Книга представляет собой осуществленное впервые полное научное издание текста одного из популярнейших произведений древнерусской агиографической литературы - Жития преп. Зосимы и Савватия Соловецких. В основу издания положено археографическое и текстологическое пословное сопоставительное изучение всех выявленных на сегодняшний день трехсот шестидесяти списков произведения из рукописных хранилищ Москвы, Санкт-Петербурга, Архангельска. Автор предлагает свою логически завершенную концепцию развития и совершенствования текста памятника, подробно характеризует его одиннадцать редакций, семь из которых выделено впервые, предлагает в качестве первоначальной рассматривать вновь выявленную редакцию Жития, сохранившуюся в пяти ранних списках, датировемых первой третью - первой половиной XVI века. Книга рассчитана на филологов, историков, археографов, специалистов, занимающихся изучением русской духовной культуры и древнерусского рукописного наследия.

We Do Language builds on the authors’ highly acclaimed first collaboration, Understanding English Language Variation in U.S. Schools, and examines the need to integrate linguistically informed teaching into the secondary English classroom. The book meets three critical goals for preparing English educators to ensure the academic success of their students. First, the book helps educators acquire a greater knowledge of language variation so they may teach their students to analyze the social, cultural, and linguistic dimensions of the texts they read in class. Second, the chapters provide specific information about language varieties that students bring with them to school so that educators can better assist students in developing the literacy skills necessary for the Common Core State Standards. Third, the text empowers educators to build their linguistic awareness so they may more fully understand, respect, and meet the needs of culturally and linguistically diverse students. We Do Language features concrete strategies, models, and vignettes, as well as classroom materials developed by English educators for English educators. It is essential reading for anyone interested in learning about the role that language plays in the experiences of students, both in secondary and postsecondary environments. “Full of advice and support for walking hand-in-hand with students into imaginative ways of understanding the realities of language variation, this book is pure joy for teachers and college counselors. Even more important is the guarantee that when these educators embrace the humanity and philosophy so touchingly illustrated by the authors, the intrigue of thinking deeply about speaking, writing, and reading is sure to follow for students.” —Shirley Brice Heath, Margery Bailey Professor of English & Dramatic Literature and Professor of Linguistics, Emerita, Stanford University “We Do Language is an enabling tool for helping teachers and those who prepare them to face—perhaps better than we ever have—the challenge of schooling in the English/language arts for the 21st century.” —From the Foreword by Jacqueline Jones Royster, Ivan Allen Chair in Liberal Arts and Technology and Dean, Ivan Allen College of Liberal Arts, Georgia Institute of Technology “Long overdue and much needed. African American English is here to stay, and this book affirms and supports educators and African American students, their language, and their culture. I can’t thank the authors enough for writing this powerful, thought provoking, and critical analysis of language variation.” —Donna Ford, Harvie Branscomb Distinguished Professor of Special Education and Teaching and Learning, Peabody College of Education, Vanderbilt University Anne H. Charity Hudley is associate professor of education, English, linguistics, and Africana studies at the College of William & Mary in Williamsburg, Virginia. All previous Biblical Hebrew lexicons have provided a modern western definition and perspective to Hebrew roots and words. This prevents the reader of the Bible from seeing the ancient authors' original intent of the passages. This is the first Biblical Hebrew lexicon that defines each Hebrew word within its original Ancient Hebrew cultural meaning. One of the major differences between the Modern Western mind and the Ancient Hebrew's is that their mind related all words and their meanings to a concrete concept. For instance, the Hebrew word "chai" is normally translated as "life", a western abstract meaning, but the original Hebrew concrete meaning of this word is the "stomach". In the Ancient Hebrew mind, a full stomach is a sign of a full "life". The Hebrew language is a root system oriented language and the lexicon is divided into sections reflecting this root system. Each word of the Hebrew Bible is grouped within its roots and is defined according to its original ancient cultural meaning. Also included in each word entry are its alternative spellings, King James translations of the word and Strong's number. Indexes are included to assist with finding a word within the lexicon according to its spelling, definition, King James translation or Strong's number.

One of the most persistent problems in Christian-Muslim relations over the centuries has been the tendency by each to judge the other by standards and criteria not used in assessing itself.

Goddard argues that such is no longer admissible and proceeds to offer a number of useful insights.

Have you ever eaten wasabi? That dainty green blob on your sushi plate may look pretty tame, but take a taste--or even a whiff--and you'll find that little dollop packs a powerful punch to your senses! Jesus also looks pretty innocuous at first glance. He's the Good Shepherd, after all, the Prince of Peace. "Love your neighbor," he says. "Forgive others." If we take a closer look at those red-lettered words, however, we'll find that some of the most tame and sappy-sounding things Jesus said actually pack the most punch. Wasabi Gospel brings seven well-known gospel passages to life, unpacking their real significance and exploring what life would really look like if we lived out those seemingly-subtle commands of Christ. Jesus' words were radical for his audience and still are for us today, giving us a metaphorical punch to the gut and challenging us to the depths of our souls to change the way we live, love, and look at the world.

