Accounting has become known as the language of business. This new edition is written to meet the needs of those students who will not be accountants but who do need to understand accounting to learn the key language that embarks us in the business world. Marshall, the leading text in the Survey market, takes readers through the basics: what accounting information is, what it means, and how it is used. The authors help students succeed through clear and concise writing, a conceptual focus and unparalleled technology support. In using this text, students examine financial statements and discover what they do and do not communicate. This enables them to gain the crucial decision-making and problem-solving skills they need in order to succeed in a professional environment.

To understand a business, you have to understand the financial insides of a business organization. Through a focus on accounting transactions, real-world problem-solving, and engaging industry examples, Weygandt Financial Accounting, 11th edition demonstrates how accounting is an exciting field of study and helps connect core financial accounting concepts to students' everyday lives and future careers. Continuing to help students succeed in their introductory financial accounting course for over two decades, this edition brings together the trusted Weygandt, Kimmel, and Kieso reputation with fresh, timely, and accurate updates to help build confidence and engage today's students.

*As in previous editions, the focus in BASIC COLLEGE MATHEMATICS remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems. Student engagement is crucial to success. Presenting students with worked examples, and then providing them with the opportunity to immediately solve similar problems, helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. This clear, objective-based approach allows students to organize their thoughts around the content, and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Tenth Edition also features a new design, enhancing the Aufmann Interactive Method and making the pages easier for both students and instructors to follow.
