

## Beyond Belief My Secret Life Inside Scientology And My Harrowing Escape By Jenna Miscavige Hill 2013 Paperback

This is a memoir presented in an anthological - like format; in other words, a collection of short stories, on the life of the author. It starts when he was growing up in the Philippine countryside of Ilocos Sur province. Just like a normal kid, he played with his friends, did crazy things, went to school and moved to Manila, for his college education. He got married while in fifth year college, but still graduated on time. This book relates his struggles, failures, as well as successes, including his coming to America. Searching for the American Dream was no picnic either, but with perseverance, he achieved some of them in modest ways. Foreigners planning to immigrate to the great ol' USA could get glimpses, on what it takes, to come and live in America.

Clutter has a negative effect on your life. You want to live differently, but you haven't been able to make progress. Marcie Lovett, author of *The Clutter Book*, will motivate you to make the changes you want. Learn to let go of what you don't need and find room for what you value. The direct, accessible writing style and interactive exercises will inspire you to succeed. In this book, Marcie guides you through the process of letting go of the clutter that is keeping you from achieving success. Whether your clutter is caused by things, commitments or thoughts, Marcie encourages you to make the choices to conquer your challenges. If previous attempts at letting go of clutter have not been successful for you, you will benefit from the motivation and wisdom Marcie offers. Written in a straightforward and accessible style, filled with insight and real-life stories, the book enables readers to learn from the experience of others and overcome obstacles to success. You will understand why you keep clutter, save time and money by avoiding unnecessary purchases, discover the habits that hold you back, find ways to fight procrastination and create systems that allow you to retrieve and return items. Whether you want to live with less or live with what you have, this is the book for you.

Beyond Belief My Secret Life Inside Scientology and My Harrowing Escape Harper Collins

Revelatory investigation into the police handling of the Yorkshire Ripper Case which spanned over 14 years. Newly updated to include Sutcliffe's bid for freedom in 2008, and the verdict from court in 2010.

Scientology, Dianetics, and L. Ron Hubbard Exposed

The Secret Life of Bees

The Real Life of Daniel Defoe

**The Earth is in ruins. Cities and nations destroyed. Mankind is extinct. Brant and Arsha are synthetics, machines made in the image of people. They dream of bringing humans back into the world and have the technology to succeed, but the obstacles in their way are mounting. Not only are their own conflicting ideals creating a rift between them, but now the sinister Marauders are closing in as they seek revenge on Brant. Out in the wasteland, strange lights and mysterious objects in the sky herald the arrival of new factions that seek to control the region. Even in the once quiet streets of their own city, malevolent forces are beginning to unfurl that threaten the sanctity of everything they hold dear, jeopardising the future that is within their grasp. The Silent Earth Series Book 1 - After the Winter:**

Do you feel overwhelmed by all the stuff in your home? Is your home office a messy file drawer of papers? Do you want to get organized, but you do not know where to start? This book will help you look at your stuff differently and put you on the right track to get organized and stay organized, so you can better enjoy life. We will consider the real value of our possessions. Is "real value" a dollar amount? Or the usefulness of the item? Or how it makes you feel? There are many ways to consider an item's value, none of them right or wrong. Everything is relative in terms of what is really important to you, whether it be your time, your space, or your stuff.

