Activities to Develop Writer's Craft in All Students in Grades 4-12  
It's been a decade since Lynne Dorfman and Rose Cappelli wrote the first edition of Mentor Texts and helped teachers across the country make the most of high-quality children's literature in their writing instruction. In the second edition of this important book Lynne and Rose show teachers how to help students become confident, accomplished writers by using literature as their foundation. The second edition includes brand-new "Four Turn Lessons," built around the gradual release of responsibility model, offering suggestions for demonstrations and shared or guided writing. Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. Lynne and Rose offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the end of each chapter a "Think About It—Talk About It—Write About It" section invites reflection and conversation with colleagues. The book is organized around the characteristics of good writing—focus, content, organization, style, and conventions. Rose and Lynne write in a friendly and conversational style, employing numerous anecdotes to help teachers visualize the process, and offer strategies that can be immediately implemented in the classroom. This practical resource demonstrates the power of learning to read like writers.

The purpose of Grammar for Teachers is to encourage readers to develop a solid understanding of the use and function of grammatical structures in American English. It approaches grammar from a descriptive rather than a prescriptive approach; however, throughout the book differences between formal and informal language, and spoken and written English are discussed. The book avoids jargon or excessive use of technical terminology. It makes the study of grammar interesting and relevant by presenting grammar in context and by using authentic material from a wide variety of sources.

Written as a springboard to teaching grammar, this book is designed to help teachers of grades 4–8 teach students to use the sixteen essential grammatical elements (seven parts of speech, six phrases, and three clauses) in their writing. Exercises, strategies, and examples provide a guide for the teacher about how students can learn, expand, and transfer the grammar skills acquired to their own writing. The book is organized so that teachers can either pick and choose lessons that are tailored to meet their students' specific needs, or they can teach the material in a clear and effective scope and sequence from beginning to end. Teachers rave about Keith Pollette's New Way to Teach Writing! "I like the writing exercises that are incorporated right from the start and the interesting approach to getting students to develop their understanding in their own words. I also would recommend the book to other teachers because it has universal appeal for any teacher trying to improve their own understanding of grammar and writing or who is looking for another good resource for their students. —Lona Garrison, Gwinnet County Public Schools, GA "I think this book is done very well. Teachers could use this book as a reference tool in the classroom." —Deedra Murray, Edyth J. Hayes Middle School, KY Take a look inside: Focuses on one grammatical element at a time to assist teachers in building on students' prior

knowledge. Addresses such topics as sentence building, combining, and imitation, writer's voice, word play, poetry, editing, and guided or process writing.
