*NASA's history is a familiar story, one that typically peaks with Neil Armstrong taking his small step on the Moon in 1969. But America's space agency wasn't created in a vacuum. It was assembled from pre-existing parts, drawing together some of the best minds the non-Soviet world had to offer. In the 1930s, rockets were all the rage in Germany, the focus both of scientists hoping to fly into space and of the German armed forces, looking to circumvent the restrictions of the Treaty of Versailles. One of the key figures in this period was Wernher von Braun, an engineer who designed the rockets that became the devastating V-2. As the war came to its chaotic conclusion, von Braun escaped from the ruins of Nazi Germany, and was taken to America where he began developing missiles for the US Army. Meanwhile, the US Air Force was looking ahead to a time when men would fly in space, and test pilots like Neil Armstrong were flying cutting-edge, rocket-powered aircraft in the thin upper atmosphere. Breaking the Chains of Gravity tells the story of America's nascent space program, its scientific advances, its*

*personalities and the rivalries it caused between the various arms of the US military. At this point getting a man in space became a national imperative, leading to the creation of the National Aeronautics and Space Administration, otherwise known as NASA.*

*horror to a different family in a land ruled by a killer. Khalid, the eighteen-year-old Caliph of Khorasan, takes a new bride each night only to have her executed at sunrise. So it is a suspicious surprise when sixteen-year-old Shahrzad volunteers to marry Khalid. But she does so with a clever plan to stay alive and exact revenge on the Caliph for the murder of her best friend and countless other girls. Shazi's wit and will, indeed, get her through to the dawn that no others have seen, but with a catch . . . she's falling in love with the very boy who killed her dearest friend. She discovers that the murderous boy-king is not all that he seems and neither are the deaths of so many girls. Shazi is determined to uncover the reason for the murders and to break the cycle once and for all. \*The book is a Rough Cut Edition (pages are deliberately not the same length).\**

**Since Darwin's day, we've been told that sexual monogamy**

**comes naturally to our species. Mainstream science—as well as religious and cultural institutions—has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. But this narrative is collapsing. Fewer and fewer couples are getting married, and divorce rates keep climbing as adultery and flagging libido drag down even seemingly solid marriages. How can reality be reconciled with the accepted narrative? It can't be, according to renegade thinkers Christopher Ryan and Cacilda Jethå. While debunking almost everything we "know" about sex, they offer a bold alternative explanation in this provocative and brilliant book. Ryan and Jethå's central contention is that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together convergent, frequently overlooked evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. Human beings everywhere and in every era have confronted the same familiar,**

**intimate situations in surprisingly different ways. The authors expose the ancient roots of human sexuality while pointing toward a more optimistic future illuminated by our innate capacities for love, cooperation, and generosity. With intelligence, humor, and wonder, Ryan and Jethå show how our promiscuous past haunts our struggles over monogamy, sexual orientation, and family dynamics. They explore why long-term fidelity can be so difficult for so many; why sexual passion tends to fade even as love deepens; why many middle-aged men risk everything for transient affairs with younger women; why homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. In the tradition of the best historical and scientific writing, Sex at Dawn unapologetically upends unwarranted assumptions and unfounded conclusions while offering a revolutionary understanding of why we live and love as we do.**

*What Would You Give for a Second Chance to Make Things Right?* When life gets complicated, Grace Graham runs. She's left romantic relationships, friendships, and even her family after the death of her mother. But now her sister, Jana, is giving her once last chance: Come home and help care for their father--whom Grace still blames for her mother's death--or never show her face in Shoal Creek, Tennessee, again. With her son, Dylan, in tow, Grace returns home from California. But is she returning for the right reasons? And when costly decisions from the past suddenly put her son's life and the lives of other children in town at risk, will she have the strength to stand strong and await Another Dawn?

Now that Project Looking Glass has been fully activated, and is once again under her expert control, Mace won't let anything stop her. The general knows that her boy, Masters, is on the verge of figuring it all out. For both of them, it will take one final trip to the bottom of the planet where a terrifying truth awaits.

