*The Indian system of philosophy is the store-house which has supplied spiritual food, through the ages, to all the nations of the world. Other teachings, whatever they be, are but the sauces and the spices, useful so long as this philosophy supplies the spiritual inspiration. Yogasutra of Patanjali is divided into four chapters. It comprises aphorisms on the system of yoga. The aphorisms relate to the subject of Spiritual Absorption (Samadhi), Means of Practice (Sadhana), Accomplishments (Vibhuti) and Emancipation (Kaivalya). To expound further: Ch. I explains the*

*grades of Spiritual Action for the restraint of the exhibitiv operations of the mind. Until that is done no yogic achievement is possible. Ch. II deals with the process of Material Action which can attenuate the gross impurities that have entered into the mind. Ch. III pertains to the Dissolutionary Change of the worldly life by means of Samyama. Ch. IV explains the working of threefold actionâ€” the present action, the stored-up action and the regulated frutive action. It teaches how the individual soul, released from the bond of actions, realizes the Reality of the Supreme Being wherein the individual souls merge into Brahman as rivers do into the ocean. The entire system of Yoga,*

Diksita. Many of the rules given here are translations of the relevant Sutras of Panini. The original Sutras are given in footnotes, where necessary. Sandhis and declensions are fully treated; compounds which dominate classical Sanskrit literature have received special attention; formation of feminine bases has been illustrated; Taddhita affixes have been arranged in an alphabetical order. A special feature of the present grammar is the chapter on the Conjugation

of Verbs. The general rules given are amply illustrated by examples. All the verbs which change their pada when preceded by particular prepositions are given in an alphabetical order. The chapter on Syntax contains almost everything given in the first 20 chapters of author's Guide to Sanskrit Composition; the chapter on Prosody is based on the Chandomanjari and the Vrttaratnakara. The author has spared no pains to make the book as useful and as complete as possible.

edition of my highly cherished work of Bhrigu Samhita, an ancient and unique treatise in predictive astrology. I was equally elated and feel ecstatic for having received encouraging as well as critical responses from the esteemed and avid readers. In deference to their valuable suggestions and also some ambiguity pointed by them, I have revised some part of the chapter on “Basic Astrology” and also brought about improvement and amplifications in certain parts of the analyses of various charts wherein the evolved principles which are specifically important in delineating horoscopes on the format of Bhrigu Samhita are further explained. This was done with a view to make the

Astrology can be considered a useful branch of knowledge only if its concepts and principles could be applied to assess the personality and life of a person, and to look into the years ahead to tell him as to what is in store for him. The Signs, Houses and Planets are the three basic factors which need to be understood clearly for developing successful predictive ability. In PREDCTIVE ASTROLOGY--AN INSIGHT, rules and facts pertaining to each of these factors have been given and the effect of one factor on the other has been analysed in a

very comprehensible and instructive manner. For timing the events in the life of a person correctly, the Vimshottari Dasa System has been rationalised to fit the calendar in vogue and details of supportive transit indications have also been given. This book is a manual of practical astrology designed to enable the reader to handle queries relating to various facets of everyday life successfully.

by Arthur Avalon gives a concise outline of the work. Sri M.P. Pandit who is a keen student of the Tantras and Vedas has rendered the work in English in eleven chapters. The readings are free translations, with annotations where necessary, omitting technical details but preserving the spirit and essential import of the original in his characteristically lucid style. The Kularnava prescribes the modes of preparation for the high quest; it draws upon

ethics, religion, philosophy, yoga to elevate human life gradually to the level of godly life. It comprehends the multiple personality of man and provides for the healthy growth of his mental faculties, purification of his physical faculties through ritual, japa, mantra and upasana. Who is fit for the path of Tantra? Who is competent to guide the novice on the double - edged razor path? What is the responsibility of a Guru to a disciple? These and other relevant

questions are raised and answered in a satisfying manner.

Excerpt from First Book of Sanskrit: Being an Elementary Treatise on Grammar, With Exercises Tur. Study of Sanskrit has but recently risen in the estimation of the educated natives of this Presideneey and of our Educational authorities. The old

Sanskrit College of Poona owed its existence and continuance rather to the spirit of conciliation and tolerance in our rulers, than to their conviction of the utility of Sanskrit as a branch of general education. The modern critical and progressive spirit was not brought to bear upon it. The old Sasthis were allowed to carry all things in their own way. After about thirty years since its establishment, the authorities began to exercise active interference, until at

length the College was abolished, and a new system inaugurated, which to be complete and collective, requires, in my humble opinion, a partial restoration of the old institution.
