growing. The thoughts here presented belong to whom? I wish I might tell you, but truly, I do not know. Aside from the many quotations I have given, thought after thought has appeared, fairly insisting that it be used. As each thought came, I wrote it down for the purpose of putting in concise form the information so many desired. If there be such things as original thoughts, some of these may be so named. But how can one be sure? With my mind equipped with a New Thought wireless, I may have caught and appropriated ideas that someone else was sending; or, from the reading of Epictetus,

although the thoughts contained in these pages may seem abstruse and difficult for the young and inexperienced to comprehend, we know you will find, as we have, that if you place them in the hands of the young and allow them to study for themselves, they will gain a more accurate understanding of their practical value than will men and women whose minds are biased by education and experience. But McCloy stood out among them as a towering figure of achievement: as a Wall Street lawyer who earned the confidence of captains of industry and presidents; as Henry Stimson ’ s right-hand man at the War Department; as president of the World Bank and chairman of the Chase financial empire; and as presidential adviser. Rockefeller—one of the most complex and compelling figures of the twentieth century. Fourteen years in the making, this magisterial biography of the original Rockefeller Republican draws on thousands of newly available documents and over two hundred interviews, including Rockefeller's own unpublished reminiscences. Grandson of oil magnate John D. Rockefeller, Nelson coveted the White House from childhood. "When you think of what I had," he once remarked, "what else was there to aspire to?" Before he was thirty he had helped his father develop Rockefeller Center and his mother establish the Museum of Modern Art. At thirty-two he was Franklin Roosevelt's wartime coordinator for Latin America. As New

*York's four-term governor he set national standards in education, the environment, and urban policy. The charismatic face of liberal Republicanism, Rockefeller championed civil rights and health insurance for all. Three times he sought the presidency—arguably in the wrong party. At the Republican National Convention in San Francisco in 1964, locked in an epic battle with Barry Goldwater, Rockefeller denounced extremist elements in the GOP, a moment that changed the party forever. But he could not wrest the nomination from the Arizona conservative, or from Richard Nixon four years later. In the end, he had to settle for two dispiriting years as vice president under Gerald Ford. In *On His Own Terms*, Richard Norton Smith re-creates*

Rockefeller's improbable rise to the governor's mansion, his politically disastrous divorce and remarriage, and his often surprising relationships with presidents and political leaders from FDR to Henry Kissinger. A frustrated architect turned master builder, an avid collector of art and an unabashed ladies' man, "Rocky" promoted fallout shelters and affordable housing with equal enthusiasm. From the deadly 1971 prison uprising at Attica and unceasing battles with New York City mayor John Lindsay to his son's unsolved disappearance (and the grisly theories it spawned), the punitive drug laws that bear his name, and the much-gossiped-about circumstances of his death, Nelson Rockefeller's was a life of astonishing color, range, and relevance. Eanger Irving Couse (1866–1936) showed remarkable promise as a young art student. After studying in Europe, Couse began spending summers in New Mexico, where in 1915 he helped found the famous Taos Society of

Artists, serving as its first president and playing a major role in its success. This richly illustrated volume, featuring full-color reproductions of his artwork, is the first scholarly exploration of Couse's noteworthy life and artistic achievements. Drawing on extensive research, Virginia Couse Leavitt gives an intimate account of Couse's experiences, including his early struggles as an art student in the United States and abroad, his study of Native Americans, his winter home and studio in New York City, and his life in New Mexico after he relocated to Taos. In examining Couse's role as one of the original six founders of the Taos Society of Artists, the author provides new information about the art colony's early meetings,

original members, and first exhibitions. As a scholar of art history, Leavitt has spent decades researching her subject, who also happens to be her grandfather. Her unique access to the Couse family archives has allowed her to mine correspondence, photographs, sketchbooks, and memorabilia, all of which add fresh insight into the American art scene in the early 1900s. Of particular interest is the correspondence of Couse's wife, Virginia Walker, an art student in Paris when the couple first met. Her letters home to her family in Washington State offer a vivid picture of her husband's student life in Paris, where Couse studied under the famous painter William Bouguereau at the Académie Julian. Whereas many artists

of the early twentieth century pursued a radically modern style, Couse held true to his formal academic training throughout his career. He gained renown for his paintings of southwestern landscapes and his respectful portraits of Native peoples. Through his depictions of the domestic and spiritual lives of Pueblo Indians, Couse helped mitigate the prejudices toward Native Americans that persisted during this era.

