This volume studies the concept and relevance of HISTEM (History of Science, Technology, Environment, and Medicine) in shaping the histories of colonial and postcolonial South Asia. Tracing its evolution from the establishment of the East India Company through to the early decades after the Independence of India, it

Where To Download Basic Civil Engineering In Marathi

highlights the ways in which the discipline has changed over the years and examines the various influences that have shaped it. Drawing on extensive case studies, the book offers valuable insights into diverse themes such as the East-West encounter, appropriation of new knowledge, science in translation and communication, electricity and urbanization, the colonial context of engineering education, science of hydrology, oil and imperialism, epidemic and empire, vernacular medicine, gender and medicine, as well as environment and sustainable development in the colonial and postcolonial milieu. An indispensable text on South Asia's experience of modernity in the nineteenth and twentieth centuries, this book will be of interest to scholars and researchers of modern South Asian studies, modern Indian history, sociology, history of science, cultural studies, colonialism, as well as studies on Science, Technology, and Society (STS).

The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 December, 1935 and was the successor to the Indian Radio Times in English, which was published beginning in July 16 of 1927. From 22 August, 1937 onwards, it was published by All India Radio, New Delhi. From July 3, 1949, it was turned into a weekly journal. Later, The Indian listener became "Akashvani" in January 5, 1958. It was made a fortnightly again on July 1, 1983. It used to serve the listener as a Bradshaw of broadcasting, and give listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. Beyond Macaulay provides a radical and comprehensive history of Indian education in the early colonial era – from the establishment of the Calcutta Madrasa in 1780 until the end of the East India Company's rule and the beginning of the administration by the crown in 1860. The book challenges the conventional theory that the British administration imposed English language and modern education on Indians. Based on rich archival evidence, it critically explores data on 16,000 indigenous schools and shows that indigenous education was not oral, informal, and Brahmin-centric but written, formal, and egalitarian. The author highlights the educational policies of the colonial state and the way it actively opposed the introduction of modern education

Where To Download Basic Civil Engineering In Marathi

and privileged Brahmins. By including hitherto unused 41 Educational Minutes of Macaulay, the volume examines his educational ideas, and analyses why the colonial state closed down every school established by him. It also contrasts the educational ideas of the British elites and the Orientalists with dissenting Scottish voices. The book discusses post-Macaulayan educational policies and the Wood's Despatch of 1854 as well as educational institutions during the revolt of 1857. It covers indigenous education in Sanskrit, Persian, Arabic and modern Indian vernaculars, the impact of the colonial policies on these schools, and traces the history of education in Bengal, North India, and Madras and Bombay Presidencies, as also the role of caste and religion in society. This book will be of great interest to scholars and researchers of education, history of education, Indian history, South Asian history, colonial history, sociology, political history and political science.

Vols. 39-214 (1874/75-1921/22) have a section 2 containing "Other selected papers"; issued separately, 1923-35, as the institution's Selected engineering papers.

Issues for 1919-47 include Who's who in India; 1948, Who's who in India and Pakistan.

Many books have appeared on life of Sir M.Visvesvaraya both in Kannada ,English and other Indian languages along with hundreds of articles. All these books and articles depict the life and achievements of Sir M.V in typical hagiographical style. None of these books and articles provide different outlook. A few contemporary literati who did not have any proper idea of science and engineering and some like minded people of particular group who had social status started to propagate each and every work of Sir M.V as a great achievement. In due course of time this became a tradition. As continuation of this tradition books and articles on Sir M.V are being published one after the other. The author of this current book , who is a civil engineering consultant by profession has deviated from the trodden path and subjected Sir M.V to critical technical examination. Pride , devotion or fear , belief and blind

majority does not have any place in science and technology. Objectivity is the only criterion for it. But in case of Sir M.V all these have combined and utilized to glorify him to divinity. Author argues that the achievements of an engineer shall be evaluated on technical grounds only and not on any other emotional issues. Through this author argues that Sir M.V was not a great engineer but only an ordinary engineer like many others.

Staff Selection Commission (SSC) is one of the prestigious organisations of Government of India known widely for recruiting potential candidates for various posts at various subordinate offices.
