

Aqa Geography Past Papers

Based on principles of cognitive science, this three-step approach to effective revision combines knowledge, retrieval and interleaving, and extensive exam-style practice to help students master knowledge and skills for GCSE success. UK schools save 50% off the RRP! Discount will be automatically applied when you order on your school account.

DT These highly successful revision guides have been brought right up-to-date for the new A Level specifications introduced in September 2000. DT Oxford Revision Guides are highly effective for both individual revision and classroom summary work. The unique visual format makes the key concepts and processes, and the links between them, easier to memorize. DT Students will save valuable revision time by using these notes instead of condensing their own. DT In fact, many students are choosing to buy their own copies so that they can colour code or highlight them as they might do with their own revision notes.

GCSE 9-1 Geography AQA Exam Practice

'An excellent companion to Learning to Teach in Secondary School ... full of good ideas and better advice ... Mentors will certainly want to use it, and so, I'm sure, will the rest of the history department ... Make sure they buy one, and keep your copy under lock and key.' – Michael Duffy, Times Educational Supplement 'A very well written and readable book. Overall, this is an excellent book and one which students and teachers outwith England would find a valuable addition to their library.' – Scottish Association of Teachers of History, Resources Review 'This book is without question the standard text for the history PGCE market.' – Dr Ian Davies, University of York, on the first edition. Learning to Teach History in the Secondary School provides an accessible introduction to teaching and learning history at secondary level. Underpinned by a theoretical perspective and backed up by the latest research, it encourages student teachers to develop a personal approach to teaching history. This fourth edition has been thoroughly updated for the new curriculum, with a brand new chapter on subject knowledge and a new section on action research to better support those reflecting on and developing their own practice. It provides an array of references and materials that give a sound theoretical foundation for the teaching of history, including weblinks to further resources, while a range of tasks will enable students to put their learning into practice in the classroom. Practical advice is combined with reference and access to a wide range of recent and relevant research in the field of history education, to support Masters Level research and aid reflective practice. Key issues covered include: The benefits of learning history Planning The use of language and strategies for teaching Inclusion Technology in history teaching Assessment Continuing professional development Offering comprehensive and accessible support to becoming a history teacher, this book remains an invaluable resource for all training and newly qualified history teachers.

A key resource for the IGCSE Geography specification, written by leading and experienced Geography teachers and authors. This book has been carefully prepared to cover the full curriculum for the University of Cambridge International Examinations IGCSE course in Geography. It is accompanied by a CD-ROM offering invaluable study and revision support.

Motivate pupils to develop their geographical skills, knowledge and understanding as they become engaged and accomplished geographers, ready for the demands of GCSE. Specifically designed to provide a solid foundation for the 2016 GCSE specifications, this Student Book takes an enquiry-based approach to learning within each unit and lesson. - Easily and cost-effectively implement a new KS3 scheme of work: this coherent single-book course covers the latest National Curriculum content, providing 150 ready-made lessons that can be used flexibly for a two or three-year KS3 - Build and improve the geographical knowledge and skills that pupils need: every double-page spread represents a lesson, with rich geographical data and place contexts for pupils to interpret, analyse and evaluate - Lay firm foundations for GCSE: key vocabulary, command words and concepts are introduced gradually, preparing pupils for the content and question types they will encounter at GCSE, with a particular focus on analysis and evaluation questions - Effectively assess, measure and demonstrate progress: formative assessments throughout each lesson and summative end-of-unit reviews include questions that show whether pupils are 'working towards', 'meeting' or 'exceeding' expectations - Encourage pupils to check and drive their own progress: learning

objectives and end-of-unit learning outcomes help pupils reflect on their learning and make connections between key concepts and skills throughout the course

Debates in Geography Education encourages student and practising teachers to engage with and reflect on key issues, concepts and debates in their specialist subject teaching. It aims to enable geography teachers to reach their own informed judgements and argue their point of view with deeper theoretical knowledge and understanding. Expert editors and contributors provide a balance of experience and perspectives and offer international, historical and policy contexts, evidence informed classroom debates and a glimpse of the subject's expanding horizons. Debates considered include: what constitutes knowledge in geography? constructing the curriculum; how do we link assessment to making progress in geography? the contribution of fieldwork and outdoor experiences; technology and media; how we use Geographical Information; how geography contributes to 'global learning'; sustainable development and geography education. The comprehensive, rigorous coverage of these key issues, together with carefully annotated selected further reading, reflective questions and a range of specific web-based resources, will help support shape your own research and writing. Debates in Geography Education is a source of knowledge, experience and debate that will be essential reading for all students studying at Masters level, practising teachers who want to develop a better understanding of the issues that shape their practice, and Education Studies students considering in-depth subject teaching.

