*Vocational Assessment Workshop that can engender feelings of empowerment, self-sufficiency, and self-determination. The workshop setting is communal and therefore encourages an open exchange of personal experiences, ideas, and creative solutions between the counselor and the client. The workshop allows the client to inventory his or her skills, capacities, strengths and interests, and how to prioritize them. They can take these identified skills and make an informed judgment as to how the client will fit in the labor market.*

with clinical cases and exercises. The ICF as a topic in health and disability has been gaining momentum since its approval by the World Health Assembly in 2001, and great progress has been made since then. However, the integration of the ICF in the realm of vocational rehabilitation has been lacking despite the fact that work and employment are a major area in people's lives, particularly those who have work disability. This book will advance the professional practice of vocational rehabilitation, rehabilitation counseling, occupational medicine, and allied health science.