*The Book of Knowledge and Wonder* is a memoir about claiming a legacy of wonder from knowledge of a devastating event. In some ways it has the feel of a detective story in which Steven Harvey pieces together the life of his mother, Roberta Reinhardt Harvey, who committed suicide when he was eleven, out of the 406 letters she left behind. Before he read the letters his mother had become little more than her death to him, but while writing her story he discovered a woman who, despite her vulnerability to depression, had a large capacity for wonder and a love of familiar things, legacies that she passed on to him. The book tackles subjects of recent fascination in American culture: corporate life and sexism in the fifties, mental illness and its influence on families, and art and learning as a consolation for life's woes, but in the end it is the perennial theme of abiding love despite the odds that fuels the tale. As the memoir unfolds, his mother changes and grows, darkens and retreats as she gives up her chance at a career in nursing, struggles with her position as a housewife, harbors paranoid delusions of having contracted syphilis at childbirth, succumbs to a mysterious, psychic link with her melancholic father, and fights back against depression with counseling, medicine, art, and learning. Harvey charts the way, after his mother's death, that he blotted out her memory almost completely in his new family where his mother was rarely talked about, a protective process of letting go that he did not resist and in a way welcomed, but the book grows out of a nagging longing that never went away, a sense of being haunted that caused the writer to seek out places alone—dribbling a basketball on a lonely court, going on long solitary bicycle rides, walking away from his family to the edge of a mountain overlook, and working daily at his writing desk—where he might feel her presence. In the end, the loss cannot be repaired. Her death, like a camera flash in the dark, blotted out all but a few lingering memories of her in his mind, but the triumph of the book is in the creative collaboration between the dead mother, speaking to her son in letters, and the writer piecing together the story from photographs, snatches of memory, and her words so that he can, for the first time, know her and miss her, not some made up idea of her. The letters do not bring her back—he knows the loss is irrevocable—but as he shaped them into art, the pain, that had been nothing more than a dull throb, changed in character, becoming more diffuse and ardent, like heartache.

"If you've ever wondered why we keep secrets and what motivates us to spill them, look no further. Michael Slepian has spent the past decade studying the psychology of secrets, and is ready to reveal his findings to the world."—Adam Grant, #1 New York Times bestselling author of *Think Again* "The Secret Life of Secrets gracefully blends engaging stories with compelling science."—Sonja Lyubomirsky, University of

California professor and author of *The How of Happiness* Think of a secret that you're keeping from others. It shouldn't take long; behavioral scientist Michael Slepian finds that, on average, we are keeping as many as thirteen secrets at any given time. His research involving more than 50,000 participants from around the world shows that the most common secrets include lies we've told, ambitions, addictions, mental health challenges, hidden relationships, and financial struggles. Our secrets can weigh heavily upon us. Yet the burden of secrecy, Slepian argues, rarely stems from the work it takes to keep a secret hidden. Rather, the weight of our secrets comes from carrying them alone, without the support of others. Whether we are motivated to protect our reputation, a relationship, a loved one's feelings, or some personal or professional goal, one thing is clear: Holding back some part of our inner world is often lonely and isolating. But *The Secret Life of Secrets* shows you that it doesn't have to be. Filled with fresh insight into one of the most universal—yet least understood—aspects of human behavior, *The Secret Life of Secrets* sheds a fascinating new light on questions like: At what age do children develop the cognitive capacity for secrecy? Do all secrets come with the same mental load? How can we reconcile our secrets with our human desires to relate, connect, and be known? When should we confess our secrets? Who makes for the ideal confidant? And can keeping certain types of secrets actually enhance our well-being? Drawing on over a decade of original research, *The Secret Life of Secrets* reveals the surprising ways that secrets pervade our lives, and offers science-based strategies that make them easier to live with. The result is a rare window into the inner workings of our minds, our relationships, and our sense of who we are.

Parenting Beyond Belief

The Secret Life of Secrets

Surviving Hollywood and Scientology

Beyond Belief

Karl's Story

Counterfeit Dreams

Why am I here? What happens after we die? These are some of the hardest questions a child can ask—and even harder for parents to answer, especially if you've chosen to raise your child without religion. Gathering the perspectives of educators and psychologists, as well as wisdom from everyday parents, *Parenting Beyond Belief* offers insights and advice on a wide range of topics including: Instilling values • Finding meaning and purpose • Navigating holidays • Coping with loss • Finding community without religion...and more The second edition of this secular parenting bestseller brings back reflections from such celebrated freethinkers as Richard Dawkins and Julia Sweeney, and adds new voices including journalist Wendy Thomas Russell, essayist Katherine Ozment, sociologist Phil Zuckerman, and many others. Wise, entertaining, and deeply supportive, the book will empower parents in their quest to raise ethical, compassionate, and open-minded children—without religion.

