Welcome to Merriam-Webster Kids! Fall 2021 marks the debut of our new imprint that serves our mission to help kids better understand and communicate with the world around them through highly engaging content designed to foster a love of language and learning from an early age. Our list is small, yet focused; over time you will see us serve ages 0-12 and the families, teachers, and librarians that support them. Merriam-Webster is storming the category with a 150 first word board book experience grounded in the principles of child development. The interactive experience encourages toddlers' language learning through the repetition of simple words and phrases, using a technique, written by a speech-language pathologist. While most first words books list nouns, our book naturally weaves 150 words around everyday illustrations readers will recognize from their own daily routines. Along the border of each spread, we’ve included photographs of every illustrated item to encourage an additional search-and-find experience for babies. Hosted by nine ethnically-diverse babies, it’s a search-and-find experience that will delight parents and caregivers. Give toddlers the gift of language with words and short phrases to say all day long, ages 6-18 months. This engaging large-format board book encourages toddlers’ language learning through the repetition of simple words and phrases for everyday objects and activities. Under speech development expert Claire Davis’s sure hand, dressing, mealtime, playtime, bath time, and all the other routines of the day become opportunities for babies to learn new words and phrases. Author and speech-language pathologist Claire Davis uses tried-and-true, authoritative language based on research to provide a brief introduction, Davis coaches parents and other caregivers in her proven methods for getting babies talking. Features nine babies of different ethnic backgrounds and settings from around the world. Each spread includes photographs of babies and everyday objects alongside illustrated scenes showing them in action-creating a match for parents and babies to connect. From the largest team of dictionary editors and writers in America, and one of the largest in the world, thank-you for supporting us and Merriam-Webster Kids.

This spooky season, discover a new series for fans of Lemony Snicket, Roald Dahl and the Adams family. Welcome to the world of Nocturnia, where darkness reigns supreme, glitter is terrifying, and unicorns are the stuff of nightmares starring Amelia Fang, a sparkly little vampire in a dark and gloomy world. Amelia Fang would much rather hang out with her pet pumpkin Squashy and her friends Florence the yeti (DON'T CALL HER BEAST!) and Grimaldi the reaper than dance at her parents' annual Barbaric Ball. Then the King's spoiled son Tangine captures Squashy, Amelia and her friends must escape the party to plan a daring rescue! In their race against time, they begin to realize things in Nocturnia may not be quite what they seem...

Physical inactivity is a key determinant of health across the lifespan. A lack of activity increases the risk of heart disease, colon and breast cancer, diabetes mellitus, hypertension, osteoporosis, anxiety and depression and others diseases. Emerging literature has suggested that in terms of mortality, the global population health burden of physical inactivity approaches that of cigarette smoking. The prevalence and substantial disease risk associated with physical inactivity has been described as a pandemic. The prevalence, health impact, and evidence of changeability all have resulted in calls for action to increase physical activity across the lifespan. In response to the need to find ways to make physical activity a health priority for youth, the Institute of Medicine's Committee on Physical Activity and Physical Education in the School Environment was formed. Its purpose was to review the current status of physical activity and physical education in the school environment, including before, during, and after school, and examine the influences of physical activity and physical education on the short and long term physical, cognitive and brain, and psychosocial health and development of children and adolescents. Educating the Student Body makes recommendations about approaches for strengthening and improving programs and policies for physical activity and physical education in the school environment. This report lays out a set of guiding principles to guide its work on these tasks. These included: recognizing the benefits of instilling life-long physical activity habits in children; the value of using systems thinking in improving physical activity and physical education in the school environment; the recognition of current disparities in opportunities and the need to achieve equity in physical activity and physical education; the importance of considering all types of school environments; the need to take into consideration the diversity of students as recommendations are developed. This report will be of interest to local and national policymakers, school officials, teachers, and the education community, researchers, professional organizations, and parents interested in physical activity, physical education, and health for school-aged children and adolescents.

Part genealogy, part history, and part personal memoir, rooted in an amazing amount of research, and written with grace and flair, this book brings to light a rich past that had almost been lost. James M. McPherson, author of Battle Cry of Freedom: The Civil War Era

***A determined duck pleads for grapes at the most unlikely of places: a lemonade stand. The story and song in this comical, musical picture book will delight both adults and children, who can play the song aloud while learning important lessons about persistence and compassion.***

***Imagine if food fell from the sky like rain... wouldn't it be great? Or would it? This is what happened in the tiny town of Chewandswallow. In many ways it was much the same as any other small town, except for the weather... which came three times a day, at breakfast, lunch and dinner. Sometimes it rained soup and juice, or snowed mashed potatoes, once or twice it even blew up a storm of hamburgers. Life was pretty delicious in Chewandswallow...until the weather took a turn for the worse!***

***Art of the Cut provides an unprecedented look at the art and technique of contemporary film and television editing. It is a fascinating "virtual roundtable discussion" with more than 50 of the top editors from around the globe. Included in the discussion are the winners of more than a dozen Oscars for Best Editing and the nominees of more than forty, plus numerous Emmy winners and nominees. Together they have over a thousand years of editing experience and have edited more than a thousand movies and TV shows. Hullfish carefully curated over a hundred hours of interviews, organizing them into topics critical to editors everywhere, generating an extended conversation among colleagues. The discussions provide a broad spectrum of opinions that illustrate both similarities and differences in techniques and artistic approaches. Topics include rhythm, pacing, structure, storytelling and collaboration. Interviewees include Margaret Sixel (Mad Max: Fury Road), Tom Cross (Whiplash, La La Land), Pietro Scalia (The Martian, JFK), Stephen Mirrione (The Revenant), Ann Coates (Lawrence of Arabia, Murder on the Orient Express), Joe Walker (12 Years a Slave, Sicario), Kelley Dixon (Breaking Bad, The Walking Dead), and many more. Art of the Cut also includes in-line definitions of editing terminology, with a full glossary and five supplemental web chapters hosted online at www.routledge.com/cw/Hullfish. This book is a treasure trove of valuable tradecraft for aspiring editors and a prized resource for high-level working professionals. The book's accessible language and great behind-the-scenes insight makes it a fascinating glimpse into the art of filmmaking for all fans of cinema.***

Cesar Millan—nationally recognized dog expert—helps you see the world through the eyes of your dog so you can finally eliminate problem behaviors. From his appearances on *The Oprah Winfrey Show* to his roster of celebrity clients to his reality television series, Cesar Millan is America's most sought-after dog-behavior expert. But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how he learned what makes dogs tick. In *Cesar's Way*, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine companions. Cesar's formula for a contented and balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn: • What your dog really needs may not be what you're giving him • Why a dog's natural pack instincts are the key to your happy relationship • How to relate to your dog on a canine level • There are no "problem breeds," just problem owners • How to choose a dog who's right for you and your family • The difference between discipline and punishment • And much more! Filled with fascinating anecdotes about Cesar's longtime clients, and including forewords by the president of the International Association of Canine Professionals and Jada Pinkett Smith, this is the only book you'll need to forge a stronger, more rewarding connection with your four-legged companion.
