This text covers both the theory and procedures related to
the diagnosis and service of automotive suspension and
steering systems, using a unique two-volume approach to
optimize learning in both the classroom and the auto shop.
The first volume (Classroom Manual) details the theory and
application of suspension and steering systems, while the

second (Shop Manual) covers real-world symptoms,
diagnostics, and repair information. Known for its

comprehensive coverage, accurate and up-to-date details,
and abundant illustrations, the text is an ideal resource to
prepare for success as an automotive technician or pursue
ASE certification. Now updated with extensive information
on new and emerging technology and
techniques—including hybrid and electric vehicles, tire
plus sizing, and computer-controlled suspensions—the
Sixth Edition also aligns with area A4 of the ASE Education
Foundation 2012 accreditation model, including job sheets
correlated to specific AST and MAST tasks. Ideal for
aspiring and active automotive professionals, TODAY'S