#1 NEW YORK TIMES BESTSELLER • An eye-opening, no-holds-barred memoir about life in the Church of Scientology, now with a new afterword by the author—the outspoken actress and star of the A&E docuseries *Leah Remini: Scientology and the Aftermath* Leah Remini has never been the type to hold her tongue. That willingness to speak her mind, stand her ground, and rattle the occasional cage has enabled this tough-talking girl from Brooklyn to forge an enduring and successful career in Hollywood. But being a troublemaker has come at a cost. That was never more evident than in 2013, when Remini loudly and publicly broke with the Church of Scientology. Now, in this frank, funny, poignant memoir, the former King of Queens star opens up about that experience for the first time, revealing the in-depth details of her painful split with the church and its controversial practices. Indoctrinated into the church as a child while living with her mother and sister in New York, Remini eventually moved to Los Angeles, where her dreams of becoming an actress and advancing Scientology's causes grew increasingly intertwined. As an adult, she found the success she'd worked so hard for, and with it a prominent place in the hierarchy of celebrity Scientologists alongside people such as Tom Cruise, Scientology's most high-profile adherent. Remini spent time directly with Cruise and was included among the guests at his 2006 wedding to Katie Holmes. But when she began to raise questions about some of the church's actions, she found herself a target. In the end, she was declared by the church to be a threat to their organization and therefore a "Suppressive Person," and as a result, all of her fellow parishioners—including members of her own family—were told to disconnect from her. Forever. Bold, brash, and bravely confessional, *Troublemaker* chronicles Leah Remini's remarkable journey toward emotional and spiritual freedom, both for herself and for her family. This is a memoir designed to reveal the hard-won truths of a life lived honestly—from an author unafraid of the consequences. Praise for *Troublemaker* "An aggressively honest memoir . . . *Troublemaker* is the most raw and revealing Scientology memoir to date."—*Entertainment Weekly* "Leah's story is a juicy, inside-Hollywood read, but it's more than that. It's a moving story about the value of questioning authority and how one woman survived a profound crisis of faith."—*People*

An amazing life. As a *New Yorker* brought up in the world of Broadway theater, the author, Burt Boyar, became a child radio actor earning \$1000 a week in the late 1930's, early 40's, playing Archie on *Archie Andrews*, Billy Batson on *Captain Marvel*, Dexter Franklin on *Corliss Archer*, etc. etc. Then he became a caviar taster, a polo player, a widely syndicated Broadway columnist, close friend and biographer to Sammy Davis, Jr. with the worldwide Best Selling book, *Yes I Can*. Then, an intimate of the world's greatest tennis players, Rod Laver, Ken Rosewall, Lew Hoad, etc. which brought him and beloved wife, Jane, to Spain where they lived for 28 glorious years in a beach house in Marbella as close friends of Chief of State General Francisco Franco's family, among other European dazzlers, until Jane's untimely death brought their idyllic 44 year marriage to an end. Burt returned to the U.S., to Los Angeles, where he is living yet another extraordinary life.

"What you think about God, another person, or the world, means nothing and it means everything. It means nothing because it often has nothing to do with how they actually are in their fullness. It means everything because it has everything to do with how you will see and experience them. To your absolute good fortune Their Truth is Beyond your Belief!"

The Secret Lives of Women in Extreme Religions

How Our Inner Worlds Shape Well-Being, Relationships, and Who We Are

The Book of Knowledge and Wonder

Blown for Good

Life Beyond Belief

The first in a series of 33 Year-books that detail the Social History of Australia in the 33 years 1939 to 1971. It describes how the population felt as the excitements and changes of those years developed. Great for birthdays and Christmas for families and friends, aunts and uncles, Gran and Pop, workmates and boss. You too.

