Book Description International Law Attorney, Elle Corday-Whitmire is Hot'lanta's newest and uncommonly amazing rainmaker, in more than one way. Her number one fan, husband U.S. Senator Harrison T. Whitmire, finds her intellectual and physical talents a total package. He's hypnotized by her charmed offerings; she gives "trophy wife" a new meaning. Getting to know Elle is to share in a complicated journey back into her bleak and gloomy Pulaski, Virginia childhood. Desperate to escape from her family's poverty, you'll witness her young ambition taking control to get what she wants. Elle lets nothing stand in her way. Her early sexual awakening and experimentation with her unexplored powers will shock you, as she transforms her ambitions into a promiscuous, turbulent excursion through her school days at Darlington and University of Georgia. Ultimately her entwined and knotted atrocities will electrify your senses and merge you with an underworld as can only be experienced by Elle and her unlikely partners in crime, the beautiful "Buckhead Madam," Roxanne Porter, and the exotic and talented prostitute, Noir. The chemical equation of these vixens and the mystery man out to get them will redefine southern justice and hospitality and lead Elle on a haunted and hedonistic journey that may end her world. Get ready to unleash your inner most erotic senses with this thrilling, captivating concoction of dirty little secrets, true love, murder and revenge. Adult content - consider yourself warned!

For the first time ever, a comparative survey of 95 percent of the fiberglass pocketcruising sailboats ever built Author Steve Henkel has researched hundreds of cruising sailboats less than 26 feet long--pocket cruisers--to create this definitive gallery and handbook of the small cruising sailboats built in the last 45 years. With detailed plans, specifications, performance indexes, and commentary for every model the author could find (360 in all!), *The Sailor's Book of Small Cruising Sailboats* is your ideal core reference for the used and new boats you see on the water.

Over two hundred and thirty years ago the Fallocaust happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaust. He is a product of the savage world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.

*From one of Canada's greatest journalists comes this classic study of the country's history, culture, and society. First published in 1942, *The Unknown Country* won the Governor General's Award for non-fiction and cemented Hutchison's reputation as the nation's pre-eminent political commentator. More than 60 years later, *The Unknown Country* offers an unforgettable portrait of a country hauntingly familiar yet lost beyond recall.*

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health. Everyone dreams of tropical escape. But what happens when you escape for too long? Imagine spending 24 hours a day with your spouse in 31 not-so-square feet . . . for years; crossing the Pacific Ocean on two gallons of fuel; and tossing spaghetti marinara around your living room, then cleaning it up while bouncing like ice in a martini shaker. **Tightwads on the Loose** tells the story of Wendy and Garth, lured to sea by the promise of adventure. They buy a 31-foot boat that fits their budget better than it fits Garth's large frame and set sail for an open-ended voyage, never imagining they'd be gone seven years, or cover 34,000 miles at the pace of a fast walk. They live without most "necessities" and learn that teamwork and a sense of humor matter most as they face endless "character-building opportunities." They make a long-anticipated visit to the island where Garth had been shipwrecked as a teenager, only to find it had become a penal colony. An electronic catastrophe in the Solomon Islands leaves them without navigation equipment, which forces them to trade their free-wheeling lifestyle for one that seems straight out of a '60s sitcom: jobs at a U.S. Army base in the Marshall Islands. In Asia, they dodge typhoons and ships that threaten to turn their home into kindling. Finally they endure a grueling 49-day nonstop ocean crossing. None of this prepares them for their arrival "home" to a post-9/11 America which leaves them wondering what had changed more, them or the world. **Tightwads on the Loose** offers a fun read to the armchair adventurer -- or anyone afflicted with wanderlust.

This paper describes economic developments in Cape Verde during 1990–96. After a noticeable slowdown during 1989–91, the Cape Verdean economy rebounded in 1992 and continued to expand in 1993–95, prompted by a sustained increase in public spending and the positive effects of a liberalization of economic activities. Real GDP growth averaged 4 percent during 1992–95, but domestic, economic, and financial developments were characterized by increasing imbalances. Total government expenditure increased rapidly, reaching on average 60.1 percent of GDP in 1994–95, far outpacing any growth in domestic revenues and external grants.

The story of the Ham Lake fire, at the time the most destructive wildfire in modern Minnesota history—the blaze, the firefighters' battle, the human toll On May 5, 2007, two days into his twenty-seventh trip to the Boundary Waters, Stephen Posniak found a perfect spot on Ham Lake and set about making a campfire. Over the next two weeks, the fire he set would consume 75,000 acres of forest and 144 buildings. More than one thousand firefighters would rally to extinguish the blaze, at a cost of 11 million dollars. Gunflint Burning is a comprehensive account of the dramatic events around the Ham Lake fire, one of the largest wildfires in Minnesota history. Cary J. Griffith describes what happened in the minutes, hours, and days after Posniak struck that fateful match—from the first hint of danger to the ensuing race to flee the fire or defend imperiled property to the incredible efforts of firefighters and residents battling a blaze that lit up the Gunflint Trail like the fuse to a powder keg. We meet locals faced with losing everything: the sheriff and his deputy tasked with getting everyone out alive; tourists caught unawares; men and women using every piece of equipment and modern firefighting technique against impossibly high winds and dry conditions to suppress a wildfire as it grew to historic proportions; and, finally, Stephen Posniak, who in the aftermath tragically took his own life—the fire's only fatality. In sharp detail, Gunflint Burning describes the key events of the Ham Lake fire as they unfold, providing readers with a sense of being on the front lines of an epic struggle that was at times heroic, tragic, and sublime.
