For courses in Criminology. Criminology Today: An Integrative Introduction 6e is a clear, contemporary and comprehensive introduction to the study of criminology. Offering a thematic approach that contrasts the social responsibility and social problems approaches to crime theory, the book encourages students to think critically about the causes of crime. Completely up-to-date, this edition includes new Professor Speaks excerpts, links to cutting-edge articles, and MyCrimeKit www.mycrimekit.com activities that encourage students explore how security and freedom interface in an age of increasing globalism.

A proven grammar-based approach that gets you communicating in Spanish with confidence, right away Easy Spanish Step by Step proves that a solid grounding in grammar basics is the key to mastering a second language. Grammatical rules and concepts are clearly explained in order of importance, and more than 300 verbs and key terms are introduced on the basis of frequency. Numerous exercises and engaging readings help learners quickly build their Spanish speaking and comprehension prowess.

Many of the classic questions of philosophy have been raised, illuminated, and addressed in celluloid. In this Third Edition of Philosophy through Film, Mary M. Litch teams up with a new co-author, Amy Karofsky, to show readers how to watch films with a sharp eye for their philosophical content. Together, the authors help students become familiar with key topics in all of the major areas in Western philosophy and master the techniques of philosophical argumentation. The perfect size and scope for a first course in philosophy, the book assumes no prior knowledge of philosophy. It is an excellent teaching resource and learning tool, introducing students to key topics and figures in philosophy through thematic chapters, each of which is linked to one or more "focus films" that illustrate a philosophical problem or topic. Revised and expanded, the Third Edition features: A completely revised chapter on "Relativism," now re-titled "Truth" with coverage of the correspondence theory, the pragmatist theory, and the coherence theory. The addition of four new focus films: Inception, Moon, Gone Baby Gone, God on Trial. Revisions to the General Introduction that include a discussion of critical reasoning. Revisions to the primary readings to better meet the needs of instructors and students, including the addition of three new primary readings: excerpts from Bertrand Russell's The Problems of Philosophy, from William James' Pragmatism: A New Way for Some Old Ways of Thinking, and from J. L. Mackie's "Evil and Omnipotence". Updates and expansion to the companion website, including a much expanded list of films relevant to the various subfields of philosophy. Films examined in depth include: Hilary and Jackie The Matrix Inception Memento Moon I, Robot Minority Report Crimes and Misdemeanors Gone Baby Gone Antz Equilibrium The Seventh Seal God on Trial Leaving Las Vegas

Hola, amigos!

Twelve Years a Slave

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Print Student Edition

ENGINEERING MECHANICS: STATICS, 4E, written by authors Andrew Pytel and Jaan Kiusalaas, provides readers with a solid understanding of statics without the overload of extraneous detail. The authors use their extensive teaching experience and first-hand knowledge to deliver a presentation that's ideally suited to the skills of today's learners. This edition clearly introduces critical concepts using features that connect real problems and examples with the fundamentals of engineering mechanics. Readers learn how to effectively analyze problems before substituting numbers into formulas -- a skill that will benefit them tremendously as they encounter real problems that do not always fit into standard formulas. Learn to speak in public without breaking a sweat! The Public Speaking Playbook, Third Edition coaches students to prepare, practice, and present speeches at their highest level. With a focus on actively building skills, authors Teri Kwai Gamble and Michael W. Gamble guide students in the fundamentals of the public speaking process, and uses frequent interactive exercises that allow students to practice—and improve—their public speaking. Students want to put their skills into practice quickly, so the Playbook gives them the essentials in brief learning modules that focus on skill-building through independent and collaborative learning activities. As students master their skills, they are also encouraged to think critically about what it means to “play fair” in your public speaking—with a focus on diversity, ethics, and civic engagement.

Panorama, 4th Edition is an introductory Spanish program offering 15 contemporary, thematic lessons to introduce students to an extensive view of the Spanish-speaking world. Its fresh, student-friendly approach, effective integration of video, and powerful online tools lead students to effective personalized communication.

Sag mal is the introductory German program you've been waiting for! This program's emphasis on contemporary culture, a thorough coverage of reading, speaking, and listening skills, and its integration of authentic video will guide your students from novice to conversant.

More Food: Road to Survival is a comprehensive analysis of agricultural improvements which can be achieved through methods. This reference book gives information about strategies for increasing plant productivity, comparisons of agricultural models, the role of epigenetic events on crop production, yield enhancing physiological events (photosynthesis, germination, emergence, seed properties, etc.), tools enabling efficient exploration of genetic variability, domestication of new species, detection or induction of drought resistance and apomixis and plant breeding enhancement (through molecularly assisted

genetic engineering, genome editing and next generation sequencing). The book concludes with a case study for the small grain cereals. Readers will gain an understanding of the biotechnological tools and concepts central to sustainable agriculture. More Food: Road to Survival is, therefore, an ideal reference for agriculture students and researchers as well as professionals involved in sustainability studies.

Transports students beyond the classroom on an exciting journey through the diverse Spanish-speaking world. The program's culture, instruction and interaction enables and motivates students to succeed. Units are built around countries and regions. Instruction is based on multi-tiered differentiation in presentation, practice, and assessments.

Teach Them Spanish! is for the teacher who has a little knowledge of Spanish and a lot of enthusiasm! This book guides you through practical lessons in beginning Spanish so that students with little or no previous Spanish will experience the thrill of learning a second language. Lessons, appropriate for kindergarten, are organized by topics familiar to the student, such as colors, food, family, and animals. Each lesson includes a simple-to-follow teacher lesson plan, a practice page, and activity pages. Also included are games, puzzles, songs, chants, and writing activities. Try this fun and practical program for teaching and learning Spanish.
