Told from the split viewpoints of Liv and Jory, Kate A. Boorman's *What We Buried* is a psychological thrill ride that deftly explores how memories can lie, how time can bend, and how reconciling the truth can be a matter of life or death. “Do you ever just want to be believed?” Siblings Liv and Jory Brewer have grown up resenting each another. Liv—former pageant queen and reality TV star—was groomed for a life in the spotlight, while her older brother, Jory, born with a partial facial paralysis, was left in the shadows. The only thing they have in common is contempt for their parents. Now Liv is suing her mom and dad for emancipation, and Jory views the whole thing as yet another attention-getting spectacle. But on the day of the hearing, their parents mysteriously vanish, and the siblings are forced to work together. Liv feels certain she knows where they are and suspects that Jory knows more than he’s telling...which is true. What starts as a simple overnight road trip soon takes a turn for the dangerous and surreal. And as the duo speeds through the deserts of Nevada, brother and sister will unearth deep family secrets that force them to relive their pasts as they try to retain a grip on the present.

**This book, first appearing in German in 2004 under the title *Spezielle Relativitätstheorie für Studienanfänger*, offers access to the special theory of relativity for readers with a background in mathematics and physics comparable to a high school honors degree. All mathematical and physical competence required beyond that level is gradually developed through the book, as more advanced topics are introduced. The full tensor formalism, however, is dispensed with as it would only be a burden for the problems to be dealt with. Eventually, a substantial and comprehensive treatise on special relativity emerges which, with its gray-shaded formulary, is an invaluable reference manual for students and scientists alike. Some crucial results are derived more than once with different approaches: the Lorentz transformation in one spatial direction three times, the Doppler formula four times, the Lorentz transformation in two directions twice; also twice the unification of electric and magnetic forces, the velocity addition formula, as well as the aberration formula. Beginners will be grateful to find several routes to the goal; moreover, for a theory like relativity, it is of fundamental importance to demonstrate that it is self-**

Open your pure eyes. whatever things are true, whatever things are noble, whatever things are pure, whatever things are lovely, whatever things are of good report, if there is any virtue and if there is anything praiseworthy—meditate on these things (Philippians 4:8). After struggling with sexual temptation for years, author Jonathan Welton devoted himself to finding a way to live completely free from sexual sin. He read books, attended 12-step groups, and participated in counseling—with no success. Spurred on by countless friends and acquaintances who shared their broken struggle and longed for freedom, the author searched Scripture—there he found the answer and shares it with you in a compassionate, nonjudgmental way. Eyes of Honor helps you understand how to live a life of purity by realizing: Your personal identity. How to view the opposite sex correctly. Recognizing your enemies. Eyes of Honor is honest and refreshing, offering hope and complete deliverance from sexual sin. Jesus' sacrifice on the cross and your salvation guarantee resistance to the appetite of sin. Your true identity empowers you to stop agreeing with the lies of the enemy that ensnare you.

The lord of snark, Lawrence Dorfman, is back! With this treasury of backhanded compliments, insults, and catty comebacks, Dorfman gives us transformative wisdom that's sure to change your life—or at least induce a light chuckle. One question plagues us all: How do we survive all the drang of everyday life? The answer is but one word: snark. “She wears her clothes as if they were thrown on by a pitchfork.” —Jonathan Swift “Why don't you get a haircut? You look like a chrysanthemum.” —P. G. Wodehouse “He's a mental midget with the IQ of a fence post.” —Tom Stoppard “They hardly make 'em like him anymore—but just to be on the safe side, he should be castrated anyway.” —Hunter S. Thompson “He has a Teflon brain . . . nothing sticks” —Lily Tomlin “He has more backbone than a chocolate éclair.” —Theodore Roosevelt Snark will keep the wolves at bay (at least out on the porch). Snark, much like a double scotch, will help you deal with relatives, snobs, and rudeness; it is an outlet for the unleashed vitriolic bile that's saved itself up over the months. Like a shield, it will protect you while you go about your life. Snark is your answer!