This is a unique learning aid for making rapid headway in the acquisition of comprehension and speaking ability in Khmer, the language of Cambodia. In recent years, Cambodia has moved from a society menaced by war to a society orientated to commerce. With this shift in attention from military to social and economic matters has come an increase in the numbers of foreign visitors and residents in the country for the purposes of tourism, aid work or investment-related activities. Many of these foreigners or ‘chun bor-tay’ speak English as a first or second language, but know little of written or spoken Khmer. This dictionary is designed to enable residents and visitors to better understand both the country and its people through speaking to Cambodians in their own language. With more than 6,000 key word entries, the "English-Spoken Khmer Dictionary" has the distinctive feature of presenting Khmer words in an all-new easily grasped Romanized writing system. Incorporating phrases is essential for tourists, business travellers, scholars and long term Cambodia residents who wish to become more familiar with a country poised to play an increasingly significant role in the area.

Our critically acclaimed smash hit Cartographies of Time is now available in paperback. In this first comprehensive history of graphic representations of time, authors Daniel Rosenberg and Anthony Grafton have crafted a lively history featuring fanciful characters and unexpected twists and turns. From medieval manuscripts to websites, Cartographies of Time features a wide variety of timelines that in their own unique ways, curving, crossing, branching, defy conventional thinking about the form. A fifty-four-foot-long timeline from 1753 is mounted on a scroll and encased in a protective box. Another timeline uses the different parts of the human body to show the genealogies of Jesus Christ and the rulers of Saxony. Ladders created by missionaries in eighteenth-century Oregon illustrate Bible stories in a vertical format to convert Native Americans. Also included is the April 1912 Marconi North Atlantic Communication chart, which tracked ships, including the Titanic, at points in time rather than by their geographic location, alongside little-known works by famous figures, including a historical chronology by the mapmaker Gerardus Mercator and a chronological board game patented by Mark Twain. Presented in a lavishly illustrated edition, Cartographies of Time is a revelation to anyone interested in the role visual forms have played in our evolving conception of history

Staghorn corals (genus Acropora) are the most obvious and important corals on coral reefs throughout the world, providing much of the beauty and variety seen on the reefs. This invaluable reference tool is the first major review of Acropora in over 100 years. It assesses all the known species worldwide, describing each in detail and illustrating the range of variability of form with habitat and geographic location. The classification, evolution and worldwide distribution of all species are reviewed and illustrated with colour plates, full page black and white plates and distribution maps. Details of the general biology of staghorn corals are discussed and illustrated.

Utta Drivel Goes Forth is a comic novel that follows the lives of laid-back entrepreneur Wilfric & his 2 friends. He is 1600-odd years-old, which gives him a unique view of history. His get-togethers with walking disaster Boothroyd & eccentric patriot Utta Drivel involve much laughter. Their lives and sparking conversations cover a wide spectrum. From a Falkland Islands folk club to a virgin man who'd have burst out of a pair of the Pope's erection straps to the afterlife: would you find Alfred the Great arguing with Alexander the Great as to who was the greatest? And whether old people have to give up sex when they go into care homes - there can't be many that give you that much assistance. Following a visit to the London Olympic Park, the friends' lives become interspersed with attacks from a man who accuses Boothroyd of getting his sister pregnant. To stop this, they trap the man while he is burglaring a billionaire's mansion and reveal the surprising identity of the real father.

Urban planners and conservationists in historic cities around the world grapple with the competing interests of conservation, urban design, and economic and social development. This book offers an interdisciplinary approach to the key relationships between heritage conservation, city space design, and tourism development in historic cities, linking theory and practice in a unique way. The book offers an investigation of three Middle Eastern historic cities, Aleppo, Acre and Salt, all of which face significant challenges of heritage conservation, adaptation to contemporary needs, and tourism development. It presents practical scenarios for the conservation and design of historic urban spaces and the development of sustainable tourism, from the perspective of planners, local communities and international tourists. The author offers a comparative approach which transcends political strife and provides valuable lessons for the other cities inscribed on UNESCO’s World Heritage List, especially those in developing countries.

The Baha’i faith has some five million adherents around the world. It preaches the oneness of God, the unity of all faiths, universal education and the harmony of all people, but has no priesthood and few formal rituals. In this book Peter Smith traces the development of the Baha’i faith from its roots in the Babi movement of mid-nineteenth century Iran to its contemporary emergence as an expanding worldwide religion. • Explores the textual sources for Baha’i belief and practice, theology and anthropology and understanding of other religions. • Covers the concept of the spiritual path, Baha’i law and administration and aspects of community life. • Examines the Baha’i’s social teachings and activities in the wider world. This introduction will be of particular interest to students of new religious movements, Middle East religions, and comparative religion and for those studying short courses on the Baha’i faith.
