Antonio Lauro is one of the most famous composers to come from Venezuela. He has written many works for orchestra, piano, choir, harpsichord, and guitar. He is most well-known for his guitar works, this being his main instrument. In the early 1980s he gave concerts in London and Paris at the request of John Williams and Paco Pena. The pieces represented in these guitar works are for players at a beginner-intermediate level, and in standard notation only. Continuing the 19th Century tradition of other composers of Venezuelan waltzes, Lauro named many of his pieces after people or places. "El Marabino" is the name given to someone who comes from the city of Maracaibo. "Angostura" is the original Spanish name of the city where Lauro was born. "Carora" is the colonial city near Lauro's birthplace. The Venezuelan waltz differs from the European waltz in its rhythm which may alternate between 3/4 and 6/8 time and in its more syncopated style. The melodies are highly sentimental and romantic.

"Guitar-Intro" is a Three-Book series developed after 20 years of guitar teaching in many different situations by the Montes-Kircher guitar Duo. All books have MP3 CDs, "Guitar-Intro 3" - THE REPERTOIRE BOOK is the last in the 3 book teaching series "Guitar-intro." Presented here are 119 works from well known present day guitarist composers. This book continues the guitar playing composing teaching tradition. Now you can learn to play the guitar with Andrew York, Antonio Lauro, Aquiles B?ez, Alfonso Montes, Irina Kircher, Fernando Sor, Francisco T?rrega .... to name but a few. Apart from its place in the "Guitar-Intro" series it makes an ideal stand alone repertoire book for years of enjoyment. Ideal for home or class."

Process and Essence

*The term nationalism in music usually refers to a movement from the nineteenth and early twentieth centuries, and is most often employed to describe the various European national schools that included folk elements in their music and consciously tried to separate themselves from the standards set in the Classical period by the French, Italian and especially the German traditionalists. In Latin America there was also a development of nationalism in music in the twentieth century. Countries from this continent, once politically independent, became interested in solidifying and glorifying their national identities. This essay*

*will discuss the history and tradition of Venezuelan folk and academic music through the guitar compositions of Antonio Lauro, who was best known for his nationalistic trend to rescue and to celebrate the Venezuelan nation's musical traditions. I have also chosen eight waltzes and the Suite Venezolana for guitar by the same composer, which are both representative works of Venezuelan academic and folklore music, and I have created a piano transcription. Aiming a new inclusion and expansion of the stagnant Venezuelan piano repertoire, with my hope they become useful compositions for the pianists' personal study and aid.*

*A great virtuoso showpiece.*

Also known as Valse Criollo, this is one of the most popular pieces written by the great South American guitarist/composer Antonio Lauro.

This book assesses the influence and reception of many different forms of guitar playing upon the classical guitar and more specifically through the prism of John Williams. Beginning with an examination of his influence upon Williams' life's work, a further three incisive chapters cover key areas such as performance, perception, education and construction, considering social and cultural contexts of guitar playing. A final chapter on new directions in classical guitar examines the change in reception of the instrument from the mid-1970s to the present day, and Williams' impact upon what might be termed the 'new repertoire'. With in-depth discussion of the cultural and perceptual impact of Williams' more daring crossover projects and numerous musical examples, this is an informative reference for all classical guitarists as well as scholars and researchers of guitar studies, reception studies, cultural musicology and performance studies. An online lecture by the author and a transcript of the author's interview with John Williams are included as e-resources.

Antonio Lauro is one of the most famous composers to come from Venezuela. He has written many works for orchestra, piano, choir, harpsichord, and guitar. He is most well-known for his guitar works, this being his main instrument. The pieces represented in these guitar works are for players at a beginner-intermediate level, and in standard notation only. "El Totumo" is a golpe, a distinctive variant of the Venezuelan Jaropo. "Flores de la Montana" is a Venezuelan waltz, and "Cueca Chilena" is a popular Chilean dance which is performed by two dancers who symbolically imitate a cock and a chicken. In this update of the Acoustic Guitar Answer Book, Sharon Isbin, the classical guitar virtuoso who heads the Juilliard School Guitar Department, answers 50 essential questions about performing, practicing, and choosing and caring for your guitar. The questions were asked by Acoustic Guitar magazine readers and answered by Isbin in four years of Master Class columns in the magazine. This book collects all this vital information together in an easy reference format - an absolute must for every classical guitar player. Includes new appendices of resources for classical guitarists and students. 88 pages, 9 inch. x 12 inch.

