Myanmar-Burma has one of the largest concentrations of Buddhist nuns and monks in the world today. In Renunciation and Empowerment of Buddhist Nuns in Myanmar-Burma, Kawanami traces the nun's scholarly lineage in modern Myanmar history and examines their contemporary religious position in Myanmar's social and political contexts. Although their religious status may appear ambiguous from a textual viewpoint, it is argued that their large presence is a clear indication as to the important functions Buddhist nuns perform in the monastic community. Sagaing Hill where the main research was conducted, occupies an important educational centre for Myanmar nuns in consolidating their scholarly lineage and spreading the network of dharma teachers. The book examines transactions that take place in their everyday lives and reveals the essence of their religious lives that make Buddhist nuns an essential bridge between sangha and society. Erich Auerbach’s Dante: Poet of the Secular World is an inspiring introduction to one of world’s greatest poets as well as a brilliantly argued and still provocative essay in the history of ideas. Here Auerbach, thought by many to be the greatest of twentieth-century scholar-critics, makes the seemingly paradoxical claim that it is in the poetry of Dante, supreme among religious poets, and above all in the stanzas of his Divine Comedy, that the secular world of the modern novel irst took imaginative form. Auerbach’s study of Dante, a precursor and necessary complement to Mimesis, his magisterial overview of realism in Western literature, illuminates both the overall structure and the individual detail of Dante’s work, showing it to be an extraordinary synthesis of the sensuous and the conceptual, the particular and the universal, that rede?ned notions of human character and fate and opened the way into modernity. Jen Beagin's funny, moving, fearless debut novel introduces an unforgettable character, Mona—almost 24, cleaning houses to get by, emotionally adrift. Handing out clean needles to drug addicts, she falls for a recipient who proceeds to break her heart in unimaginable ways. She decamps to Taos, New Mexico, for a fresh start, where she finds a community of seekers and cast-offs. But they all have one or two things to teach her—the pajama-wearing, blissed-out New Agers, the slightly creepy client with peculiar tastes in controlled substances, the psychic who might really be psychic. Always just under the surface are her memories of growing up in a chaotic, destructive family from which she's trying to disentangle herself. The story of her journey toward a comfortable place in the world and a measure of self-acceptance is psychologically acute, often surprising, and entirely human.

First English translation of Paola Masino's Nascita e morte della massaia, her most controversial novel that provoked Fascist censorship for its critical portrayal of marriage and motherhood.

Life in the Spirit World

An Introduction to Work and Organizational Psychology

The Czech philosopher Jan Patočka (1907-1977) is widely recognized as the most influential thinker to come from postwar Eastern Europe. This book presents his most mature ideas about the history of Western philosophy.

The following is an extract from M. Dostoevsky and 's celebrated novel, The Brothers Karamazof, the last publication from the pen of the great Russian novelist, who died a few months ago, just as the concluding chapters appeared in print. Dostoevsky is beginning to be recognized as one of the ablest and profoundest among Russian writers. His characters are invariably strikingly life-like and realistic to the highest degree. The following extract is a cutting satire on modern theology generally and the Roman Catholic religion in particular. The idea is that Christ revisits earth, coming to Spain at the period of the Inquisition, and is at once arrested as a heretic by the Grand Inquisitor. This book, first published in 2000, is a comprehensive survey of research and theory in personality psychology.

"He envejecido mucho desde mis primeras publicaciones, que tuvieron lugar en el año 1580. Pero dudo que me haya vuelto una pulgada más sabio. Yo entonces y yo ahora somos por cierto dos: cu á l es mejor no puedo decirlo. Ser í a bonito ser viejo si uno no se encaminara a otra cosa que al mejoramiento. Es un titubeante andar de borracho, vertiginoso, informe, o de junco que el aire maneja azarosamente seg ún n los designios de la brisa. " Todo es relativo. É sa es la gran lección que sobrevuela este texto, extra í do del libro III de los Ensayos de Montaigne. Pilar de un aut é ntico monumento literario, De la vanidad nos acerca una propuesta esencial:

conservar el esp í ritu cr í tico, pues ning ún conocimiento es absoluto. En un siglo en el cual reinan las guerras de religi ó n, la miseria y la vanidad, Montaigne reclama el derecho a dudar, para defender el eclecticismo y la tolerancia. Michel Eyquem de Montaigne (1533-1592) fue uno de los escritores m á s influyentes del Renacimiento franc é s. En sus escritos demuestra una asombrosa habilidad para mezclar la especulaci ó n te ó rica m á s rigurosa con an é cdotas casuales y autobiogr á ficas. Buena parte de la literatura moderna de no ficci ó n debe su gé nesis a Montaigne, quien dej ó su huella en autores como Shakespeare, Rousseau y Nietzsche.

Finalist for the International Man Booker Prize, winner of the Premio Campiello, short-listed for the Independent Foreign Fiction Award upon its first English-language publication in the UK, and published to critical acclaim in fourteen languages, this mesmerizing historical novel by one of Italys premier women writers is available in the United States. Silent Duchess is the story of Marianna Udra, the victim of a mysterious childhood trauma that has left her deaf and mute, trapped in a world of silence. In luminous language that conveys both the keen visual sight and the deep human insight possessed by her remarkable main character, Dacia Maraini captures the splendor and the corruption the strength of her unbreakable spirit.

Tiphaigne de la Roche (1722-74) was a French physician and author. He was born in Montebourg in the Cotentin Peninsula of Normandy in north-west France, studied medicine at the University of Caen and began practising as a physician in 1744. His novels, written for the most part anonymously, take place in the wake of two of the 18th century's great philosophical movements of Rationalism and Illuminism, and often combine scientific considerations with cabalistic, magical and alchemical ones. He is noted for anticipating many social and scientific inventions including photography, synthetic food and television. This work was first published in 1760 and the title in the original French, Giphantie, is an anagram of the author's given name. Reprinted from the English translation of 1761.

Facing the Challenges of a Multi-Age Workforce examines the shifting economic, cultural, and technological trends in the modern workplace that are taking place as a result of the aging global workforce. Taking an international perspective, contributors address workforce aging issues around the world, allowing for productive cross-cultural comparisons. Chapters adopt a use-inspired approach, with contributors proposing solutions to real problems faced by organizations, including global teamwork, unemployed youth, job obsolescence and over-qualification, heavy emotional labor and physically demanding jobs, and cross-age perceptions and communication. Additional commentaries from sociologists, gerontologists, economists, and scholars of labor and government round out the volume and demonstrate the interdisciplinary nature of this important topic.

Social Security in the United States and in Europe is at a critical juncture. Through the essays assembled in Social Security Pension Reform in Europe, Martin Feldstein and Horst Siebert, along with a number of distinguished contributors, discuss the challenges facing Social Security reform in the aging societies of Europe. A remarkable range of European nations—Germany, France, Finland, the Netherlands, Poland, Romania, Italy, Sweden, the United Kingdom, and Hungary—have implemented or are about to implement mixed Social Security systems that combine a traditional defined benefit of the pay-as-you-go system with an individual retirement account defined contribution of a capital-funded system. The essays here highlight the problems that the European pension reform process faces and how it differs from that of the United States. This timely volume will significantly enrich the debate on pension reform worldwide.
