

# ***Bad Behaviour***

Starting with *Bad Behavior* in the 1980s, Mary Gaitskill has been writing about gender relations with searing, even prophetic honesty. In *This Is Pleasure*, she considers our present moment through the lens of a particular #MeToo incident. The effervescent, well-dressed Quin, a successful book editor and fixture on the New York arts scene, has been accused of repeated unforgivable transgressions toward women in his orbit. But are they unforgivable? And who has the right to forgive him? To Quin's friend Margot, the wrongdoing is less clear. Alternating Quin's and Margot's voices and perspectives, Gaitskill creates a nuanced tragicomedy, one that reveals her characters as whole persons—hurtful and hurting, infuriating and

touching, and always deeply recognizable. Gaitskill has said that fiction is the only way that she could approach this subject because it is too emotionally faceted to treat in the more rational essay form. Her compliment to her characters—and to her readers—is that they are unvarnished and real. Her belief in our ability to understand them, even when we don't always admire them, is a gesture of humanity from one of our greatest contemporary writers.

"Bad Behavior is concerned with the reasons so many readers and critics of Johnson have been led to regularly subsume into the monumental precedent of Johnson the sage, the material conditions of modern authority expressed by self-reflections of Johnson the hack." "Dr. Wechselblatt argues that Johnson's double self-construction as at once high-cultural sage and popular hack dramatizes tensions between learned and commercial cultures in the

emerging public sphere of contemporary civil society. As Johnson was acutely aware, the great paradox of cultural criticism is that it depends for its authority on the very culture it criticizes. For this reason, it is particularly useful to read Johnson through his critics - to re-configure, from the directions criticism has taken, criticism's own conditions of possibility." "Bad Behavior investigates the critical reduction of Johnson's discourse to its maxims, and the relation of this critical practice to the peculiarly modern identification felt by fans toward celebrities."--BOOK

A trade paperback reissue of National Book Award finalist Mary Gaitskill's debut collection, *Bad Behavior*—powerful stories about dislocation, longing, and desire which depict a disenchanting and rebellious urban fringe generation that is searching for human connection. • Now a classic: *Bad Behavior* made critical waves when it first published, heralding Gaitskill's arrival on the literary scene and her establishment as one of the sharpest, erotically charged, and audaciously funny writing talents of contemporary literature. Michiko Kakutani of *The New York Times* called it “Pinteresque,” saying, “Ms. Gaitskill writes with such authority, such radar-perfect detail, that she is able to make even the most extreme situations seem real... her reportorial candor, uncompromised by sentimentality or voyeuristic charm...underscores the strength of her debut.”

The current model of parental discipline is as outdated as a rotary phone. Why don't our kids do what we want them to do? Parents often take the blame for misbehavior, but this obscures a broader trend: in our modern, highly connected age, children have less self-control than ever. About half of the current generation of children will develop a mood or

behavioral disorder or a substance addiction by age eighteen. Contemporary kids need to learn independence and responsibility, yet our old ideas of punishments and rewards are preventing this from happening. To stem this growing crisis of self-regulation, journalist and parenting expert Katherine Reynolds Lewis articulates what she calls The Apprenticeship Model, a new theory of discipline that centers on learning the art of self-control. Blending new scientific research and powerful individual stories of change, Lewis shows that, if we trust our children to face consequences, they will learn to adapt and

moderate their own behavior. She watches as chaotic homes become peaceful, bewildered teachers see progress, and her own family grows and evolves in light of these new ideas. You'll recognize your own family in Lewis's sensitive, realistic stories, and you'll find a path to making everyone in your home more capable, kinder, and happier -- including yourself.

The book investigates several case studies of both justice and injustice which prompted the development of forensic toxicology, the implementation of state propaganda and an increased interest in press sensationalism. One such case study considers the trial of William Sheen, who was prosecuted and later acquitted of the murder of his infant child at the Old Baily in 1827, an extraordinary
