As such, Apple has designed its new lineup to reach a wide array of customers with different needs and budgets. The four new iPhone 12 models are also the first Apple phones to include 5G connectivity, a potential consideration when shopping for a new phone. Beyond adding 5G, Apple has equipped the iPhone 12 family with its powerful new A14 Bionic processor, a Super Retina XDR display, a more durable Ceramic Shield front cover, and a MagSafe feature for more reliable wireless charging, and support for attachable accessories. iPhone 12 Series User guide is the only manual you need to learn about your new iPhone and ways you can get the best out of it.