\*Now a #1 New York Times bestseller\* "Compulsively readable..." —*LA Weekly* "Excoriating memoir"

—*Publisher's Weekly* "A sad and painful but bravely told story." —*Kirkus Reviews* The only book to examine the origins of Scientology's current leader, RUTHLESS tells the revealing story of David Miscavige's childhood and

his path to the head seat of the Church of Scientology told through the eyes of his father. Ron Miscavige's personal, heartfelt story is a riveting insider's look at life within the world of Scientology. Not for sale outside the U.S.

A shocking expose of the appalling abuse and experimentation carried out on vulnerable children at Aston Hall Hospital, Derbyshire, in the 60s and 70s.

When famed psychic Perspicacious Peg predicts a murder will occur at England's Belief and Beyond conference, her science-minded colleagues recruit twenty-six-year-old budding sleuth Emily Castles to attend the event as a "future crimes investigator." The suspected victim: celebrated magician Edmund Zenon, who plans to perform a daring stunt at the conference--and is offering fifty thousand pounds to any attendee who can prove that the paranormal exists. In the seaside town of Torquay, Emily meets a colorful cast of characters: dramatic fortune-teller Madame Nova; kindly Bobby Blue Suit and his three psychic dachshunds; Sarah and Tim Taylor, devastated parents mourning their late son; and religious cult members Hilary, Trina, and the Colonel. Tensions rise as believers in science, the supernatural, and the spiritual clash with one another. But once a body count begins, Emily must excuse herself from the sêances and positivity circles, and use old-fashioned detective work to find the killer.

Other Realms: Volume One

Scientology, My Son David Miscavige, and Me

*National Book Award Finalist A clear-sighted revelation, a deep penetration into the world of Scientology by the Pulitzer Prize-winning author of The Looming Tower, the now-classic study of al-Qaeda's 9/11 attack. Based on more than two hundred personal interviews with current and former Scientologists--both famous and less well known--and years of archival research, Lawrence Wright uses his extraordinary investigative ability to uncover for us the inner workings of the Church of Scientology. At the book's center, two men whom Wright brings vividly to life, showing how they have made Scientology what it is today: The darkly brilliant science-fiction writer L. Ron Hubbard, whose restless, expansive mind invented a new religion. And his successor, David Miscavige--tough and driven, with the unenviable task of preserving the church after the death of Hubbard. We learn about Scientology's complicated cosmology and special language. We see the ways in which the church pursues celebrities, such as Tom Cruise and John Travolta, and how such stars are used to advance the church's goals. And we meet the young idealists who have joined the Sea Org, the church's clergy, signing up with a billion-year contract. In Going Clear, Wright examines what fundamentally makes a religion a religion, and whether Scientology is, in fact, deserving of this constitutional protection. Employing all his exceptional journalistic skills of observation, understanding, and shaping a story into a compelling narrative, Lawrence Wright has given us an evenhanded yet keenly incisive book that reveals the very essence of what makes Scientology the institution it is.*

*"With stories by women from a wide range of religious communities--including Evangelical Christian, Catholic, Jewish, Mormon, Muslim, Calvinist, Moonie, the Unification Church, and Jehovah's Witnesses--the writers in Beyond Belief pull back a heavy curtain to reveal what they love about their lives within these communities, along with the pain that comes from the rigid expectations and diminishment of women so often built into religious orthodoxy."--Back cover.*

