educators. It begins with a discussion of the trends in nursing education and the principles of teaching and learning. The book then explores topics such as classroom teaching, clinical experiences, teaching in the simulation laboratory, and online learning. Each chapter discusses the basics of teaching and learning in the specific environment, followed by scenarios that focus on the issues encountered by nursing faculty in these settings. The scenarios present the key issues under consideration, recommend actions that faculty members can institute to address the issues, and describe rationales and solutions based on best evidence. The book also includes specific tools designed to assist nurse educators in preparation for the teaching role, such as examples of course syllabi, program outcomes, clinical contracts, and action plans. Nurse Educator's Guide to Best Teaching Practice is a valuable resource for novice and experienced educators in managing the challenges inherent in nursing education.

Did you know that over 50% of mortgages don't close? Do you know how much home you can buy? Do you know how much paperwork is involved? Most people don't know how much home purchasing power they have, how much to expect for closing costs (varies by state), or how much paperwork is involved when applying for a home loan. Most people have no idea the difference between loan

programs from bank to bank, lender to lender, or broker to broker- or what the differences are between the main types of residential mortgage providers. Most people have no criteria for choosing a lender, the type of loan to seek, or how much down payment is best for them. For example, are there differences between the types of property that may affect down payment? The mortgage industry is packed with nuance, which can lead to confusion for the consumer. While trying to buy a home, you may have people from many different professions telling you what you should do and how to make decisions-who should you listen to in which situations? Your most personal financial information is critical to the mortgage process and yet do you know who you are sending it to? What about mortgage insurance? Why is it required and when? The two questions I most often hear are: "What's the payment?" and, "What's the interest rate?" While these questions are important, there are several other questions that are just as critical: what is the right loan type for me; is there an up-front funding fee for this loan; what are the differences in available mortgage insurance; how will property type restrictions affect my loan; what are the pros and cons of this

loan; what is the down payment requirement with this loan choice over another; what are the closing costs associated with each loan type; and, who is allowed to pay the closing costs? Successfully navigating the maze of questions, regulations, and requirements ultimately leads to a mortgage closing. Through over ten years of experience, thousands of clients, hundreds of Realtor and builder transactions (time line constraint purchases), and, as a licensed loan originator in 9 states and the District of Columbia, I have developed a wealth of knowledge about regulations and requirements. My commitment to client service and caring about their home buying experience has driven my passion for the individual personal experience in the mortgage industry and how the regulations and requirements affect real people in real time. With this book I'm privileged and excited to share my knowledge and experience with you. After reading this book, you will have an understanding of the big corporations that loan money to homebuyers, what other options you have and how to navigate government regulations and requirements to your advantage. I feel that an educated consumer is my best customer and I am happy to share these mortgage tools

and tips with you in the hopes that you educate yourself and find the best mortgage and the mortgage professional that is right for you. In addition, I want you to know what to expect, what to ask, and, who to ask to get the answers you want and to understand what those answers really mean. With each chapter I will guide you through the mortgage process, from choosing between different loan types, to understanding the difference between a Good Faith Estimate and an Itemized Fee Worksheet, to the necessity of submitting certain documents in a particular method, and finally how to enter Closing Day stress-free and knowing that you have gotten the mortgage that makes the most financial sense for your future. The goal is to help you get the best mortgage possible for your individual needs and get to closing on time, stress free!

On Purpose, Selling Your Company With Intention And Purpose! was written as a guide for the small business owner to understand the steps involved in the process of selling a company for maximum value. Most business owners will only sell a company once or twice in a lifetime making them inexperienced at best. Hiring a business broker is one of the last steps you'll take in selling your company. I wrote this book so you can better understand the steps you need to take to begin the process of selling a company and maximize the value for all parties. I pull back the curtain and shed light on important aspects of selling that most buyers don't understand until it's too late. I arm you with the insight and experience needed to prepare yourself and your company for sale and successfully work through the sales process. After reading this book, you will be able to plan confidently and follow through with a successful sale of your company.

Are you a First Time Home Buyer? Wondering if you should buy or rent? Do you know how much home you can afford? How much money will you need when buying a home? What financing options are available? The Millennial Way Home - An Invested Millennial Guide on Buying Your First Real Estate Property Conventional wisdom says most millennials can't afford to buy a home. But this book takes a much more positive and constructive approach with a proven step-by-step strategy. Now anyone in their 20s and 30s can easily own or rent the home of your dreams. The book starts with a realistic look at how much home you can afford. This ensures mortgage payments will be affordable, you have a better chance of being approved for financing, and won't have

to face disappointments or hardships. Also learn how to work with real estate professionals who can guide you through the process of qualifying for a loan, participating in government assistance programs that can lower costs, finding the right neighborhood, and locating a home that is a perfect fit for you and your loved ones. While most other books only cover buying a home, *The Millennial Way Home* refreshingly includes renting and leasing homes. This can make the most sense for a lot of people who don't have access to the sometimes sizable down payment necessary for purchasing a home. Renting can also be ideal for anyone who must move frequently or is unsure about their job stability. Now you have the option of getting more for your rental dollars. Instead of being stuck with a cramped apartment, you can stretch out in a home that truly fits your situation and preferences. This book is unusual in it takes time to explain why being "house poor" is a challenge no Millennial should ever have to deal with. Biting off too much in mortgage payments or rent can be disastrous in the long run. The author explains how this can happen and ways to avoid falling into this common trap. A key chapter is the "Millennial Way Home." It lays out an easy, common sense step-by-step strategy for buying or renting a home. It takes the reader from judging how much you can afford to making an offer to setting up an inspection, closing the deal, and moving in. Readers

get access to several helpful tools used by professionals. They include: Buy vs Rent Calculator, the Home Affordability Calculator, Fixed Mortgage Loan Calculator, Flexible Rate Mortgage Loan Calculator. The Millennial Way Home clears the fog on buying or renting your first home. It's a clear pathway to owning real estate that can create the life you want and serve as an excellent way to grow your wealth. Now you have the same opportunity of achieving the "American Dream" enjoyed by countless previous generations. If you've heard Millennials can't have a home, this book will prove that wrong with a surefire way to get the affordable real estate deal you want and need. You shouldn't be rushed, but take time to understand the best option for you. Buying or renting is a great way to establish and improve credit while building your wealth for the future. Buy this book, read it, follow its good advice and guidance, and get ready to see your dreams become reality.