#1 NEW YORK TIMES BESTSELLER • From the author of *Small Great Things* and *A Spark of Light* comes a “powerful” (The Washington Post) novel about the choices that alter the course of our lives. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY MARIE CLAIRE

Everything changes in a single moment for Dawn Edelstein. She’s on a plane when the flight attendant makes an announcement: Prepare for a crash landing. She braces herself as thoughts flash through her mind. The shocking thing is, the thoughts are not of her husband but of a man she last saw fifteen years ago: Wyatt Armstrong. Dawn, miraculously, survives the crash, but so do all the doubts that have suddenly been raised. She has led a good life. Back in Boston, there is her husband, Brian, their beloved daughter, and her work as a death doula, in which she helps ease the transition between life and death for her clients. But somewhere in Egypt is Wyatt Armstrong, who works as an archaeologist unearthing ancient burial sites, a career Dawn once studied for but was forced to abandon when life suddenly intervened. And now, when it seems that fate is offering her second chances, she is not as sure of the choice she once made. After the crash landing, the airline ensures that the survivors are seen by a doctor, then offers transportation to wherever they want to go. The obvious destination is to fly home, but she could take another path: return to the archaeological site she left years before, reconnect with Wyatt and their unresolved history, and maybe even complete her research on *The Book of Two Ways*—the first known map of the afterlife. As the story unfolds, Dawn’s two

possible futures unspool side by side, as do the secrets and doubts long buried with them. Dawn must confront the questions she's never truly asked: What does a life well lived look like? When we leave this earth, what do we leave behind? Do we make choices . . . or do our choices make us? And who would you be if you hadn't turned out to be the person you are right now?

Was she an angel of mercy or the devil in disguise? Gabriel Fairchild's valor during the Battle of Trafalgar earns him the title of hero, but costs him his hope for the future. Abandoned by the fiancée he adored, the man who once walked like a prince among London's elite secludes himself in his family's mansion, cursing his way through dark days and darker nights. Prim nurse Samantha Wickersham arrives at Fairchild Park to find her new charge behaving more like a beast than a man. After their first fiery confrontation, she engages the arrogant earl in a hilarious battle of both wit and wills. Although he pronounces her a "tart, vinegary creature without an ounce of womanly softness about her", he is secretly intrigued by her dry sense of humor, her lack of pity, and the bold way she brooks no nonsense from him. Whenever she is near, he feels the stirrings of a desire he never thought he would feel again. As Samantha begins to let the light back into Gabriel's life and his heart, they both discover that some pleasures are best explored in the dark. Though there have been myriad books on Errol Flynn - scores of biographies, film studies, analyses, etc. - there has never been one that unfurls his dashing life day-by-day, predominantly through photos, letters, news clippings, and documents. This book does so: from Flynn’s birth in Hobart, Australia in 1909 through to his death in Vancouver, Canada in 1959, with over 1,000 images (many rarely or never before published) culled from Florczak's personal collection of over 11,000. The book is the result of the author’s travels around the world to photograph locations key to Flynn’s life, and with text gathered from years of research in the Warner Bros. Archives, the USC Cinematic Arts Library, and the Margaret Herrick Library. Among other popular day-by-day pictorial biographies are those of Frank Sinatra, Marilyn Monroe, Judy Garland, Ernest Hemingway, Elvis Presley, The Beatles, and Eric Clapton. Flynn’s colorful life was lived out on the world stage and a better candidate for a book of this style would be hard to find.

**INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social**

**and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations**

“An interactive and empowering book” to help African American men and women create a new vision of better health and navigate the health care system (BET.com). According to

the federal Office of Minority Health, African Americans “are affected by serious diseases and health conditions at far greater rates than other Americans.” In fact, African Americans suffer an estimated 85,000 excess deaths every year from diseases we know how to prevent: heart disease, stroke, cancer, high blood pressure, and diabetes. In this important and accessible book, Dr. Michelle Gourdine provides African Americans with the knowledge and guidance they need to take charge of their wellbeing. *Reclaiming Our Health* begins with an overview of the primary health concerns facing African Americans and explains who is at greatest risk of illness. Expanding on her career and life experiences as an African American physician, Dr. Gourdine presents key insights into the ways African American culture shapes health choices—how beliefs, traditions, and values can influence eating choices, exercise habits, and even the decision to seek medical attention. She translates extensive research into practical information and presents readers with concrete steps for achieving a healthier lifestyle, as

well as strategies for navigating the health-care system. This interactive guide with illustrations is a vital resource for every African American on how to live a healthier and more empowered life, and an indispensable handbook for health-care providers, policy makers, and others working to close the health gap among people of color. Says Gourdine, "I wrote this book to empower our community to solve our own health problems and save our own lives."