*With an uncanny relevance to today's world and inspired by the life of its author, Karl's Story, is a WW II child refugee's tale of resilience, hope and courage as told through the narrative of her beloved teddy bear, Karl .A story perfect for all ages: read to children by parents, grandparents and teachers alike. It has been read many times to middle elementary grades. A book to be handed down from parent to child to child for generations to come. Karl, "a very old teddy bear," has a magic gift- he can tell stories to children who are still young enough to understand toy talk . Karl's Story begins in Europe. It's about Karl, the young girl Karin, and Mimi the mind reading cat, ... how the three friends experience and survive WW II and then escape from communism to a new and hope-filled life with his beloved friend Karin .Their journey, their story, enchants children but in the sense of The Little Prince speaks timelessly to adults as well . Karl's Story tells of European refugees and is as relevant today as then. The chaos of the time turned the world of the three friends upside down, slowly at first, from no more whipped cream at birthday parties to ever more frequent air raids, crashing bombs, and a harrowing train ride, with Karl and Mimi stuffed in Karin's old wicker trunk. In the journey Karin loses all she ever knew or loved, but goes on to rebuild her world in America. The book is categorized as Children's Fiction because of its charming cover and talking stuffed animals but is inspirational to young and old alike, and a perfect antidote in these still troubled times; this is indeed a book for all.*

*Other Realms: Volume One is the first book in a new series that collects original short stories by fantasy and sci-fi author Shaun Kilgore. In this volume, you'll be taken to far off fantasy worlds filled with magic, adventure, and the games of noble houses and the plights of brave warriors. This book contains ten stories, including "A Reckoning," "Death To The Messenger," "Midwinter Night," "Oathsworn," "The Beast Of Mern," "The Prophet's Return," "The Risen Queen," "The Ruling," "The Traitor," and "Winds Of Fate."*

*How I survived the secret child experiments at Aston Hall*

It had seemed so simple, even fun, when they explained it: New York needed non-satellite-based relay towers. Commco sent me to find towns along the needed pathway, to offer to restore some of the boons of civilization in return for an agreement to build, power and guard the towers. After all, it had only been fifty years. I would never have believed that the countryside would have turned barbaric so fast. Thus begins Martin Barrister's journey through an unfamiliar landscape, where his training and skills are of little help, and only quick wits and creativity will allow him to survive. When his job turns out to be a ruse, and he becomes bait in a dispute he can barely fathom, Martin discovers what loyalty is worth. And what civilization is - and isn't - comprised of.

Things that happen to you in the past can mold you into someone you

As Ruben Wells kneels with a gun pointed at his head all he can do is reflect on the life he spoiled. What has led him here? Was it his willingness to always try to do the right thing that has him staring at the barrel of a gun? Or was that he was too much of a people pleaser having a hard time saying no that has led to him begging for his life? Every thing begins and ends with a choice. The moment a choice is made it only takes a second for a life to change. Ruben made a choice to initiate a relationship with the alluring Bianca Jones. She makes heads turn and every man's dream. She is beautiful as a gazelle, but as dangerous as a lioness, as she's unavailable due to being unhappily married with children. Being married doesn't keep her from wanting to pursue Ruben as well as being pursued by him. Getting involved with Bianca changes Ruben's life in ways he never could have imagined. Choices are a gift constantly given to everyone. The choices made lead to different paths. We all have to choose this day what we're going to do with our own lives not knowing what the end result will be. What kind of impact will Ruben's choices have on his life?

Carol Tyler has been a professional (and highly acclaimed) cartoonist for over 20 years, appearing in such venues as Weirdo, Wimmen's Comix, and Drawn & Quarterly magazine. But over the years her status as a working mother has drastically curtailed her ability to set aside time for her cartooning. Thus each rare new story from her pen has been greeted with hurrahs as well they should be, because she's one of the most skillful, caustic, and emphatic cartoon storytellers of her generation. This new book presents the biggest, richest and most delightful collection of Tyler's work to date featuring many new and previously unpublished works. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.9px Arial; color: #424242}

LIFELINE

The Truth Is Beyond Belief!

Witch

Escaping Scientology and Fighting for the Woman I Love

Documents the twenty-year crime and killing spree of Brookey Lee West, a successful technical writer in Silicon Valley, whose beliefs in witchcraft and satanism drove her to murder. Original.

