Praise for Cost of Capital, Fourth Edition "This book is the most incisive and exhaustive treatment of this critical subject to date." —From the Foreword by Stephen P. Lamb, Esq., Partner, Paul, Weiss, Rifkind, Wharton & Garrison LLP, and former vice chancellor, Delaware Court of Chancery "Cost of Capital, Fourth Edition treats both the theory and the practical applications from the view of corporate management and investors. It contains in-depth guidance to assist corporate executives and their staffs in estimating cost of capital like no other book does. This book will serve corporate practitioners as a comprehensive reference book on this challenging topic in these most challenging economic times." —Robert L. Parkinson Jr., Chairman and Chief Executive Office, Baxter International Inc., and former dean, School of Business Administration and Graduate School of Business, Loyola University of Chicago "Shannon Pratt and Roger Grabowski have consolidated information on both the theoretical framework and the practical applications needed by corporate executives and their staffs in estimating cost of capital in these ever-changing economic times. It provides guidance to assist corporate practitioners from the corporate management point of view. For example, the discussions on measuring debt capacity is especially timely in this changing credit market environment. The book serves corporate practitioners as a solid reference." —Franco Baseotto, Executive Vice President, Chief Financial Officer, and Treasurer, Foster Wheeler AG "When computing the cost of capital for a firm, it can be fairly said that for every rule, there are a hundred exceptions. Shannon Pratt and Roger Grabowski should be credited with not only defining the basic rules that govern the computation of the cost of capital, but also a road map to navigate through the hundreds of exceptions. This belongs in every practitioner's collection of must-have valuation books." —Aswath Damodaran, Professor, Stern School of Business, New York University "Pratt and Grabowski have done it again. Just when you thought they couldn't possibly do a better job, they did. Cost of Capital, Fourth Edition is a terrific resource. It is without a doubt the most comprehensive book on this subject today. What really distinguishes this book from other such texts is the fact that it is easy to read—no small feat given the exhaustive and detailed research and complicated subject matter. This book makes you think hard about all the alternative views out there and helps move the valuation profession forward." —James R. Hitchner, CPA/ABV/CFF, ASA, Managing Director, Financial Valuation Advisors; CEO, Valuation Products and Services; Editor in Chief, Financial Valuation and Litigation Expert; and President, Financial Consulting Group "The Fourth Edition of Cost of Capital continues to be a 'one-stop shop' for background and current thinking on the development and uses of rates of return on capital. While it will have an appeal for a wide variety of constituents, it should serve as required reading and as a reference volume for students of finance and practitioners of business valuation. Readers will continue to find the volume to be a solid foundation for continued debate and research on the topic for many years to come." —Anthony V. The standard style guide of the Christian publishing industry, *The Christian Writer's Manual of Style, 4th Edition*, compiled by veteran Zondervan editor Robert Hudson, contains clear guidance on style questions related to religious writing, including many topics not addressed in other references or online. Nearly half of this fourth revision is made up of new material, including information about turning blogs into books, the effects of digital media on writing, "adverbial doubles," "vanishing accents," word-choice strategies, endorser guidelines, and much more. It also contains an all-new "Word List" which makes up more than a third of the book. The most needful information remains—entries on capitalization, abbreviation, citations, fictional dialogue, and more—but it has all been updated to keep pace with changes in English language usage. This fourth edition also corresponds with *The Chicago Manual of Style, 16th Edition (2010)*, though it isn't afraid to chart new territory where that reference is unhelpful on issues of religious writing. Comprehensive yet easy-to-use, *The Christian Writer's Manual of Style, 4th Edition*, is a go-to resource for Christian authors, pastors, teachers, copy writers, editors, proofreaders, publishing and ministry professionals, executive assistants, and students—anyone who writes or edits as a part of their work or study—and for grammar aficionados everywhere.

Jesus told us to be perfect, and the Second Vatican Council highlighted this command by speaking of the universal call to holiness for all Christians. How do we answer this call? One great way is to learn from and pray with the saints, the ordinary men and women who fought the good fight to be holy until the end of their lives – and won. The saints have inspired Christians for more than two thousand years because they show us what it looks like to follow Jesus Christ despite countless challenges and obstacles. This unique book contains short biographies of several saints, along with prayers to each one, for every day of the year. It also provides definitions of Church terms and other helpful back - ground information. The saints in this collection come from every period of Church history and all walks of life. They represent numerous countries, cultures, age groups, and vocations. They show us that holiness truly is a path open to anyone, and by their example and prayers they help us to follow it.
