Goodsell has made the discovery that the Paleo-Hebrew letters correspond to different Egyptian Hieroglyphs as a result of these observations. Travis has also discovered that the new assignment results in the Paleo-Hebrew letters containing individual and combined pictorial meaning. As a result Travis places the age of Paleo-Hebrew to 1500 + BCE making it the oldest alphabet.

Whether you know Hebrew or not, this book will provide you with a quick reference resource for learning the meaning of many Hebrew words that lie beneath the English translations, which will open new doors for you into Biblical interpretation. The Hebrew language of the Bible must be understood from its original and Ancient Hebrew perspective. Our interpretation of a word like "holy" is an abstract idea, derived out of a Greco-Roman culture and mindset, which is usually understood as someone or something that is especially godly, pious or spiritual. However, the Hebrew word ???? (qadosh) means, from an Ancient Hebrew perspective, unique and is defined in this dictionary as: "Someone or something that has, or has been given the quality of specialness, and has been separated from the rest for a special purpose." With this interpretation, we discover that the nation of Israel is not "holy," in the sense of godliness or piety, but is a unique and special people, separated from all others to serve God. This Biblical Hebrew dictionary contains the one thousand most frequent verbs and nouns found within the Hebrew Bible. Each word is translated and defined from its original concrete Ancient Hebrew perspective, allowing for a more accurate interpretation of the text. In addition to the one thousand verbs and nouns, the appendices in the book include a complete list of Hebrew pronouns, prepositions, adverbs, conjunctions and numbers.

I've suspected Paleo-Hebrew was the same as Paleo-Greek ever since I acquired Joseph Yahuda's book, Hebrew is Greek. The alphabet characters are a direct match with few exceptions and a few additions from both alphabets. Travis Wayne Goodsell, the foremost Abecedarian of Paleo-Hebrew, shows these matches and Paleo-Greek letter meanings along with illustrating the revisions of the names and phonemes of Paleo-Hebrew. For the complete study of the Paleo-Hebrew alphabet, the reader is encouraged to refer to the author's book, Complete Paleo-Hebrew Alphabet.

"The contemporary styled work is called 'Aleph is for Ox.' It is a bright, bold, six color serigraphic print constructed from one of the most revolutionary and transformative human inventions: The Alphabet. The print displays the original alphabet--the ancient Hebrew or Paleo-Hebrew alphabet--laid out in the form of a Menora."--Letter from the artist.

The Hebrew Bible, called the "Tenach" by Jews and "Old Testament" by Christians, was originally written in the Hebrew

language using an ancient pictographic, or paleo-Hebrew, script. Through the study of this ancient language and script the words of the Bible will come alive to the reader in a way never seen before. This book will examine the origins and history of the ancient Hebrew language and script and their close relationship to the culture of the ancient Hebrews. Included are detailed charts of the evolution of the ancient Hebrew script as well as many other related Semitic and non-Semitic scripts. Also included are the details of the root system of the Hebrew language, and a lexicon of ancient Hebrew roots to assist the reader of the Bible with finding the original cultural context for many Hebrew words.
