A journey to the most extreme points on Earth and deep inside the human spirit Before Georgetown physics professor Francis Slakey decided to climb the highest mountain on every continent and surf every ocean, he had shut himself off from other people. His relationships were mechanical; his relationships were little more than ways to fill the evenings. But as his journey veered dangerously off course, everything about him began to change. A gripping adventure of the body and mind, *To the Last Breath* depicts the quest that Francis Slakey takes around the globe, almost takes his life, challenges his fiercely held beliefs, and opens his heart. The scientist in Slakey is the history of Robert Falcon Scott's doomed Antarctica expedition, the technology of climbing, and the geophysics of waves. The challenges he endures and the people he encounters—a Lama who gives him a mysterious amulet, a life-or-death choice on Everest, an ambush at gunpoint in Indonesia, a head-on collision in the high desert—that culminate in a moving lesson about what it means to be human.