A pioneering philanthropist and daughter of American royalty reveals what it was like to grow up in one of the world's most famous families. The great-granddaughter of John D. Rockefeller, Eileen Rockefeller learned in childhood that while wealth and fame could open any door they could not buy a feeling of personal worth. The privileges of having servants and lavish summer homes were offset by her parents' thoughtful yet firm lessons in social obligation, at times by her mother's dark depressions and mercurial moods, and the competition for attention among her siblings. In adulthood, Rockefeller has

yearned to be seen not as an icon but as a woman and mother with a normal life, and like all of us, she had to learn to find her own way. Summary of the Book 1. The only way to get the best of an

Where To Download Art Public Speaking J Rockefeller Mvkonz

argument is to avoid it. "You can't win an argument. You can't because if you lost it, you lose it; and if you win it, you lose it," because, "a man convinced against his will, is of the same opinion still". Instead, try to:

- A. Welcome the disagreement - you might avoid a serious mistake.
- B. Watch out for and distrust your first instinct to be defensive.
- C. Control your temper.
- D. Listen first.
- E. Look first for areas of agreement.
- F. Be honest about and apologise for your mistakes.
- G. Promise to think over your opponent's ideas and study them carefully.
- H. Thank the other person sincerely for their time and interest.
- I. Postpone action to give both sides time to think through the problem.

2. Show respect for the other person's opinions. Never say "You're wrong." It's

Where To Download Art Public Speaking J Rockefeller Mvkonz

tantamount to saying: "I'm smarter than you are." Instead, consider that "you will never get into trouble by admitting that you may be wrong" and see the above point. Even if you know you are right, try something like: "I may be wrong. I frequently am. If I'm wrong I want to be put right. Let's examine the facts." 3. If you are wrong, admit it quickly and emphatically. "By fighting you never get enough, but by yielding you get more than you expected." Have the courage to admit your errors. Let the other person take the role of a collaborative and benevolent forgiver rather than an opponent. 4. Begin in a friendly way. Friendliness begets friendliness. Glow with it. Overflow with it. Remember that "a drop of honey can catch more flies than a gallon of gall." and see also Aesop's fable

¶The Wind and the Sun¶. 5. Get the other person saying ¶yes, yes¶ immediately. ¶Begin by emphasising ¶ and keep emphasising ¶ the things on which you agree¶ that you are both striving for the same end and that your only difference is one of method and not of purpose.¶ Try to begin with questions to which the only conceivable reply is ¶Yes¶. This will help things get off on a collaborative foot. And remember, ¶He who treads softly goes far.¶ 6. Let the other person do a great deal of the talking. ¶Let other people talk themselves out. They know more about their business and problems than you do. So ask the questions. Let them tell you a few things¶ Don¶t [interrupt]¶ They won¶t pay attention to you while they still have a lot of ideas of their own crying for expression¶. Don¶t

waste air boasting about your own achievements: "If you want enemies, excel your friends; but if you want friends, let your friends excel you." 7. Let the other person feel the idea is his or hers. "You have much more faith in ideas that you discover for yourself than in ideas that are handed to you." Allow others to design and become invested in their own solutions. Consult with them, collaborate on and influence a half-finished idea rather than presenting a final solution. Avoid self-importance, instead, remember "The reason why rivers and seas receive the home of a hundred mountain streams is that they keep below them." 8. Try honestly to see things from the other person's point of view. Take the time to put yourself in the other person's shoes. If you can, sit down with a piece of paper and

a pen. Set a timer for 10 minutes and begin with the words:
□What X is probably feeling now is□□ Keep writing from their perspective until the timer goes off. 9. Be sympathetic with the other person's ideas and desires. Begin always with □I don't blame you one iota for feeling as you do. If I were you I would undoubtedly feel just as you do.□ Be honest about your own flaws and idiosyncrasies. It will help you be more sympathetic with those of others. Remember □Three-fourths of the people you will ever meet are hungry and thirsting for sympathy. Give it to them, and they will love you□. 10. Appeal to the nobler motives. □People are honest and want to discharge their obligations, the exceptions to that rule are comparatively few□. They □will in most cases react favourably if you make them

feel that you consider them honest, upright and fair. 11. Dramatise your ideas. Present your ideas in an interesting, creative and dramatic way that captures attention. Think laterally; how can you present tabular data in a creative way that encourages interaction and engages more of the senses than just sight? Take your inspiration from television and advertising – they've been in this game a long time. 12. Throw down a challenge. "The way to get things done is to stimulate competition. I do not mean in a sordid money-getting way, but in the desire to excel." Pay is not enough to motivate people. Instead, the work itself must be motivating and exciting. Make performance metrics public. Let people enjoy a challenge. "That is what every successful person loves: the game. The
