**Among the violent personalities of the High Renaissance, Lucrezia Borgia is chiefly remembered as a raven-haired poisoner.**

**Facing the Challenges of a Multi-Age Workforce** examines the shifting economic, cultural, and technological trends in the modern workplace that are taking place as a result of the aging global workforce. Taking an international perspective, contributors address workforce aging issues around the world, allowing for productive cross-cultural comparisons. Chapters adopt a use-inspired approach, with contributors proposing solutions to real problems faced by organizations, including global teamwork, unemployed youth, job obsolescence and over-qualification, heavy emotional labor and physically demanding jobs, and cross-age perceptions and communication. Additional commentaries from sociologists, gerontologists, economists, and scholars of labor and government round out the volume and demonstrate the interdisciplinary nature of this important topic.

Myanmar-Burma has one of the largest concentrations of Buddhist nuns and monks in the world today. In Renunciation and Empowerment of Buddhist Nuns in Myanmar-Burma, Kawanami traces the nun's scholarly lineage in modern Myanmar history and examines their contemporary religious position in Myanmar's social and political contexts. Although their religious status may appear ambiguous from a textual viewpoint, it is argued that their large presence is a clear indication as to the important functions Buddhist nuns perform in the monastic community. Sagaing Hill where the main research was conducted, occupies an important educational centre for Myanmar nuns in consolidating their scholarly lineage and spreading the network of dhamma teachers. The book examines transactions that take place in their everyday lives and reveals the essence of their religious lives that make Buddhist nuns an essential bridge between sangha and society. Tiphaigne de la Roche (1722-74) was a French physician and author. He was born in Montebourg in the Cotentin Peninsula of Normandy in north-west France, studied medicine at the University of Caen and began practising as a physician in 1744. His novels, written for the most part anonymously, take place in the wake of two of the 18th century's great philosophical movements of Rationalism and Illuminism, and often combine scientific considerations with cabalistic, magical and alchemical ones. He is noted for anticipating many social and scientific inventions including photography, synthetic food and television. This work was first published in 1760 and the title in the original French, Giphantie, is an anagram of the author's given name. Reprinted from the English translation of 1761.

"He envejecio mucho desde mis primeras publicaciones, que tuvieron lugar en el año 1580. Pero diudo que me haya vuelto una pulgada más sabio. Yo entonces y yo ahora somos por cierto dos: cuál es mejor no puedo decirlo. Seria bonito ser viejo si uno no se encaminara a otra cosa que al mejoramiento. Es un itubeante andar de borracho, vertiginoso, informe, o de juncos que el aire maneja azorosamente según los designios de la brisa."
"Todo es relativo. Ésa es la gran lección que sobrevuela este texto, extraído del libro III de los Ensayos de Montaigne. Pilar de un auténtico monumento literario. De la vanidad nos acerca una propuesta esencial: conservar el espíritu crítico, pues ningún conocimiento es absoluto. En un siglo en el cual reinan las guerras de religión, la miseria y la vanidad, Montaigne reclama el derecho a dudar, para defender el eclecticismo y la tolerancia. Michel Eyquem de Montaigne (1533-1592) fue uno de los escritores más influyentes del Renacimiento francés. En sus escritos demuestra una asombrosa habilidad para mezclar la especulación teórica más rigurosa con anécdotas casuales y autobiográficas. Buena parte de la literatura moderna de no ficción debe su génesis a Montaigne, quien dejó su huella en autores como Shakespeare, Rousseau y Nietzsche.

Jen Beagin's funny, moving, fearless debut novel introduces an unforgettable character, Mona—almost 24, cleaning houses to get by, emotionally adrift. Handing out clean needles to drug addicts, she falls for a recipient who proceeds to break her heart in unimaginable ways. She decamps to Taos, New Mexico, for a fresh start, where she finds a community of seekers and cast-offs. But they all have one or two things to teach her—the pajama-wearing, blissed-out New Ager, the slightly creepy client with peculiar tastes in controlled substances, the psychic who might really be psychic. Always just under the surface are her memories of growing up in a chaotic, destructive family from which she's trying to disentangle herself. The story of her journey toward a comfortable place in the world and a measure of self-acceptance is psychologically acute, often surprising, and entirely human.

In this new book, international bestselling author Sylvia Browne turns her psychic wisdom to the puzzling, often contradictory predictions proposed by major historical and contemporary figures, ranging from biblical prophets and contemporary figures, ranging from biblical prophets and Nostradamus to George Washington and NASA scientists. In Prophecy, Sylvia Browne shares comforting insights on headliner topics such as: The race for a cancer cure; Nuclear war; The possibility of colonising other planets; Peace in the Middle East; The asteroid rumoured to be heading our way; And dozens of other concerns about the future. Examining the most notorious prophetic voices throughout the ages, Sylvia Browne offers a clear and fascinating vision of the world as it will be in five, ten, twenty, one hundred, and five hundred years. Prophecy provides the answers we all yearn for in uncertain times.

The following is an extract from M. Dostoevsky and 's celebrated novel, The Brothers Karamazof, the last publication from the pen of the great Russian novelist, who died a few months ago, just as the concluding chapters appeared in print. Dostoevsky is beginning to be recognized as one of the ablest and profoundest among Russian writers. His characters are invariably typical portraits drawn from various classes of Russian society, strikingly life-like and realistic to the highest degree. The following extract is a cutting satire on modern theology generally and the Roman Catholic religion in particular. The idea is that Christ revisits earth, coming to Spain at the period of the Inquisition, and is at once arrested as a heretic by the Grand Inquisitor. One of the three brothers of the story, Ivan, a rank materialist and an atheist of the new school, is supposed to throw this conception into the form of a poem, which he describes to Alyosha—the youngest of the brothers, a young Christian mystic brought up by a and quot:saint and quot: in a monastery—as follows: and (—Ed. This book, first published in 2000, is a comprehensive survey of research and theory in personality psychology.

Social Security in the United States and in Europe is at a critical juncture. Through the essays assembled in Social Security Pension Reform in Europe, Martin Feldstein and Horst Siebert, along with a number of distinguished contributors, discuss the challenges facing Social Security reform in the aging societies of Europe. A remarkable range of European nations—Germany, France, Finland, the Netherlands, Poland, Romania, Italy, Sweden, the United Kingdom, and Hungary—have implemented or are about to implement mixed Social Security systems that combine a traditional defined benefit of the pay-as-you-go system with an individual retirement account defined contribution of a capital-funded system. The essays here highlight the problems that the European pension reform process faces and how it differs from that of the United States. This timely volume will significantly enrich the debate on pension reform worldwide.

***Erich Auerbach's Dante: Poet of the Secular World is an inspiring introduction to one of world's greatest poets as well as a brilliantly argued and still provocative essay in the history of ideas. Here Auerbach, thought by many to be the greatest of twentieth-century scholar-critics, makes the seemingly paradoxical claim that it is in the poetry of Dante, supreme among religious poets, and above all in the stanzas of his Divine Comedy, that the secular world of the modern novel first took imaginative form. Auerbach's study of Dante, a precursor and necessary complement to Mimesis, his magisterial overview of realism in Western literature, illuminates both the overall structure and the individual detail of Dante's work, showing it to be an extraordinary synthesis of the sensuous and the conceptual, the particular and the universal, that redefined notions of human character and fate and opened the way into modernity.
