Electric Motors and Drives is for non-specialist users of electric motors and drives. It fills the gap between specialist textbooks (which are pitched at a level which is too academic for the average user) and the more prosaic 'handbooks' which are filled with useful detail but provide little opportunity for the development of any real insight or understanding. The book explores most of the widely-used modern types of motor and drive, including conventional and brushless d.c., induction motors (mains and inverter-fed), stepping motors, synchronous motors (mains and converter-fed) and reluctance motors.

What could have been better for our family with three young boys than spending time in and around Wawona, California within the glorious Yosemite National Park? This is where we built our little cabin and spent over twenty happy,

adventure-filled years! We spent every weekend, vacation and all of the holidays exploring the natural beauty surrounding our picturesque cabin. We considered Yosemite to be our back yard; it doesn't get much better than that! Surrounded by so much natural beauty, we were drawn into the day-to-day life of Yosemite National Park; we hiked, skied and even played golf. For our family, such an adventure became even more exciting as we met and befriended the other people who lived in Yosemite; not to mention the animals deer, raccoons, coyotes, and the bears who were also our neighbors. In "Memoirs of Our Cabin in Yosemite"; and "Our Backyard Wilderness," the story of our years in the cabin nestled in Yosemite National Park comes to life!

You'll also discover many of today's cutting-edge applications, including micro-machining, polishing, maintenance, and surface preparation for coating applications. Finally, the author describes recent advanced applications in the machining industry, including blast cleaning-assisted laser milling. In the last decades coal production capacity has increased rapidly and its quality, power and the reliability of equipment has steadily improved. Moreover, stability of production processes can be controlled better. In

connection with that, unification of scientific schools focusing on "Mining of deposits" is an integral trend from the viewpoint of technical and technological policy. This collection of papers represents the scientific and technical achievements with regard to mineral deposits mining intensification based on effective use of modern techniques and technologies. Also, specific attention is paid to progressive and innovational technologies in the coal industry of leading countries. Widening the range of mining-geological conditions under which drivage and maintenance of mining activities are carried out, requires application of new constructive decisions. Hence, this collection of

This Tutorial Text provides a comprehensive introduction to the subject of contamination control, with specific applications to the aerospace industry. The author draws upon his many years as a practicing contamination control engineer, researcher, and teacher. The book examines methods to quantify the cleanliness level required by various contamination-sensitive surfaces and to predict the end-of-life contamination level for those surfaces, and it

Opportunity presents itself in, of all places--Las Vegas. Randy and his girls are flown to Sin City on a corporate jet and after being wined and dined and...ah...other things, are offered the opportunity to host that Summer's Adult Pool Parties at the Galaxy & Eden Hotels EXCERPT We arrived to the Scottsdale Airport terminal at one-forty, with twenty minutes to spare. The Prince's right hand man, Fahd Barakah, met us and escorted us to Las Vegas. Fahd apologized for the prince not being there. It seems to pass the time he got involved in a game of Chemin de fer and lost 6.7 million dollars, so he sent Fahd instead, because he was trying to recoup his loses. We flew to Vegas

in Prince Salam's tricked-out Gulfstream 650, which according to Fahd cost 89 million dollars. I was shocked. I had no idea private planes cost that much. The flight was uneventful and we arrived at McCarran Executive Air Terminal at 1:45 pm—earlier than we left due to the time difference. From there a stretch limousine zipped us the two miles to the Galaxy Hotel where Romano greeted us effusively, especially me. After embracing me and kissing my cheek, he said, "Ah, April. I'm so glad you came. I have been so looking forward to seeing you again." He winked. "I remember our time together at the Phoenician most fondly." I remembered too. I remembered how handsome he was/is and how much he turned me on. "It's good to see you again, too. I'm looking forward to

working in Vegas again." Romano's eyebrows rose. "Again? I wasn't aware you had worked here before." A flush surged through me. "Oh, it was for only two weeks when I was in college." "I see. Well I'm sorry I missed you then." He chuckled. "You might never have gone back to Phoenix." His eyes wandered to Lita, who stood between me and Randy. "And who is this lovely creature?" "Oh! This is Lita. Lita this is...I'm sorry but I don't know your first name." "It's Julio. I seldom use it, everyone calls me Romano, but you can use either name." "Lita, this is Julio Romano and Julio, this is Lita Brooks." Lita did a half curtsy. "Pleased to meet you, Mr. Romano." "Please, please. Julio or Romano. We are going to be famiglia around here." He took Lita's hand, raised it chest high then leaned down and kissed the

top. "Lovely name for a lovely creature. I hope we can get to know each other real good. As Lita blushed, Romano lowered her hand and held out his hand to Randy. "And you are?" "Randy Evers." Randy took the offered hand and shook it. "Romano...or Julio, if you prefer. You are the impresario, no?" Randy laughed. "I've been called many things but never that." Romano laughed too. "Well my friend, you have a nose for beautiful women. Counting Lita, I have beheld three. How many more gorgeous courtesans do you have for us?" "Only one of the quality you want." Romano's eyes narrowed. "Oh, you must keep your talented nose, ears and eyes out for more. We can always put beautiful women to work." Addressing everyone Romano then asked, "Have you eaten?" early breakfast." Romano stuck his arms out and lolled his head back. "Then you must be starved. "Let's go in the hotel, get you a room and we'll meet for dinner after you freshen up. Perhaps the Prince will be done with his foolishness by then." While Randy went with Romano to check on the Prince, we took an elevator to the thirty-second floor where our suite—suite 3206 was located. Romano insisted we take a suite that was saved for high rolling VIPs. Lita and I decided to share one bedroom though we'd probably all end up in the same extra-king sized bed. If Randy wanted to be by himself or if he picked up a show girl, He could have the bedroom that adjoined the suite, but also had it's own entrance. The three of us were supposed to meet Romano and Prince Salam at five-thirty in the

Alpha Centauri gourmet room for what Romano described as a 'gastronomic orgy'. Randy suggested we pull out all stops and look our very best for the occasion. Lita and I agreed. This was the big leagues and the stakes were high. If we pulled it off our lives would change like we never imagined.

When a bad day at work culminates in losing out on a promotion, Jim Sanders shifts into his animal form to let off steam. Then his bad day turns into a bad night-while prowling his Atlantic City neighborhood as a large gray house cat, he's caught in a torrential downpour.

What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him inside, and starts calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent.

Finding love was never part of Jim's plan for the future-not with his bizarre secret-yet suddenly he finds himself navigating