Jefferson Hawkins spent thirty years selling Scientology as one of their top marketing executives. The the Orwellian dark side of the Church threatened to destroy everything he had. A rare look at what goes on behind the glittering facade of today's most controversial cult.

Jenna Miscavige Hill, niece of Church of Scientology leader David Miscavige, was raised as a Scientologist but left the controversial religion in 2005. In *Beyond Belief*, she shares her true story of life inside the upper ranks of the sect, details her experiences as a member Sea Org—the church's highest ministry, speaks of her "disconnection" from family outside of the organization, and tells the story of her ultimate escape. Piercing the veil of secrecy that has long shrouded the world of Scientology, this insider reveals unprecedented firsthand knowledge of the religion, its obscure rituals, and its mysterious leader—David Miscavige. From her prolonged separation from her parents as a small child to being indoctrinated to serve the greater good of the Church, from her lack of personal freedoms to the organization's emphasis on celebrity recruitment, Jenna goes behind the scenes of Scientology's oppressive and alienating culture, detailing an environment rooted in control in which the most devoted followers often face the harshest punishments when they fall out of line. Addressing some of the Church's most notorious practices in startling detail, she also describes a childhood of isolation and neglect—a childhood that, painful as it was, prepared her for a tough life in the Church's most devoted order, the Sea Org. Despite this hardship, it is only when her family approaches dissolution and her world begins to unravel that she is finally able to see the patterns of stifling conformity and psychological control that have ruled her life. Faced with a heartbreaking choice, she mounts a courageous escape, but not before being put through the ultimate test of family, faith, and love. At once captivating and disturbing, *Beyond Belief* is an eye-opening exploration of the limits of religion and the lengths to which one woman went to break free.

In *Beyond Belief*, renowned religion scholar Elaine Pagels continues her groundbreaking examination of the earliest Christian texts, arguing for an ongoing assessment of faith and a questioning of religious orthodoxy. Spurred on by personal tragedy and new scholarship from an international group of researchers, Pagels returns to her investigation of the "secret" Gospel of Thomas, and breathes new life into writings once thought heretical. As she arrives at an ever-deeper conviction in her own faith, Pagels reveals how faith allows for a diversity of interpretations, and that the "rogue" voices of Christianity encourage and sustain "the recognition of the light within us all."

On Raising Ethical, Caring Kids Without Religion  
Gone to America  
Inside Scientology  
When You Can't Let Go  
My Secret Life Inside Scientology and My Harrowing Escape

Based on five years of research, access to confidential documents, and extensive interviews with current and former Scientologists, Janet Reitman sheds some long-awaited light on the ever-elusive religion of the Church of Scientology. Scientology, created in 1954 by pulp science fiction writer L. Ron Hubbard, claims to be the world's fastest growing religion, with millions of members and huge financial holdings. Celebrity believers keep its profile high. Teams of volunteer ministers offer aid at disaster sites like Haiti and the World Trade Center. But Scientology is also a very closed faith, harassing journalists and others through litigation and intimidation, even infiltrating high levels of the government to further its goals. Its attacks on psychiatry and its requirement that believers pay as much as tens or even hundreds of thousands of dollars for salvation have drawn scrutiny and skepticism. Ex-members use the internet to share stories of harassment and abuse. Reitman offers the first full journalistic history of the Church of Scientology in an even-handed account that establishes the truth about the controversial religion. She traces Scientology's development from the birth of Dianetics to today, following its metamorphosis from a pseudoscientific self-help group to a global spiritual corporation with profound control over its followers and ex-followers. This is a defining book about a little-known world.

