

Aqa Further Maths Past Papers

This Student Workbook provides supplementary support and practice for the statistics topics in Edexcel's new linear specification. Designed to work alongside the Oxford AS and A Level Student Books, this Workbook offers both focussed revision sections and exam-style practice. The revision sections provide quick recaps and highlight common exam errors. The exam-style practice questions offer full coverage of the new Assessment Objectives, including the new emphasis on problem-solving and modelling. With guidance on

Edexcel's 'Large dataset' (a new component of the exams from 2018) and with answers being written directly onto the page, this Workbook provides realistic practice for the actual exam. Short answers are in the back of the book with full step-by-step solutions provided online. The new A Level specification (2017) contains 100% prescribed content, meaning statistics has become mandatory for the first time since 2000. This Workbook is the perfect course companion, for both the confident and less confident statisticians.

Please note this title is suitable for any student studying: Exam Board: AQA Level: GCSE Subject:

be assessed on in the exams. Using a thematic approach that focuses on the AOs, with SPAG delivered in context, this book supports students of all abilities. Peer and self-assessment activities, end-of-chapter assessments and sample exam papers allow progress to be monitored.

Motivates and challenges more able students by providing more complex introductions, worked examples and exercises for all topics. This specification is ideal for students to prepare for A level mathematics. A range of algebraic and geometric topics are covered and it provides an introduction to Matrices and Calculus. Written by experienced teachers, this book: -

Mathematics. Together with Book 1 it covers all the Pure Mathematics necessary for the full A level. It can be used in the classroom, and also contains sufficient explanations and worked examples for students working on their own. The exercises are plentiful, and graded in difficulty, to allow students to build confidence where necessary, and to extend themselves where possible. The work is collected into sections on Algebra, Coordinate Geometry, Binomial Expansion, Calculus, Trigonometry, Exponentials and Logarithms, Vectors and Proof, in line with the 2017 syllabus, and is suitable for use by students studying under any of the main examination boards."--Page v.

written for the new two-tier Edexcel linear GCSE specification for first examination in 2008 by the highly successful Framework Maths author team. The book is targeted at the B to A* grade range in the Higher tier GCSE, and it comprises units organised clearly into inspiring full-colour spreads. Each unit offers:

- * Prior learning assessed at the start so students are fully prepared for the topic
- * Learning objectives identified so it is clear what students need to know
- * Clear explanations with examples showing the key techniques
- * Plenty of practice with clearly differentiated