In compiling this landmark sourcebook, Finnish guitarists Hannu Annala and Heiki Matlik consulted more than 70 music texts as well as dozens of composer resumes acquired from the musical information centers of several countries. During the writing process, which lasted for more than three years, they received additional information from many modern composers, including Leo Brouwer and Reginald Smith Brindle among others. In addition, several internationally renowned performing guitarists provided valuable information; these include Magnus Andersson (Sweden), Remi Boucher (Canada), Margarita Escarpa (Spain), Aleksander Frauchi (Russia) and David Tanenbaum (USA) among others. The authors' aim was to write a well-structured book with separate chapters for each instrument, such as the Renaissance and Baroque guitar, the Renaissance and Baroque lute, the vihuela, etc. This unique structure enables the reader to easily discover which composers wrote for a certain instrument during any given period. In addition to the composers one would expect to find in such a comprehensive listing, the book documents several historical and modern composers for whom little previous information has been available. The book's list of more than 400 guitar and lute concertos dating from the Baroque era to the present day is a totally unprecedented. Short introductions regarding guitar and lute-like instruments as well as their basic histories are provided at the beginning of the book. The authors hope that the Handbook of Guitar and Lute Composers will serve as a practical guide for both amateurs and professionals, encouraging further study of the history of these instruments and expanding the repertoire heard on today's concert stage.

Recording the Classical Guitar charts the evolution of classical guitar recording practice from the early twentieth century to the present day, encompassing the careers of many of the instrument's most influential practitioners from acoustic era to the advent of the CD. A key focus is on the ways in which guitarists' recorded repertoire programmes have shaped the identity of the instrument, particularly where national allegiances and musical aesthetics are concerned. The book also considers the ways in which changing approaches to recording practice have conditioned guitarists' conceptions of the instrument's ideal representation in recorded form and situates these in relation to the development of classical music recording aesthetics more generally. An important addition to the growing body of literature in the field of phonomusicology, the book will be of interest to guitarists and producers as well as students of record production and historians of classical music recording.

A Concise History of the Classic Guitar by Graham Wade, one of the foremost international writers on the guitar, explores the history of the instrument from the 16th century to the present day. The work also charts the contribution of leading composers, performers and luthiers of the 20th century, and evaluates the influence of Segovia, Llobet, Pujol, Presti, Bream, Williams, etc., among the world's famous guitarists. This book, intended for the general public and guitar students of all ages, is the first interpretative history of the classic guitar to be published in the 21st century, and will be eagerly welcomed by all lovers of the instrument.

Mastering Guitar Technique: Process and Essence

A Practical Guide

*From the first mention in courtly poetry of the thirteenth century to enormous global popularity in the twentieth, the guitar and its development comprises multiple histories, each characterised by distinct styles, playing techniques, repertoires and socio-cultural roles. These histories simultaneously span popular and classical styles, contemporary and historical practices, written and unwritten traditions and western and non-western cultures. This is the first book to encompass the breadth and depth of guitar performance, featuring thirteen essays covering different traditions, styles, and instruments, written by some of the most influential players, teachers, and guitar historians in the world. The coverage of the book allows the player to understand both the analogies and differences between guitar traditions, and all styles, from baroque, classical, country, blues, and rock to flamenco, African, Celtic, and instrument making will share the same platform. As musical training is increasingly broadened this comprehensive book will become an indispensable resource.*

*Born in 1942 of mixed racial heritage, Gentil Montaa has deep roots in the musical culture of Colombia, spending much of his early adult life playing popular music in various groups. Due to the lack of guitar method books and sheet music in Colombia at the time, he was not exposed to the music of Sor, Aguado, Giuliani or Bach until he was in his early twenties, often through recordings which he then transcribed himself. All the while, Montaa was active as a composer and during the Alirio Diaz International Competition in Caracas in 1975, none other than Antonio Lauro called him aside and said, Montana, you must concentrate on your composition; it is a gift from God. Fortunately for the guitar world, he did just that.*
