This reference handbook surveys research on the central issue associated with the teaching of unprepared writers. Though basic writing has only been recognized as a distinct area of teaching and research since 1975, the existing bibliographic texts already seem limited due to their age or lack of annotation. This volume provides current and extensive bibliographic essays and will help to define this new field of study for teachers and researchers. Following an introduction that summarizes the origins and significant texts in basic writing, the book is divided into three sections, Social Science Perspectives, Linguistic Perspectives, and Pedagogical Perspectives. The first section, which contains three essays, views the field through the lens of social, psychological, and political issues. The second section, also containing three essays, examines contributions made from studies of grammar, dialects, and second-language acquisition. The third section, in its four essays, focuses on the design, development, administration, and evaluation of basic writing courses, the use of computers in basic writing classrooms, the role of the writing lab, and the preparation of basic writing teachers. An appendix that reviews current textbooks for basic writing courses is also included, as well as an index. This book will be a valuable resource for teachers of basic writing, in education courses and workshops that train teachers and tutors, and in fields such as linguistics, technical writing, and Teaching English as a Second Language. It will also be an important addition to public and university libraries and many education programs.

*The fourth edition of this essential Middle English textbook introduces students to the wide range of literature written in England between 1150 and 1400. Beginning with an extensive overview of middle English history, grammar, syntax, and pronunciation, the book goes on to examine key middle English texts — including a new extract from Julian of Norwich's Revelation of Divine Love — with helpful notes to direct students to key points within the text. Keeping in mind adopter feedback, this new edition includes a new model translation section with a student workbook and model exercise for classroom use. This new chapter will include sections on 'false friend' words, untranslatable idioms and notes on translating both poetry and prose. The text and references will be fully updated throughout and a foreword dedicated to the late J. A. Burrow will be included.*

*"English is so illogical!" It is generally believed that English is a language of exceptions. For many, learning to spell and read is frustrating. For some, it is impossible... especially for the 29% of Americans who are functionally illiterate. But what if the problem is not the language itself, but the rules we were taught? What if we could see the complexity of English as a powerful tool rather than a hindrance? --Denise Eide Uncovering the Logic of English challenges the notion that English is illogical by systematically explaining English spelling and answering questions like "Why is there a silent final E in have, large, and house?" and "Why is discussion spelled with -sion rather than -tion?" With easy-to-read examples and anecdotes, this book describes: - the phonograms and spelling rules which explain 98% of English words - how English words are formed and how this knowledge can revolutionize vocabulary development - how understanding the reasons behind English spelling prevents students from needing to guess The author's inspiring commentary makes a compelling case that understanding the logic of English could transform literacy education and help solve America's literacy crisis. Thorough and filled with the latest linguistic and reading research, Uncovering the Logic of English demonstrates why this systematic approach should be as foundational to our education as 1+1=2.*

Basics of Phonetics and English Phonology is a textbook for students of English, designed for students following BA foundation courses as no prior knowledge of linguistics is required. It provides students with a sound understanding of the principles of phonetics in general, but also with a special focus on English phonology. In addition, the exercises offer systematic practical training in IPA transcription. The book is designed for German non-native speakers of English, as specific difficulties in practical pronunciation are highlighted, but it can equally be used by any student interested in the mechanisms of spoken English. The transcription exercises at the end of each chapter are both in British and US American standard pronunciation.

With a revised Introduction and with all chapters revised to bring them completely up-to-date, this new edition remains the leading guide to research methods for final-year undergraduates, postgraduates taking Masters degrees and PhDs students of 19th- an

*How do we teach English Language Learners (ELLs) and how do our ELLs learn? This book answers those questions. "Essentials For Successful English Language Teaching" is about how we teach English Language Learners (ELLs) and how our ELLs learn. Farrell and Jacobs encourage those involved in teaching English to develop, maintain and rediscover the reasons that led them to take up the profession. They focus on the essentials in teaching the English language that teachers can implement in their instruction so that their students can excel in their learning: encourage learner autonomy; emphasize the social nature of learning; develop curricular integration, focus on meaning; celebrate diversity; expand thinking skills; utilize alternative assessment, and, promote English language teachers as co-learners along with their students. These essentials are best implemented as a whole, rather than one at a time and so they are interwoven with each other to encourage a holistic teaching approach. Highly accessible, each chapter comes with case studies and a range of activities to encourage the reader to put each of the essentials into practice. This reflective and engaging book will be invaluable to postgraduate students of TESOL and applied linguistics, and in-service language teachers.*
