Glencoe World History, a comprehensive course that covers prehistory to the present day, helps link the events of the past with the issues that confront students today. It motivates and engages students in meaningful learning as they develop an understanding of the world's cultures and an appreciation for the interdependence of world regions.

UNLIKE TRADITIONAL TEXTBOOKS that can overwhelm the reader with countless facts to absorb, the Student's Friend Concise World History highlights the most important developments of world history in a clear and concise manner that is capable of being comprehended by the human mind. Teachers have successfully used The Student's Friend in homeschool, middle school, high school, and college in the United States and abroad. Part 1 covers the period from prehistory to the year 1500; Part 2, the period from 1500 to the present. In contrast to other concise histories that may focus on impersonal historical processes, the Student's Friend

includes men and women who helped to shape history and who illustrate timeless aspects of human nature. WHY A CONCISE HISTORICAL NARRATIVE? The Student's Friend is designed to be consistent with findings from cognitive science that emphasize learning the most important principles and concepts of a school discipline, rather than learning large quantities of superficial facts that are likely to be forgotten shortly after the exam is over. The respected Bradley Commission on History in Schools has said, "The amount of time required to achieve student engagement and genuine comprehension of significant issues will necessitate leaving out much that is 'covered' by the usual text." CONCISENESS CAN BRING CLARITY. Cognitive psychologist Frank N. Dempster has written, "Many texts are so packed with facts, names, and details that the real point of the lesson is often obscured." One of the greatest benefits of a concise historical narrative is the clarity it can bring to a student's understanding of history by focusing on essential knowledge rather than on extensive, sometimes

confusing, and often-trivial detail. ELIMINATES GAPS AND DISCONTINUITIES. Teachers can't adequately cover all the information contained in standard thousand-page textbooks, so they commonly skip around in the textbook, which can leave big holes in the historical narrative. The Student's Friend is designed to include no more information than students can realistically cover during a standard high school course. Because the picking and choosing has been carefully done and logically sequenced, continuity is maintained and gaps eliminated. BALANCES BREADTH AND DEPTH. The concise historical narrative leaves time in the curriculum for additional learning activities such as research papers, multimedia presentations, source-analysis activities, and simulations, a practice sometimes called "postholing." The narrative performs a unifying function like a fence that gives shape to the landscape and provides the connecting fabric between events, while postholes are occasions to dig more deeply into the human dimensions of history—to explore how events of the past affected people's

lives then and now. The subject matter of world history is so vast that it can be a difficult subject to grasp and to teach. Teachers and students alike can benefit from the understandable picture of history provided by the Student's Friend Concise World History.

Traditions & Encounters offers an inclusive vision of the global past—one that is meaningful and appropriate for the interdependent world of contemporary times. Given the diversity of human societies, gathering and organizing the sheer mass of information in a meaningful way is a daunting challenge for any world history survey course. The seven-part chronological organization enables students to understand the development of the world through time, while also exploring broader, big-picture thematic issues in world history. Through new and revised chapter-level and part-level features, the hallmark twin themes of traditions and encounters emerge in greater clarity than ever before in this sixth edition. As a result, students have resources that enable them to move beyond the facts of history and

examine the past critically, analyze causes and effects, and recognize similarities and differences across world regions and time periods. By digging deeper into the implications of world history's stories—not just the who, the what, and the where, but also the why and the how—students can make sense of the human past. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

Inquiry-Based Lessons in World History (Vol. 1)

The Student's Friend Concise World History

Traditions & Encounters: A Global Perspective on the Past

Spanning the time period from 1045 BCE to 1500 CE, Inquiry-Based Lessons in World History (Vol. 1) focuses on creating global connections between people and places using primary sources in standards-based lessons. With sections on early humans, the ancient world, classical antiquity, and the world in transition, this book provides teachers with inquiry-based, ready-to-use lessons that can be adapted to any classroom and that encourage students to take part in the learning process by reading and thinking like historians. Each section contains four chapters that correspond to the scope and sequence of most world history textbooks. Each inquiry lesson begins with an essential question and connections to content and literacy standards, followed by primary source excerpts or links to those sources. Lessons include step-by-step directions, incorporate a variety of literacy strategies, and require students to make a hypothesis using evidence from the texts they have read. "Offers writing strategies and student activities for: American history, Geography, World history, Civics."--Cover. This book brings together contributions from around the world

that analyse and reflect on the way curriculum is configuring and reconfiguring that world.