Exam Literacy

Are you sitting the new 9 to 1 GCSE examinations and wish to achieve good grades? Are you overwhelmed by the new syllabus and the workload? Do you need some useful and reliable guidance from a student who has nailed the exams? This book has been written by a teenager, like you. Having achieved seven 9s, three A*s and one A in his GCSEs, the author has shared his revision style to help many other teenagers to realise their potential. In his book, Rohan has outlined his tried and tested methods to achieve the best grades. There is step

by step guide on planning, making a timetable, and revision techniques leading up to the GCSE exams. There are separate chapters for subject-specific advice as the same technique cannot work for subjects like English and Chemistry. There are tips on how to stay motivated and also relax and enjoy at the same time. Smart working rather than a lot of working helps. Read this book and arm yourself with studying techniques which will help you not only in your GCSEs but all future exams.

Help your students develop enquiring minds as they learn the geographical knowledge and skills they need through the enquiries of the new OCR B specification which include and up-to-date case studies, a wide range of activities and exam-style questions developed to support and stretch students of all abilities. - Supports students of all abilities through differentiated activities including scaffolded questions and extension questions. - Highlights opportunities for fieldwork throughout the book, and includes guidance on carrying out fieldwork. - Develops students' geographical skills including activities and clear explanations of how to use mathematical and statistical skills. - Helps students gain confidence for the exam with a variety of exam-style practice questions at different levels, with tips on how to approach them.

Our Revision Workbooks help you develop vital skills throughout their course in preparation for the exam New 2017 Cambridge A Level Maths and Further Maths resources to help students with learning and revision. Progress in Geography: Key Stage 3

Revise for GCSE Geography AQA C

In Exam Literacy: A guide to doing what works (and not what doesn't) to better prepare students for exams, Jake Hunton focuses on the latest cognitive research into revision techniques and delivers proven strategies which actually work. Foreword by Professor John Dunlosky. 'Read, highlight, reread, repeat if such a revision cycle sounds all too wearily familiar, you and your students need a better route to exam success. And in light of the recent decision to make all subjects at GCSE linear, so that students will be tested in one-off sittings, it will be even more important that students are well equipped to acquire and recall key content ahead of their exams. In this wide-ranging guide to effective exam preparation, Jake Hunton casts a careful eye over a wide

range of research into revision techniques and details the strategies which have been proven to deliver the best results. With plenty of practical suggestions and subject-specific examples, Exam Literacy provides teachers with user-friendly advice on how they can make the content they cover stick, and shares up-to-date, evidence-based information on: The nature of learning and the various types of memory. How to improve students' retention of knowledge and recall of content. Why popular revision techniques, such as rereading, highlighting and summarising, may not be as effective as you think. How revision strategies that have been identified as being more effective such as interleaving, elaborative interrogation, self-explanation and retrieval practice can be embedded into day-to-day teaching. How students can be encouraged to make use of these winning strategies when revising independently.

Exam board: AQA, Edexcel, OCR, WJEC, WJEC Eduqas Level: A-level Subject: Geography First teaching: September 2016 First exams: Summer 2018 Master the skills you need to set yourself apart and hit the highest grades. This year-round course companion develops the higher-order thinking skills that top-achieving students possess, providing step-by-step guidance, examples and tips for getting an A grade. Written by experienced author, teacher and lecturer Simon Oakes, Aiming for an A in A-level Geography: - Develops the 'A grade skills' of analysis, evaluation, creation and application, ensuring that you know how to apply these skills and approach each exam question as an A/A* candidate - Takes you step by step through the specific skills you need to master in A-level Geography, including geographical reading, data analysis and skills for the Independent Investigation (NEA) - Clearly shows how to move up the grades with sample responses that have been annotated to highlight the key features of A/A* answers - Puts the theory behind achieving an A grade into practice, providing in-class or homework activities and further reading tasks that stretch towards university-level study - Perfects exam technique through practical tips and examples of common pitfalls to avoid - Cultivates effective revision habits for success, with tips and strategies for producing and using revision resources - Supports the major exam boards, outlining the Assessment Objectives for reaching the higher levels under the AQA, Edexcel, OCR and WJEC/Eduqas specifications

GCSE 9-1 Geography AQA Exam Practice covers the skills and techniques required to be successful in the new rigorous GCSE AQA Geography (9-1) specification, plus exam question practice - written specially to target the demands of taking linear exams for the first time. Accessible, clear and thorough, this exam practice book engages all your students. Clearly-written using Oxford's popular On Your Marks approach, it focuses on planning, writing, and marking answers supported with sample answers at a range of levels, with marked and annotated versions pointing out good practice and useful tips. Motivating exam practice - including two complete sets of exam papers based on the AQA sample assessment materials reinforces this rigorous approach. In addition, guided answers and mark schemes will be provided online.

This text offers clear examples, key ideas and activities to ensure full access to the economics specification. It also includes exam hints contributed by an examiner from the relevant board.