No woman on the trek to Texas was more mysterious than Lydia Langston. No man was more stubborn than Ross Coleman . . . and both were running from the past. Lydia had vowed no man would ever take away her pride, while Ross Coleman stayed true to his wife, who had died in childbirth, the woman who had given him his son. Yet Lydia and Ross would find themselves together, fighting the same enemy and the same dangerous emotions building inside them . . . unable to stop the events that would eventually pit a man's deadly vengeance against the strength of a woman's love.

*Written from behind bars, DAWN is the unforgettable story collection from one of Turkey's leading politicians, and most powerful oppositional voices. From the dynamic political force 'who has evoked comparisons to President Obama' (New York Times), Selahattin Demirtaş' stories capture the voices of ordinary people living in extraordinary times – from cleaning ladies and teenage laborers, bus drivers and factory workers, from a violent demonstration in Ankara to a five-year-old girl's attempt to escape war-torn Syria by boat. With Demirtaş' trademark wit, warmth and humor, and seasoned by the vernacular of everyday speech, DAWN paints a remarkable portrait of life behind the headlines in Turkey and the Middle East – in all its hardship and adversity, freedom and hope. Grace Graham is back in Tennessee with her four-year-old son on a short unpaid leave from work, helping her father recover from surgery and spending time with her sister. Shoal Creek seems more backward than ever after her years in California, and it's hard to find organic food anywhere. When the unthinkable happens and her son is diagnosed with measles, Grace's fears over modern medicine take a dangerous turn. Worse, the town has fallen into quarantine and its residents focus their anger and blame on Grace. She is alone and scared, until one brave woman chooses to reach out a hand of forgiveness and mercy. But when the outbreak takes a life-threatening turn, will*

*From George Lucas, creator of Star Wars(r) and Indiana Jones, and Chris Claremont, author of the bestselling X-Men adventures, comes the thrilling sequel to Shadow Moon, taking readers deeper into a stunningly original world of magic, myth, and legend. The momentous Ascension of Princess Elora Danan should have brought peace to the Thirteen Realms. Instead, an intense Shadow War rages, spearheaded by the evil Mohdri. He has dispatched his dread Black Rose commando assassins to capture Elora and her sworn protector, Thorn Drumheller. But Mohdri himself is just a facade for a more dangerous entity: the Deceiver. But who--or what--is the Deceiver? And how can Elora, Thorn, and their ragtag band defeat this unspeakable force? The answer lies in a perilous journey to a land undisturbed since the dawn of time. A journey that will end at the unbreachable citadel of the dragon, where a chilling betrayal will change the fate of Elora, Thorn, and the Thirteen Realms forever.*

Vilified and marginalized, the Romani people—widely referred to as Gypsies, Roma, and Travellers—are seen as a people without place, either geographically or socially, no matter where they live or what they do. In this new chronological history of the Romani, Another

Darkness, Another Dawn demonstrates how their experiences provide a way to understand mainstream society's relationship with outsiders and immigrants. Becky Taylor follows the Gypsies, Roma, and Travelers from their roots in the Indian subcontinent to their travels across the Byzantine and Ottoman Empires to Western Europe and the Americas, exploring their persecution and enslavement at the hands of others. Rather than seeing these peoples as separate from society and untouched by history, she sets their experiences in the context of broader historical changes. Their history, she reveals, is ultimately linked to the founding of empires; the Reformation and Counter-Reformation; numerous wars; the expansion of law, order, and nation-states; the Enlightenment; nationalism; modernity; and the Holocaust. Taylor also shows how the lives of the Romani today reflect the increasing regulation of modern society. Ultimately, she demonstrates that history is not always about progress: the place of Gypsies remains as contested and uncertain today as it was upon their first arrival in Western Europe in the fifteenth century. As much a history of Europe as of the Romani, Another Darkness, Another Dawn paints a revealing portrait of a people who still struggle to be understood.