Laura Knight-Jadczyk's series, *The Secret History of the World*, is one of the most ambitious projects ever undertaken to provide a cogent, comprehensive account of humanity's true history and place in the cosmos. Following the great unifying vision of the Stoic Posidonius, Laura weaves together the study of history, mythology, religion, psychology and physics, revealing a view of the world that is both rational and breathtaking in its all-encompassing scope. This second volume, *Comets and the Horns of Moses*, (written in concert with several following volumes soon to be released) picks up the dangling threads of volume one with an analysis of the Biblical character of Moses -- his possible true history and nature -- and the cyclical nature of cosmic catastrophes in Earth's history. Laura skillfully tracks the science of comets, revealing evidence for the fundamentally electrical and electromagnetic nature of these celestial bodies and how they have repeatedly wreaked havoc and destruction on our planet over the course of human history. Even more startling however, is the evidence that comets and cometary fragments have played a central role in the formation of human myth and legend and the very concept of a 'god'. As she expertly navigates her way through the labyrinth of history, Laura uncovers the secret knowledge of comets that has been hidden in the great myths, ancient astronomy (and astrology) and the works of the Greek philosophers. Concluding with a look at the political and psychological implications of cyclical cometary catastrophes and what they portend for humanity today, *Comets and the Horns of Moses* is a marvel of original thought and keen detective work that will rock the foundations of your understanding of the world you live in, and no doubt ruffle the feathers of the many academics who still cling to an outdated and blinkered view of history.

In this scholarly and imaginative book, John Martin reveals for the first time a life of Daniel Defoe (1661 ?-1731) which, although sometimes hinted at before, has never been discovered. Defoe led a long and mysterious life as a journalist, government agent and secret 'Governor General' of the press and was the writer of a mountain of books, pamphlets and poems. He lived in tumultuous times in which any doubts that Britain was to develop as a parliamentary democracy were settled for ever. Defoe was a religious dissenter but notwithstanding tills he was often at the centre of political and religious debate. Controversially, John Martin argues that Defoe's complex sexuality was the principal reason for the secret and difficult life he led. Although simultaneously married to three 'wives' by whom he had eight children, he was willing to use same-sex relationships to advance himself socially and politically and for money. John Martin argues that Defoe's fictions reveal the events of his life and that in a real sense the pirates, courtesans, and criminals who crowd ill's pages - when properly understood - are Defoe in ill's many disguises. In real life Defoe was always in debt, frequently arrested and imprisoned, pilloried, twice bankrupted and he ended his life penniless in hiding from a blackmailer.

When bad boy movie star Gage Maddox thinks his starlet girlfriend has cheated on him this alpha male wants pretty much everyone's head on a platter. He heads home to his family's estate to regroup and put his plans in action. But what happens when information comes to light that may prove her innocence? What would the hotshot leading man do to get even with the people who tried to destroy the one thing that means everything to him?

The True Story of Las Vegas' Most Notorious Female Killer

Going Clear

The Story of America's Most Secretive Religion

Real Value New Ways to Think About Your Time, Your Space & Your Stuff

The revelatory memoir by former "poster girl for Scientology" Michelle LeClair about her defection from the Church, her newly accepted sexual identity, and the lengths to which Scientology went to silence it. For years, Michelle LeClair, former President of Scientology's international humanitarian organization, tried to reconcile her sexual orientation with the anti-gay ideology of the church. Michelle finally ends her horrific marriage, finds the love of her life, a woman, and ultimately leaves the Church. But the split comes at a terrible price. Her once pristine reputation is publicly dragged through the mud, the police raid her home, her ex-husband tries to gain full custody of their children, and the multi-million dollar business she built from scratch is utterly destroyed. In this tell-all memoir, Michelle offers an insider's perspective on Scientology's pervasive influence, secret rituals, and ruthless practices for keeping members in line. It's a story of self-acceptance, of finding the strength and courage to stand up for your emotional freedom, and of love prevailing.

A former Church of Scientology member describes his experience in that organization, outlining the mind-control and dollar-extraction methods it employs on its members and offering a revealing look at the life of Scientology creator L. Ron Hubbard
